1 OPENING OF MEETING AND ANNOUNCEMENT OF VISITORS

The Mayor declared the meeting open at 5:30 pm and announced that the Council Meeting is being live streamed in accordance with the City's Council Meetings – Live Streaming, Recording and Electronic Attendance Policy. By being present at this meeting, members of the public consent to the City live streaming and publishing their voice on the City's website. The Mayor noted that members of the public are not subject to video live streaming and only their voice will be captured.

2 ACKNOWLEDGEMENT OF COUNTRY

George Walley kindly prepared this statement.

People have been here for a long time. I want to acknowledge the presence of people over that long time with firstly the Bindjareb Noongar people who continue to have an ongoing connection to this land. They have been here for over 50,000 years. This place Mandjoogoordap or Mandurah, acknowledges a beautiful name, full of intent of people living here and others visiting here. That intent gives us an idea of their ancestral land usage over that long period. Mandurah, the gathering place is unique because even today we still gather here in the most beautiful place for many important reasons. Let us embrace the notion of people being in this space as we move forward as one community.

3 APOLOGIES

Leave of Absence

Cr A Zilani

Apologies

4 DISCLAIMER

Members of the public are advised that any decisions made at the meeting tonight, can be revoked, pursuant to the *Local Government Act 1995*. Therefore, members of the public should not rely on any decisions until formal notification in writing by Council has been received.

5 ANSWERS TO QUESTIONS TAKEN ON NOTICE

5.1 Councillor R Burns: Western Australian Local Government Association

WALGA provides a range of services, training, and advocacy functions that the City of Mandurah engages with. To better understand the level of that engagement and the associated cost to ratepayers, I have a series of questions relating to expenditure in the 2024–25 financial year.

Question 1

What was the total amount paid by the City in membership fees to the Western Australian Local Government Association (WALGA)?

City of Mandurah Response

The City of Mandurah (the City) paid \$91,034.36 for Western Australian Local Government Association (WALGA) Membership and Subscriptions annual fee.

The City's Membership and Subscriptions comprises of:

- Association Subscription 59,021.06
- Employee Relations Subscription 24,187.90
- Procurement Services Subscription 3,064.60
- Tax Services Subscription 2,645.50
- Local Laws Subscriptions 777.70
- LG Complete Guide 1,337.60

Question 2

What was the total amount spent on WALGA-delivered training for both staff and Elected Members? Please distinguish between mandatory and non-mandatory training where applicable.

City of Mandurah Response

The total amount spent by the City on WALGA training was \$20,190.

The breakdown is set out below:

- The total amount spent by the City on WALGA training for staff was \$18,062. All training undertaken by City staff is for the purpose of performing their roles.
- The total amount spent by the City on WALGA Mandatory Training* for Elected Members was \$385.
- The total amount spent by the City on WALGA non-mandatory training for Elected Members was \$1,743.

**Mandatory Training* In accordance with *Local Government (Administration) Regulation 1996 r35*, mandatory training for Elected Members is the course titled Council Member Essentials which consists of the following modules, Understanding Local Government, Serving on Council, Meeting Procedures, Conflicts of Interest and Understanding Financial Reports and Budgets.

Question 3

What was the total amount spent on WALGA events, forums, and conferences attended by staff and Elected Members?

City of Mandurah Response

The total amount spent by the City on WALGA events, forums and conferences was \$7,851.40

Question 4

What additional services, subscriptions, or programs does the City procure through WALGA, and what is the cost of each?

City of Mandurah Response

Refer to the response in Question 1.

Question 5

What was the total amount spent on memberships, training, events, and conferences associated with Local Government Professionals Australia WA (LG Professionals WA) for staff and Elected Members?

City of Mandurah Response

The total amount spent by the City on *Local Government Professionals WA (LGPWA) memberships, training, events, and conferences* for staff was \$19,269. All training undertaken by City staff is for the purpose of performing their roles.

The total amount spent by the City on *LGPWA memberships, training, events, and conferences* for Elected Members was \$0.

Question 6

For completeness, can the above WALGA and LG Professionals WA expenditures be broken down by category (membership, training, events, conferences, additional services), and by staff versus Elected Members, where practicable?

City of Mandurah Response

The break down is set out below:

WALGA

Category	Staff	Elected Members	Total
Membership	\$91,034.36		\$91,034.36
Elected Member Mandatory Training		\$385.00	\$385.00
Elected Member Training		\$1,743.50	\$1,743.50
Staff Training	\$18,062.00		\$18,062.00
Events/Forums/Conferences	\$2,390.00	\$5,461.40	\$7,851.40
Additional Services	\$1,250.00	\$0.00	\$1,250.00
WALGA TOTAL	\$112,736.36	\$7,589.90	\$120,326.26

LGPWA

Category	Staff	Elected Members	Total
Membership	\$1,500.00	\$0.00	\$1,500.00
Training	\$12,404.00	\$0.00	\$12,404.00
Events/Conferences	\$5,365.00	\$0.00	\$5,365.00
LG PROFESSIONALS WA TOTAL	\$19,269.00	\$0.00	\$19,269.00

5.2 Councillor D Schumacher: Noise Levels

Question 1

In relation to noise levels of commercial businesses, I wish to clarify if the City is looking to review or increase the decibel levels from hospitality, commercial outlets in Mandurah?

City of Mandurah Response

The City does not prescribe permitted noise levels anywhere including within the City's entertainment precinct but must ensure compliance with the State's *Environmental Protection (Noise) Regulations 1997*. The City has previously advocated for higher noise levels within Special Entertainment Precincts when consultations on planning policy and reviews of the noise regulations have occurred in recent years. As part of the Council endorsed City Centre Master Plan the City recognised the following:

- Page 31 text under Activity (Facilitate Catalyst Investment Opportunities) Food and Beverage Offering and Increase Residential Population:

“ The planning framework supports increased residential development however there is a need to further explore barriers and impediments to further opportunities. There is a need to investigate planning and environmental regulation relating to noise controls in entertainment precincts to ensure the regulatory environment can improve noise provisions for mixed use city centre development outcomes.”

It includes action A1.4: Noise Controls in Entertainment Precincts:

Investigate planning and environmental regulation provisions relating to Noise Controls in Entertainment Precincts to ensure vibrant and mixed-use land uses can co-exist.

Details: Seek to implement planning scheme and regulatory change to better manage noise provisions for mixed use city centre development outcomes.

Action: Incorporate outcomes into the Strategic Centre Precinct Structure Plan (and Local Planning Scheme 12 if required).

To support this, the City is referencing the WAPC's Position Statement on Special Entertainment Precincts into our work schedule and inputs in the preparation of the Mandurah Centre Plan (Strategic Centre Precinct Structure Plan).

Question 2

Are we aware if the State Government are reviewing noise levels from licensed premises?

City of Mandurah Response

As part of work to implement the Northbridge Special Entertainment Precinct there is an advanced review of the *Environmental Protections (Noise) Regulations 1997* which is intending to increase noise levels, but this has focused heavily on Northbridge. Changes to the planning requirements and noise regulations must be done together as without amendment to the *Environmental Protection (Noise) Regulations 1997* these requirements will override any planning amendments.

There would be an extensive body of work for the City to implement the type of changes as have been progressed in Northbridge and this is likely to require a separate regulation amendment.

6 AMENDMENT TO STANDING ORDERS

Not required.

7 PUBLIC QUESTION TIME

The Mayor opened Public Question Time at 5:34 pm.

7.1 Public Questions

7.1.1 Noel Fosbery: Building Planning

Question 1

The City has confirmed that no Building Permit was submitted nor approved for the link between the temporary pharmacy and the new building, yet the structure has already been built. What enforcement action will the City now take against the developer for carrying out unauthorised works?

City of Mandurah Response

The City makes decisions about enforcement activities based on a range of risks and subject to legal advice. The City is continuing to receive legal advice in relation to this matter.

Question 2

It is my understanding that the planning basis upon which the City of Mandurah granted development approval for the temporary building was solely to permit a short-term temporary use by the landowner within a designated building envelope, pending construction of the landowner's proposed permanent building within a separate building envelope on the same lot, with no mention of a link between the two. If that understanding is correct, on what basis does the City of Mandurah consider it lawful to permit the temporary building to remain on the land after 30 March 2026 and to be physically connected to the separate permanent building?

City of Mandurah Response

The City is in the process of assessing the application for an amendment to the existing Development approvals relating to the development timing conditions. The assessment will be in line with legal advice and appropriate application of the *Planning and Development Act 2005*, noting that commercial considerations do not form part of the assessment.

Question 3

Will the City commit to enforcing its original approval conditions and require removal of the temporary building and unauthorised link, rather than allowing retrospective approval after the works have already been completed?

City of Mandurah Response

The City is required to assess the amendment to the Development approval on its merits. Decisions of local governments are subject to appeal to the State Administrative Tribunal. The City will be guided by legal advice in relation to approvals and enforcement action.

7.1.2 Jacqueline Del Bravo: Public car park at Breakwater Parade – Town Beach

Question 1

Lot 24 (Public car park at Breakwater Parade – Town Beach) has a restrictive covenant on it until 2039 and the Council have a lease until 2039 - the land was valued accordingly when it was sold in December 2018 for \$325,000. If the proposed land use and zoning changes proceed, would those changes mean the current restrictive covenant and lease agreement no longer apply?

City of Mandurah Response

The proposal to modify the Precinct Structure Plan is currently being advertised for comment due to an application having been received on behalf of the landowners of this site and the adjoining Strata Lot 107. City officers have not completed an assessment of the proposal and Council will be required to provide a report at the completion of the advertising period to consider all submissions, an assessment of the proposal based on planning principles and a recommendation to the Western Australian Planning Commission on whether the proposed Precinct Structure Plan modification should be approved by the Commission.

Any changes to the agreement that allows for public parking will need to be considered by Council in due course but would need to take place prior to any construction commencing, however at this early stage in the process, the proponent has agreed to permanently providing 50 parking bays for the public within the development. This information forms part of the frequently asked questions with the proposal being advertised, but the final agreement is yet to be considered by Council.

Question 2

Based on the current approvals and planning processes, when is construction on Lot 24 likely to commence? Could this be before the current restrictive covenant ends in 2039?

City of Mandurah Response

The City cannot provide any certainty on when construction would commence. If the timeframe is before 2039, then Council would need to formally consider the existing arrangements for the site as outlined in the previous answer.

Question 3

In the current Indicative Massing Concept – the ground floor that is opposite residential homes – has a use of Shops/entertainment. What kind of entertainment would that be, and could it be a brewery or similar?

City of Mandurah Response

The proposal is to change the ‘zoning’ of Lot 24 to Tourism; and identifying Lot 24 as being subject to the Precinct Structure Plans requirements as a semi-active street front.

In the existing Precinct Structure Plan, permitted land uses include tourist developments and holiday accommodation, with other uses such as restaurant/café, offices, shops, brewery, tavern listed as incidental uses, which means that must form part of an integrated tourism related development outcome and not as separate stand alone developments. The existing Precinct Structure Plan outlines that ‘non-residential uses must occupy the ground floor of new development’ in areas as having a semi-active frontage

As outlined in the answer to question 1, City officers have not completed an assessment of proposal and will need to ensure that the proposal results in an outcome that meets the strategic objectives of the precinct but the regulatory requirements such as the land uses fit the location in

which they are located being cognisant of the zoning requirements immediately surrounding the site.

7.1.3 Brian Perry: Gift Acceptance

Question 1

I read an article in the paper about the City of Mandurah being investigated for gifts among other councils. Was anyone investigated on the Council for taking inappropriate gifts?

City of Mandurah Response

There has been no investigation relating to City Officers accepting any gifts. The article Brian Perry is referring to, is an audit undertaken by the Office of Auditor General who selected a sample of local governments as well as undertook a wider scan of the entire industry and the outcomes of that audit can be accessed via the Office of Auditor General website. In relation to the OAG audit, the City of Mandurah, on a number of occasions, was identified as best practice in relation to the Governance framework of accepting gifts.

Question 2

I know that under the Act you are allowed to accept gifts. Would you not only accept gifts if you had to attend an event?

City of Mandurah Response

The City does have a Code of Conduct and a Policy in relation to how and when an acceptance of a gift can occur. However, there is a reporting requirement in relation to receiving gifts by Elected Members and the CEO. The City's gift register is publicly available.

Question 3

You stated that you would eradicate homelessness in Mandurah.

City of Mandurah Response

This question has been raised in a previous Council meeting and a copy of the minutes containing the response will be provided to Brian Perry after the meeting.

7.1.4 Gary Buckland: Newspaper Article

Question 1

Do you agree with the statement in the 'Shortfall without rates rise' newspaper article as it is written?

City of Mandurah Response

This question was taken on notice until after the Mayor reads the full article and will provide comment to Mr Buckland.

The Mayor closed Public Question Time at 5:47 pm.

8 PUBLIC STATEMENT TIME

8.1 Holly Maree Modolo: Baroy and Lynda Street proposed roundabout

Statement asking Council to consider pausing the commencement of works and require a review of her concerns and consultation.

9 LEAVE OF ABSENCE REQUESTS

Nil

10 PETITIONS

10.1 Councillor O Mulder: South East Dawesville Landscape Works – Stage 3B Concept Plan

Councillor Mulder presented to Council a petition that contains the signatures of 345 residents, 317 of whom are verified, requesting that Council consider that the permanent path as designed on South East Dawesville Landscape Works-Stage 3B Concept Plan be dropped or the path be re-routed behind Port Bouvard Yacht Club.

OCM26/35 Council Resolution

MOTION

Moved: Cr O Mulder

Seconded: Cr R Burns

That the petition be received and referred to relevant officers.

CARRIED: 11/0

For: Mayor A Kearns, Deputy Mayor J Smith, Cr J Cumberworth, Cr J Green, Cr D Wilkins, Cr S Wright, Cr C Knight, Cr P Jackson, Cr D Schumacher, Cr O Mulder and Cr R Burns

Against: Nil

10.2 Councillor J Cumberworth: Baroy and Lynda Street proposed roundabout

Councillor Cumberworth presented to Council a petition that contains the signatures of 60 residents, all of whom are verified, requesting that Council pause the proposed roundabout at Baroy Street and Lynda Street, Falcon, and explore alternative traffic-management options.

OCM26/36 Council Resolution

MOTION

Moved: Cr J Cumberworth

Seconded: Cr D Schumacher

That the petition be received and referred to relevant officers.

CARRIED: 11/0

For: Mayor A Kearns, Deputy Mayor J Smith, Cr J Cumberworth, Cr J Green, Cr D Wilkins, Cr S Wright, Cr C Knight, Cr P Jackson, Cr D Schumacher, Cr O Mulder and Cr R Burns

Against: Nil

11 PRESENTATIONS

Nil

12 DEPUTATIONS

Nil

13 CONFIRMATION OF MINUTES

13.1 Ordinary Council Meeting held on 28 April 2026

OCM26/37 Council Resolution

MOTION

Moved: Cr D Wilkins

Seconded: Deputy Mayor J Smith

That the Minutes of the Ordinary Council Meeting held on 28 April 2026 be confirmed.

CARRIED: 11/0
For: Mayor A Kearns, Deputy Mayor J Smith, Cr J Cumberworth, Cr J Green, Cr D Wilkins, Cr S Wright, Cr C Knight, Cr P Jackson, Cr D Schumacher, Cr O Mulder and Cr R Burns
Against: Nil

14 ANNOUNCEMENTS BY THE PRESIDING MEMBER (WITHOUT DISCUSSION)

Councillor D Schumacher	Warrior Foundation Launch
Deputy Mayor Smith	Next Gen – Values and Leadership Summit
Mayor	Summary of Volunteer Week

15 DECLARATIONS OF FINANCIAL, PROXIMITY AND IMPARTIALITY INTERESTS

- 15.1 Mayor A Kearns declared an impartiality interest in Item 19.2 Mandurah Central Community Hub due to having a long personal relationship with Mandurah Lions Club joining as a Leo Member and will remain in the Chambers during the discussion.

16 QUESTIONS FROM ELECTED MEMBERS

16.1 Questions of Which Due Notice Has Been Given

16.1.1 Councillor D Schumacher: Port Mandurah Canals

Question 1

What dredging works and maintenance works were carried out directly related to the Port Mandurah Canals development for the periods of 2024/2025 and 2025 to 1st May 2026, which were assigned to Port Mandurah SAR's?

City of Mandurah Response

This question was taken on notice.

Question 2

What was the actual cost of these works, as per these periods?

City of Mandurah Response

This question was taken on notice

Question 3

What was the % contribution from the SAR collected from ratepayers and from COM?

City of Mandurah Response

This question was taken on notice

Question 4

How is the City planning to alleviate traffic congestion on Sutton St and on the CBD road network?

City of Mandurah Response

City Officers are presently, through an expert consultant, currently undertaking modelling work of the intersections around the City centre and from that modelling work we will be developing concept plans which we expect will be available for consultation later in this calendar year.

16.1.2 Councillor J Cumberworth: Lynda Street and Baroy Street.

Question 1

How many crashes have occurred at the intersection Lynda and Baroy Street?

City of Mandurah Response

The City's Blackspot submission was made in 2023/24 and was based on the 2019 to 2023 crash data period. There were 4 crashes of medical injury severity with one in 2020, two in 2021 and one in 2022. While outside of this crash data period, a further crash of major property damage severity occurred in 2024.

Question 2

What were the vehicles and what was their direction of travel?

City of Mandurah Response

The above referred crashes are all right-angle collisions with four of the five crashes involving cars or utility vehicles, with each crash involving a vehicle travelling on Baroy Street and a vehicle travelling on Lynda Street. The fifth crash was a cyclist travelling on Baroy Street colliding with a utility vehicle on Lynda Street (2020). It is expected that these crashes were the result of vehicles not stopping at the give way intersection control on Lynda Street. Also, traffic speed data on Baroy Street shows that the 85th percentile speeds are around 60km/hr, to the east of Lynda Street, which may also be a factor in the severity of the crashes, and is approximately 10km/hr above the legal speed limit for these roads.

Question 3

Were vehicles rolling through the give way sign and then being hit by vehicles coming down the hill the most common accident? Could stop signs instead of give way signs reduce this particular accident type, being rolling through a give way sign at an intersection with reduced visibility looking left?

City of Mandurah Response

Given that give way intersection control has not been adequate to prevent past crashes, it is recommended that higher order intervention is needed. The roundabout with pre-deflection, as designed, is targeted at reducing speeds on the approach to, and at, the intersection and will result in one directional traffic flow through the intersection. This improves road safety through forcing drivers to slow down and travel in a single direction reducing the expected speed and conflict point at the intersection and accordingly, the severity of any crashes.

Question 4

Has community consultation revealed residents are concerned about hooning and traffic using Lynda Street as a thorough fare?

City of Mandurah Response

City officers have been advised of concerns about traffic speeds at, and around, the intersection and particularly on Baroy Street. This is supported by the City's traffic data.

Question 5

Has redirecting traffic up to the intersection of Galatea Road and Baroy Street been investigated as a method to reduce traffic on Lynda Street?

City of Mandurah Response

Galatea Road and Baroy Street are both classified as local access roads within the City's road hierarchy and carry vehicle volumes that are aligned with these classifications. The redirection of traffic from Baroy Street onto Galatea Road is not considered appropriate as this would lead to adverse local amenity issues on Galatea Road.

Question 6

What methods are available to deter through traffic from using a residential street in favour of a spine street like Galatea Road?

City of Mandurah Response

As noted above, Galatea Road and Baroy Street are both classified as local access roads within the City's road hierarchy.

Question 7

What are the challenges with building a roundabout on an incline and does it create additional crash risks during wet weather?

City of Mandurah Response

The design includes pre-deflection on each approach to the roundabout to slow vehicles down ahead of reaching the roundabout. The pre-deflection will also be supplemented with appropriate road surface treatment, lighting, and advanced warning signage to support the safe use of the roundabout in this location. The roundabout design has been endorsed by an independent and certified road safety auditor and has also been supported by Main Roads WA.

Question 8

What are all the different categories of road within the hierarchy please?

City of Mandurah Response

This question was taken on notice.

16.2 Questions of Which Notice Has Not Been Given

16.2.1 Councillor Schumacher: Streetlights

Question 1

I have noticed that our streetlights are either constantly out or taking a long time to repair. Is there an issue with bulbs or power supply?

City of Mandurah Response

The majority of street lighting is owned and maintained by Western Power. The City owns and maintains around 2000 city streetlights. In terms of supply, depending on the issue it can take a varied amount of time. If it is a simple globe replacement be rectified fairly quickly. If it is an electrical fault that can take significantly longer. If it requires parts and equipment then this can take up to 3 to 4 months to source those particular parts and particularly where the infrastructure is ageing.

Question 2

How many streetlights do we have under the City of Mandurah?

City of Mandurah Response

This question was taken on notice but the City's streetlight number is significantly lower than the Western Power owned infrastructure.

16.2.2 Councillor J Green: Roundabout markings

Question 1

On the topic of roundabouts, is there going to be a review of the roundabouts for reflective material coating the contour of the roundabout mainly because most of the roundabouts in the past have been in intersections where there has been streetlights but lately those streetlights have been out and sometimes when it is dark you are not upon that roundabout until it is too late. Is there going to be a review or assessment being done to ensure all roundabouts have the reflective coating?

City of Mandurah Response

In general, there are line markings which has a reflective material in the line marking to ensure that it is visible at night. That should be give way lines and each of the points on the approach to the roundabout and in some cases line markings on the lead up as well as guidance through the roundabout in terms of lane markings. All those things would be reflective to provide that visibility at night. In terms of lighting, they are linked to Australian Standards but if there is lighting not working then we would be relying on car headlights and pavement markings as well as signage on approach to the roundabout. If the Elected Member can provide more information on the locations of the roundabouts in question, then City Officers can investigate those as a priority.

17 BUSINESS LEFT OVER FROM PREVIOUS MEETING

Nil

18 CONFIDENTIAL RECOMMENDATIONS OF COMMITTEES

NOTE: Council adopted en-bloc

Moved by Mayor A Kearns and seconded by Councillor C Knight, that the recommendations of the Audit, Risk and Improvement Committee meeting of Monday 4 May 2026 be adopted en-bloc.

MOTION

Moved: Mayor A Kearns

Seconded: Cr C Knight

That Council adopt the Recommendations of the Audit, Risk and Improvement Committee on 4 May 2026.

Subject: 19.2 Mandurah Central Community Hub

Summary

The Mandurah Central Community Hub (the “Hub”) is projected to transform the former Indoor Sport Centre on Dower Street into a thriving community space in the heart of central Mandurah. The Hub will create a multi-purpose facility that serves the community with a mix of anchor tenants and bookable space, providing diverse opportunities for recreation, volunteering, learning, community service and social connection.

The Hub will provide a suitable new home for the Lions Club of Mandurah, as well as the Mandurah Men’s Shed and Peel Men’s Shed who will combine efforts to maximise their collective impact. These three groups are each currently operating from different and inadequate premises with insecure tenancies. The Hub will enable the groups to have stability, build on their existing success, and offer opportunities for growth. The Hub will also provide a new multi-purpose space available for hire by the whole community, with priority hire to the Lions Club. The City will consolidate City storage at the Hub, and consequently discontinue paying commercial rates for off-site storage. This enables the funds to be redirected from commercial storage fees to instead partly pay for ongoing operating and renewal costs at the Hub.

At its meeting on 22 October 2024, Council resolved to progress the former Indoor Sports Facility as the preferred site for a shared community facility, and undertake multiple due diligence and engagement activities. The purpose of this report is to outline the status of the project, recommend a concept design, outline cost estimates and propose a way forward which includes application to Lotterywest. Whilst stakeholders have expressed different views over the course of the project, all stakeholders reached shared consensus at a combined meeting with the City on 7 May 2026 to progress the preferred Concept Design (refer Attachment 1), and all stakeholders have confirmed their acceptance of this Concept Design in writing.

This project has been referred to using several different names over the past six years, most recently the “Central Shed”. It was considered that “Central Shed” may imply the entire facility is a Men’s Shed, and did not suitably represent the Lions Club or multi-purpose nature of the facility. City officers raised the suggestion of the facility being called the “Mandurah Central Community Hub” which is flexible, representative and welcoming, and this name change garnered support.

Officer Recommendation

That Council:

1. Approves the Concept for the Mandurah Central Community Hub (as outlined in Attachment 1)
2. Requests City officers submit a grant application to Lotterywest in seeking maximum funding for the Mandurah Central Community Hub
3. Notes that City officers will bring a report to Council outlining tenancy arrangements at a later date.

Subject: 19.3 Public Health and Wellbeing Plan 2026-2030

Summary

The draft City of Mandurah Public Health and Wellbeing Plan 2026–2030 (PH&WP) and Implementation Plan were advertised for public comment from 28 October to 30 November 2025, following Council endorsement to release the draft. A proactive engagement approach was adopted, incorporating online engagement, pop-up sessions at key community locations and targeted stakeholder consultation.

Feedback received demonstrated strong overall support for the Plan’s strategic direction and priority focus areas. Submissions were reviewed by the City alongside updated population health datasets provided by the South Metropolitan Health Service. As a result, improvements were made to strengthen the PHWP, while maintaining the core intent of the plan.

The final PH&WP aligns with the State Public Health Plan 2025–2030, reflects community priorities and meets the City’s legislative obligations under the *Public Health Act 2016*. Council is requested to adopt the final Public Health and Wellbeing Plan 2026–2030.

Officer Recommendation

That Council:

1. Approve the Public Health and Wellbeing Plan 2026-2030 (as detailed in attachment 1) and corresponding Implementation Plan (as detailed in attachment 2).
2. Note the feedback provided by the community in relation to the Public Health and Wellbeing Plan that can be viewed on the Mandurah Matters platform.

Amended Officer Recommendation

That Council:

1. Approve the Public Health and Wellbeing Plan 2026-2030 (as detailed in Attachment 1), replacing the Behavioural risk factors table on page 12 with Attachment 3 and corresponding Implementation Plan (as detailed in Attachment 2)
2. Note the feedback provided by the community in relation to the Public Health and Wellbeing Plan that can be viewed on the Mandurah Matters platform.

Comment: Minor amendment to the Behavioural risk factors table to correct the wording relating the consumption of fruit and vegetables.

Cr D Schumacher left the meeting at 7:16 pm.

Cr D Schumacher returned to the meeting at 7:19 pm.

OCM26/43 Council Resolution

Comment: Minor amendment to the Behavioural risk factors table to correct the wording relating the consumption of fruit and vegetables.

Subject: 19.4 Disability Access and Inclusion Plan (DAIP) - 2026-2030

Summary

This report presents the draft Disability Access and Inclusion Plan 2026–2031 (referred to as the DAIP or the Plan) for Council’s consideration and endorsement to proceed to community consultation.

The development of the draft Plan was informed by comprehensive community engagement, including consultation with people with disability, carers, service providers, advocacy organisations, and internal stakeholders.

A consolidated summary of engagement outcomes was informally presented to Elected Members in February 2026. This briefing outlined the analysis and categorisation of feedback into key priority themes, which have subsequently informed the strategic direction, objectives, and actions contained within the draft Plan.

The draft DAIP establishes a structured and forward-looking framework to guide Council’s decision-making, priorities, and service delivery in relation to disability access and inclusion.

The draft Plan incorporates:

- Integration of community and stakeholder feedback into clear strategic priorities.
- Alignment with legislated outcome areas and recognised best practice principles in access and inclusion
- A comprehensive Implementation Plan outlining actions, responsibilities, timeframes, and performance monitoring mechanisms
- Strengthened governance, reporting, and accountability measures.

Endorsement of the draft Plan will enable its release for broader community and stakeholder consultation on Mandurah Matters.

The proposed consultation process will provide accessible opportunities for community members, stakeholders, and interest groups to review and provide feedback on the draft Plan.

Following the consultation period, all submissions will be reviewed and analysed. A revised final DAIP will then be presented to Council for consideration and potential adoption.

This process supports a transparent, inclusive, and evidence-based approach, consistent with Council’s commitment to meaningful community engagement and informed decision-making.

Officer Recommendation

That Council:

1. Approves the draft City of Mandurah Disability Access and Inclusion Plan 2026-2031 for public consultation for a period of not less than 28 days.
2. Notes that a further report summarising submissions and any proposed amendments will be presented to Council following the consultation period.

Subject: 19.5 Bush Fire Risk Management Plan 2026-2028

Summary

In accordance with State Hazard Plan – Fire, local governments are required to prepare and maintain a Bushfire Risk Management Plan to identify, assess and prioritise bushfire risk, and to guide coordinated risk treatment planning.

This report seeks Council approval of the City of Mandurah Bushfire Risk Management Plan 2026-2028, which has been developed in accordance with the Office of Bushfire Risk Management Guidelines (2024) and provides a strategic framework for the identification, assessment and treatment of bushfire risk within the City.

Council is also requested to approve minor modifications to the City's Bush Fire Prevention and Control Policy POL – EMS 01 that informs the City's Annual Fire Compliance Notice prepared under the provisions of the *Bush Fires Act 1954*.

Officer Recommendation

That Council:

1. Adopts the City of Mandurah Bushfire Risk Management Plan 2026- 2028 as detailed in *Attachment 1*.
2. Adopts the amended Bushfire Prevention and Control Policy POL-EMS 01 provided in *Attachment 3*.

Amended Officer Recommendation

That Council:

1. Adopts the City of Mandurah Bushfire Risk Management Plan 2026- 2028 as detailed in Attachment 1 noting an amendment to Table 6 Local Government Asset Risk Summary as per Attachment 4.
2. Adopts the amended Bushfire Prevention and Control Policy POL-EMS 01 provided in *Attachment 3*.

Comment: The data presented in Table 6 was copied incorrectly and has been amended accordingly.

Subject: 19.6 Annual Review Register of Delegated Authority & Review of 'Authority to Execute Documents' Council Policy

Summary

In accordance with section 5.46 of the *Local Government Act 1995* (the Act), the City of Mandurah (the City) is required to undertake a review of its delegations at least once every financial year.

In conducting the 2025/2026 Delegated Authority review the City primarily sought to determine that each delegation remains current and effective. As a result, City officers now propose minor amendments to two delegations and adoption of the remaining 46 delegations with no amendments. Additionally, two statutory authorisations have been identified for authorisation by Council.

City officers have reviewed the Authority to Execute Documents Policy (POL-CPM 06) (Policy) to ensure its compliance with the Act, the Operational Guidelines set by the Department of Local Government, Industry Regulation and Safety (the Department) and alignment with contemporary best practices standards within the local government sector. The review identified several opportunities for improvement that will enhance clarity of interpretation and support more effective implementation.

Council is requested to adopt the review of the Register of Delegated Authority (refer Attachment 1) and the Authority to Execute Documents Policy (POL-CPM 06) (refer Attachment 2 for clean version).

Officer Recommendation

That Council:

1. Endorses the 2025/2026 Delegated Authority Review, for the purpose of section 5.46(2) of the *Local Government Act 1995*.
2. Adopts*:
 - a. Minor amendments to the following two Council delegations, as provided in Attachment 1:
 - DA-LWE 11 Authorised Persons to Perform Specified Functions Under the Local Government Act 1995
 - DA-PAD 02 Development Application (excluding Single Houses)
 - b. The following remaining 46 Council delegations with no amendments:
 - DA-BUI 01 Building and Demolition Permits
 - DA-BUI 02 Occupancy Permits and Building Approval Certificates
 - DA-BUI 03 Building Orders
 - DA-BUI 04 Smoke Alarms - Alternative Solutions
 - DA-BUI 05 Private Swimming Pool Safety Barriers

Subject: 19.7 Extraordinary Election - Town Ward

Summary

On 11 May 2026 Councillor Peter Rogers provided the Chief Executive Officer (CEO) with written notice of his resignation as a Councillor for the Town ward. The resignation is to take effect from 13 May 2026.

In accordance with section 4.8 of the *Local Government Act 1995* (the Act) an extraordinary election must be held to fill the vacancy in the Town ward. Local government elections must be conducted in accordance with the Act and associated Regulations, and Council may decide the method of election to be either postal voting or in-person.

The Western Australian Electoral Commissioner (WAEC) has advised that they conduct the extraordinary election on Thursday 24 September 2026. As this date is later than four months after the vacancy occurring, WAEC have granted permission under Section 4.9(2) for this date to be fixed for the extraordinary election.

Council is requested, in accordance with sections 4.9(1)(b) and 4.20(4) of the Act, to declare that WAEC be responsible for the conduct of the City of Mandurah 2026 Extraordinary Election and set the election date as Thursday 24 September 2026.

Council is also requested to resolve in accordance with section 4.61(2) of the Act, that the 2026 Extraordinary Election be conducted as a postal election and note the proposed cost estimate for the conduct of the 2026 Extraordinary Election (Attachment 1).

Officer Recommendation

That Council:

1. Declare, in accordance with section 4.20(4) of the *Local Government Act 1995*, the Western Australian Electoral Commissioner to be responsible for the conduct of the 2026 Extraordinary Election, together with any other elections or polls which may be required*.
2. Decide, in accordance with section 4.61(2) of the *Local Government Act 1995* that the method of conducting elections will be as a Postal election*.
3. Decide, in accordance with section 4.9(1)(b) of the *Local Government Act 1995*, the date for the 2026 Extraordinary Election will be Thursday 24 September 2026.
4. Note the cost estimate provided by the Western Australian Electoral Commission, for conduct of the 2026 Extraordinary Election as per Attachment 1.

*Absolute Majority

Deputy Mayor J Smith returned to the meeting at 7:45 pm.

Subject: 19.8 T05-2026 - Tree Pruning and Associated Services

Summary

The City of Mandurah (the City) sought suitably qualified and experienced contractors for the Request for Tender provision of Tree Pruning and Associated Services T05-2026 for a period of two years with two option(s) to extend at the Principal's discretion for an additional one year to a total possible term of four years.

This contract covers vegetation management services required to achieve and maintain prescribed clearances from low voltage powerlines, including pruning around powerlines located over roads, verges, and service wires. The services also include tree pruning and removal, stump grinding, root pruning with or without the installation of root barriers, and the removal and lawful disposal of all green waste generated by the works. The contract also provides for urgent call-out services related to any tree pruning or tree removal requirements.

Officer Recommendation

That Council accepts Hayes Tree Care Pty Ltd Trading as Hayes Tree Care as the preferred respondent for Tender T05-2026 – Tree Pruning and Associated Services for a period of two years with two option(s) to extend at the Principal's discretion for an additional one year to a total possible term of four years for the Schedule of Rates exclusive GST offered as the most advantageous.

Cr O Mulder left the meeting at 7:50 pm.

Cr O Mulder returned to the meeting at 7:51 pm.

Subject: 19.9 T03-2026 Provision of Security Services

Summary

The City of Mandurah (the City) sought suitably qualified and experienced contractors for the Tender T03-2026 Provision of Security Services for a period of three years with two options for a further one-year period which will be exercised at the sole discretion of the City.

The Contract comprises a consolidated service model of security related services including:

- Static guarding, mobile patrols and crowd control (scheduled and reactive as required);
- 24/7 alarm monitoring, response and escalation;
- Scheduled and reactive maintenance of electronic security systems (alarms and access control); and
- Incident reporting and performance monitoring.

The Services apply across multiple City facilities and may be required outside standard operating hours, including weekends and public holidays.

Major capital upgrades, large-scale system redesign and Major Event security services are excluded from the scope.

Officer Recommendation

That Council:

1. Accepts Major Security Services Pty Ltd as the preferred tenderer for Tender T03-2026 for the Provision of Security Services for a period three years with two options to extend and the principal's discretion for an additional one year for the Schedule of Rates exclusive GST offered as the most advantageous.
2. Notes the Manager Commercial Services will undertake negotiations in accordance with the Delegation DA-CPM 04 Rejecting and Accepting Expressions of Interests and Tenders; Variation Before Contract prior to the issuing of the contract.

OCM26/49 Council Resolution

MOTION

Moved: Cr S Wright

Seconded: Cr D Schumacher

That Council:

1. **Accepts Major Security Services Pty Ltd as the preferred tenderer for Tender T03-2026 for the Provision of Security Services for a period three years with two options to extend and the principal's discretion for an additional one year for the Schedule of Rates exclusive GST offered as the most advantageous.**
2. **Notes the Manager Commercial Services will undertake negotiations in accordance with the Delegation DA-CPM 04 Rejecting and Accepting Expressions of Interests and Tenders; Variation Before Contract prior to the issuing of the contract.**

20 MOTIONS OF WHICH NOTICE HAS BEEN GIVEN

20.1 COUNCILLOR O MULDER: SOUTH EAST DAWESVILLE FORESHORE STAGE 3 WORKS

I, Cr O Mulder, hereby give notice that I intend to move the following Motion at the Council meeting of 26 May 2026.

That Council be provided, prior to the commencement of works, with a briefing by City officers on the two path alignment options for Stage 3 works for the South East Dawesville Foreshore, being:

- 1. a path constructed along the South East Dawesville Foreshore.**
- 2. a path constructed behind the Port Bouvard Yacht Club.**

Cr O Mulder - Reason for the Motion:

That construction of Stage 3 of the South East Dawesville Foreshore project does not commence until City officers have presented to Council the alternative option of redirecting the path behind the Port Bouvard Yacht Club. This option would preserve the existing access to the foreshore for the Port Bouvard Yacht Club. The evaluation by City officers should take into account the stakeholder concerns, including those raised by the Port Bouvard Yacht Club and reflected in the petition received by Council.

Chief Executive Officer comment

In accordance with clause 3.10 Notice of Motion of the *City of Mandurah Standing Orders Local Law 2016*, the Chief Executive Officer provides the following relevant and material facts pertaining to this Notice of Motion:

Project Delivery: This resolution will not affect the expected construction delivery date. However, any subsequent changes to scope are likely to affect delivery timeframes. If, after the briefing, Council seeks changes to the proposed scope, City officers will include a resolution point for Council to acknowledge the revised delivery timeframes and any associated financial implications.

Financial Implications: There are no direct financial implications associated with the resolution itself. However, financial implications may arise if design amendments, re-scoping, further investigation, or delays to procurement or construction are required following the briefing.

Legal Implications: There are no legal implications associated with the resolution.

OCM26/50 Council Resolution

MOTION

Moved: Cr O Mulder
Seconded: Cr J Cumberworth

That the Notice of Motion submitted by Cr O Mulder regarding the South East Dawesville Foreshore Stage 3 Works be received.

2 ACKNOWLEDGEMENT OF COUNTRY

George Walley kindly prepared this statement.

People have been here for a long time. I want to acknowledge the presence of people over that long time with firstly the Bindjareb Noongar people who continue to have an ongoing connection to this land. They have been here for over 50,000 years. This place Mandjoogoordap or Mandurah, acknowledges a beautiful name, full of intent of people living here and others visiting here. That intent gives us an idea of their ancestral land usage over that long period. Mandurah, the gathering place is unique because even today we still gather here in the most beautiful place for many important reasons. Let us embrace the notion of people being in this space as we move forward as one community.

Apologies

4 DISCLAIMER

Members of the public are advised that any decisions made at the meeting tonight, can be revoked, pursuant to the *Local Government Act 1995*. Therefore, members of the public should not rely on any decisions until formal notification in writing by Council has been received.

5 ANSWERS TO QUESTIONS TAKEN ON NOTICE

5.2 Cr R Burns: Western Australian Local Government Association

WALGA provides a range of services, training, and advocacy functions that the City of Mandurah engages with. To better understand the level of that engagement and the associated cost to ratepayers, I have a series of questions relating to expenditure in the 2024–25 financial year.

Question 1

What was the total amount paid by the City in membership fees to the Western Australian Local Government Association (WALGA)?

City of Mandurah Response

The City of Mandurah (the City) paid \$91,034.36 for Western Australian Local Government Association (WALGA) Membership and Subscriptions annual fee.

The City's Membership and Subscriptions comprises of:

- Association Subscription 59,021.06
- Employee Relations Subscription 24,187.90
- Procurement Services Subscription 3,064.60
- Tax Services Subscription 2,645.50
- Local Laws Subscriptions 777.70
- LG Complete Guide 1,337.6

Question 2

What was the total amount spent on WALGA-delivered training for both staff and Elected Members? Please distinguish between mandatory and non-mandatory training where applicable.

City of Mandurah Response

The total amount spent by the City on WALGA training was \$20,190.

The breakdown is set out below:

- The total amount spent by the City on WALGA training for staff was \$18,062. All training undertaken by City staff is for the purpose of performing their roles.
- The total amount spent by the City on WALGA Mandatory Training* for Elected Members was \$385.
- The total amount spent by the City on WALGA non-mandatory training for Elected Members was \$1,743.

**Mandatory Training* In accordance with *Local Government (Administration) Regulation 1996 r35*, mandatory training for Elected Members is the course titled Council Member Essentials which consists of the following modules, Understanding Local Government, Serving on Council, Meeting Procedures, Conflicts of Interest and Understanding Financial Reports and Budgets.

Question 3

What was the total amount spent on WALGA events, forums, and conferences attended by staff and Elected Members?

City of Mandurah Response

The total amount spent by the City on WALGA events, forums and conferences was \$7,851.40

Question 4

What additional services, subscriptions, or programs does the City procure through WALGA, and what is the cost of each?

City of Mandurah Response

Refer to the response in Question 1.

Question 5

What was the total amount spent on memberships, training, events, and conferences associated with Local Government Professionals Australia WA (LG Professionals WA) for staff and Elected Members?

City of Mandurah Response

The total amount spent by the City on *Local Government Professionals WA (LGPWA) memberships, training, events, and conferences* for staff was \$19,269. All training undertaken by City staff is for the purpose of performing their roles.

The total amount spent by the City on *LGPWA memberships, training, events, and conferences* for Elected Members was \$0.

Question 6

For completeness, can the above WALGA and LG Professionals WA expenditures be broken down by category (membership, training, events, conferences, additional services), and by staff versus Elected Members, where practicable?

City of Mandurah Response

The break down is set out below:

WALGA

Category	Staff	Elected Members	Total
Membership	\$91,034.36		\$91,034.36
Elected Member Mandatory Training		\$385.00	\$385.00
Elected Member Training		\$1,743.50	\$1,743.50
Staff Training	\$18,062.00		\$18,062.00
Events/Forums/Conferences	\$2,390.00	\$5,461.40	\$7,851.40
Additional Services	\$1,250.00	\$0.00	\$1,250.00
WALGA TOTAL	\$112,736.36	\$7,589.90	\$120,326.26

LGPWA

Category	Staff	Elected Members	Total
Membership	\$1,500.00	\$0.00	\$1,500.00
Training	\$12,404.00	\$0.00	\$12,404.00
Events/Conferences	\$5,365.00	\$0.00	\$5,365.00
LG PROFESSIONALS WA TOTAL	\$19,269.00	\$0.00	\$19,269.00

5.3 Cr D Schumacher: Noise Levels

Question 1

In relation to noise levels of commercial businesses, I wish to clarify if the City is looking to review or increase the decibel levels from hospitality, commercial outlets in Mandurah?

City of Mandurah Response

The City does not prescribe permitted noise levels anywhere including within the City's entertainment precinct but must ensure compliance with the state Environmental Protection (Noise) Regulations 1997. The City has previously advocated for higher noise levels within Special Entertainment Precincts when consultations on planning policy and reviews of the noise regulations have occurred in recent years. As part of the Council endorsed City Centre Master Plan the City recognised the following:

- Page 31 text under Activity (Facilitate Catalyst Investment Opportunities) Food and Beverage Offering and Increase Residential Population:

“ The planning framework supports increased residential development however there is a need to further explore barriers and impediments to further opportunities. There is a need to investigate planning and environmental regulation relating to noise controls in entertainment precincts to ensure the regulatory environment can improve noise provisions for mixed use city centre development outcomes.”

It includes action A1.4: Noise Controls in Entertainment Precincts:

Investigate planning and environmental regulation provisions relating to Noise Controls in Entertainment Precincts to ensure vibrant and mixed-use land uses can co-exist.

Details: Seek to implement planning scheme and regulatory change to better manage noise provisions for mixed use city centre development outcomes.

Action: Incorporate outcomes into the Strategic Centre Precinct Structure Plan (and Local Planning Scheme 12 if required).

To support this the City is referencing the WAPC's Position Statement on Special Entertainment Precincts into our work schedule and inputs in the preparation of the Mandurah Centre Plan (Strategic Centre Precinct Structure Plan).

Question 2

Are we aware if the state Government are reviewing noise levels from licensed premises?

City of Mandurah Response

As part of work to implement the Northbridge Special Entertainment Precinct there is an advanced review of the Environmental Protections (Noise) Regulations 1997 which is intending to increase noise levels, but this has focused heavily on Northbridge. Changes to the planning requirements and noise regulations must be done together as without amendment to the Environmental Protection (Noise) Regulations 1997 these requirements will override any planning amendments.

There would be an extensive body of work for the City to implement the type of changes as have been progressed in Northbridge and this is likely to require a separate regulation amendment.

6 AMENDMENT TO STANDING ORDERS

Modification to *Standing Orders Local Law 2016* – electronic attendance at meeting.

7 PUBLIC QUESTION TIME

Public Question time provides an opportunity for members of the public to ask a question of Council. For more information regarding Public Question Time, please visit the City's website [About Council Meetings](#) or telephone 9550 3787.

Risk Management Policy

POL-RKM 01

Introduction

~~As a public authority, the~~The City of Mandurah (the City) is exposed to a broad range of risks which, if not managed, could adversely impact on its ability to achieve the strategic community objectives.

Therefore, the City has implemented a risk management system encompassing a Risk Management Framework, this Policy and a Risk Management Procedure to identify and address, where practicable, areas of risk within the City. The system adopted is consistent with *Australian and New Zealand Standard ISO 31000:2018 Risk Management Guidelines* (the Standard).

~~The intent of this Policy is to create an environment where Council, management and all other employees accept direct responsibility for risk management, embed risk management practices into the City's culture and decision making process to contribute to the achievement of the strategic community objectives through development, implementation and improvement of effective risk management practices.~~ Risk management is the responsibility of everyone and is treated as an integral part of the City's culture, policies, protocols and processes.

Objectives

The objectives of risk management and this Policy are:

- **Protection:** to safeguard the City's assets - people, financial sustainability, environment, property, reputation and information;
- **Improved quality:** to use risk management principles as a tool for improving the reliability, effectiveness and efficiency of services and infrastructure to a consistently high standard;
- **Increase success:** to strengthen financial and non-financial outcomes by using risk assessments to make better informed decisions and clearly articulate what is achievable;
- **Minimise adverse impacts:** to undertake effective management of risks in order to prevent loss, damage and minimise harm from the City's services and infrastructure on the community, visitors and the environment; and
- **Opportunity and innovation:** to capitalise on opportunities identified, foster creativity and facilitate innovation for future success within a sound environment.

1 APPLICABILITY

This Policy applies to all risk management activities undertaken by City ~~the officers~~ Workers (including employees, whether permanent or casual, contractors and volunteers), volunteers, appointed representatives and where applicable, contractors. Elected Members and Committee Members. Risk management is not a stand-alone function separate from the main activities and processes of the organisation.

2 POLICY REQUIREMENTS

2.1 The City will manage risk in accordance with the Standard, and will, at all levels of the organisation, ensure the following is achieved:

Risk Management Policy

POL-RKM 01

- Design and implement a Risk Management Framework that is consistent with the Standard to provide a common approach to all risk management activities across the City;
- Identify, assess and prioritise the strategic risks for each objective stated in the *City of Mandurah Strategic Community Plan* and ensure risk treatments are progressively implemented based on the level of risk and the effectiveness of the current controls;
- Manage all identified risks and undertake regular review of all identified risks;
- Integrate risk management processes into existing business planning cycles and operational processes across all levels of the organisation;
- Act in accordance with relevant legislation and consider political, social, natural and economic environments when managing risks;
- Create, implement and actively promote a culture of risk awareness across the City through implementation, expectation and equipping employees and provide best practice with risk management tools for individual and organisational development; and
- Ensure resources and operational capabilities are identified and allocated to all aspects of the City's Risk Management Framework.

2.2 All levels of the City shall incorporate the following principles of Risk Management. These principles are the City's commitment to create, value and foster effective and efficient risk management practices.

The City's risk management approach is:

- integrated** into all management planning and operational processes undertaken or overseen by The City;
- structured and comprehensive** approach that is applied to ensure risk management processes are systematic and timely;
- customised** to fit seamlessly within the City's diverse strategic, operational and project-based activities and in proportion to the external and internal context in which the City operates;
- inclusive** of internal and external stakeholder's knowledge, views and perceptions for transparency and better-informed decision-making;
- dynamic, current** and **responsive** to anticipate and manage change in a meaningful and timely manner;
- based on the **best available information** considering historical, current and future expectations as would be reasonably foreseeable;
- the **responsibility of all**, from Council to the CEO to every employeeWorker, forming an essential element in the City's 'One Team' culture; and
- continually improved** and monitored to ensure alignment with best practice.

2.3 The City will use the following elements of the Standard as the model for implementing and managing the risk management process within the City's business operations:

Risk Management Policy

POL-RKM 01

- **General**

The City will ensure the risk management process becomes an integral part of management, embedded in the culture and practices, and tailored to its business processes.

- **Communication and consultation**

The City will communicate and consult with external and internal stakeholders as appropriate during all stages of the risk management process and will address issues relating to the risk - its causes, its consequences (if known) and the measures being taken to treat it. This process will ensure accountability on the part of those implementing the risk management process.

- **Establish the scope, context and criteria**

By establishing the context, the City will articulate its risk objectives, consider the external and internal parameters, set the scope and criteria for the risk management process. This will be undertaken in full consideration of the need to justify the resources required for carrying out risk management.

- **Risk identification**

The City will identify sources of risk, areas of impacts, events (including changes in circumstances) and their causes and potential consequences. The aim of this step is to generate a comprehensive list of risks based on those events that may create, enhance, prevent, degrade, accelerate or delay the achievement of the City's objectives.

- **Risk analysis**

The City will identify causes and sources of risk, the positive and negative consequences, and the likelihood of those consequences occurring. Existing controls, their effectiveness and efficiency, will also be considered. The analysis will identify the inherent risk level and residual risk level once controls and treatments have been applied.

- **Risk evaluation**

The City will compare the level of risk with the established context and criteria for the risk. Risk controls and treatment will then be considered. Such decisions will take into account the wider context including the risk tolerance thresholds of internal and external stakeholders that may be impacted by the risk. Decisions will be made in accordance with any legal requirements and obligations the City may have.

- **Risk treatment**

The City will select the most appropriate and viable risk treatment option taking into consideration a number of factors including, the costs, expected benefit, legal obligations, economic viability, environment, social responsibilities and economic factors. Risk treatments will maintain the City's risk exposure within Council's risk appetite thresholds. Any risks that exceed the residual risk level acceptable threshold will be reported to the CEO and Council for input and sign-off.

Risk Management Policy

POL-RKM 01

- **Monitoring and review**

The City will implement and integrate a 'monitor and review' process to report on achievements of the risk management objectives. Treatment and action plans will also be monitored to ensure continual improvement of the City's performance. Monitoring and review will take place at all stages of the process and in compliance with legislative requirements.

- **Recording and reporting**

The City will ensure all risk management activities are accurately recorded and traceable. Results of the monitoring and review processes will be reported as appropriate through external and internal avenues including, but not limited to, quarterly reports to the Audit, [and Risk and Improvement](#) Committee and an annual report to Council. Reports will be used to assess and review the effectiveness of the risk management framework and identify specific areas of need.

- **Responsibility/Accountability**

The Chief Executive Officer is responsible for the allocation of roles, responsibilities and accountabilities. These are outlined in the Risk Management Framework and [detailed in the Risk Management Procedure](#).

Risk management is everyone's responsibility:

- All ~~employees~~ Workers are accountable for managing risk within their area of responsibility in accordance with the Risk Management Framework.
- The Audit, ~~and~~ [Risk and Improvement](#) Committee, in accordance with the Terms of Reference, is to monitor and receive reports concerning the ~~development and implementation~~ [and improvement](#) of the Risk Management Framework and supports Council in fulfilling its governance and risk management oversight responsibilities.
- The Executive Leadership and Management Team create an environment where managing risk is accepted as the personal responsibility of each member of the organisation and integrated with planning and operational processes.
- Each Business [Area-Unit](#) is accountable for the management of risks within their area of responsibility in ways that are consistent with the Risk Management Framework. This includes project related risks.

G.5/10/25	28/10/2025	Appointment of Committees of Council

Background

Nil

Comment

The Financial Report for April 2026 shows an actual surplus for this period of \$28.6 million. The current surplus ensures the City has sufficient liquidity to continue meeting its operational and financial obligations through to 30 June 2026, including payment of suppliers, delivery of service levels, and progress of approved capital works.

In July each year the City issues invoices for Rates and Refuse, leading to a substantial surplus at the beginning of the financial year. As the year progresses, this surplus gradually reduces due to the City's budget expenditure being incurred. The Financial Report shows that as of April 2026, \$102.8 million (94.8%) of the rates have been received, which demonstrates that the City is on track to meet its target

A summary of the financial position for April 2026 is detailed in the table below:

	Current Budget	YTD Budget (a)	YTD Actual (b)	Var. (b)-(a)	Var.% (b)-(a)/(a)
	\$ 000s	\$ 000s	\$ 000s	\$ 000s	%
Opening Funding Surplus / (Deficit)	894	894	894	-	0%
Revenue					
Revenue from operating activities	157,076	151,423	157,018	5,595	4%
Capital revenue, grants and Contribution	21,944	18,286	12,297	(5,989)	-33%

2025/26 Budget Variations

10 Casilda Street Asbestos Contamination Works

The City has issued an outstanding notice in relation to the property at 10 Casilda Street following a shed fire that resulted in asbestos contamination on-site. Remediation of the contamination is required to address potential risks associated with the property, including any residual impacts on surrounding properties that have previously undergone remediation. The City intends to undertake the necessary works to resolve the contamination and will seek to recover associated costs through appropriate legal processes.

It is therefore recommended that the project budget be increased by \$44,001 to complete the remediation works to be sourced from the Waste Management Reserve.

Works and Services Building Refurbishment

During a routine roof inspection of the City's building located on Ormsby Terrace, movement of the main roof trusses was identified, raising concerns regarding the structural integrity of the roof. This building accommodates City officers and the City's provides a licence for a portion of the building to the Department of Health, Mandurah Child Health Centre.

A condition assessment subsequently confirmed the need for structural remediation and associated roofing works. City officers have worked with the City's consultant structural engineers to develop a

suitable design solution, including structural strengthening, roof remediation, tie-down upgrades and ancillary works, at an estimated cost of \$350,000.

The Works & Services Building Refurbishment capital project currently has an approved budget of \$306,258 to deliver internal refurbishment works at the Ormsby Terrace building to accommodate additional staff.

It is proposed to expand the project scope to include the essential roof works and increase the project budget by \$350,000 to \$656,528. It is proposed that this increase in budget be funded by the Asset Management Reserve.

Capital Project Savings

The following capital projects have been completed or are nearing completion, with final cost estimates confirmed. As these estimates are below the approved budgets, it is proposed that the resulting savings be transferred to the Asset Management Reserve. A summary of the proposed budget amendments is provided below:

Project	25/26 Current Budget	25/26 Proposed Budget	Proposed 25/26 Budget Reduction
Meadow Springs Sport Facility External Painting	\$138,244	\$88,244	\$50,000
Falcon Library Compressor Unit Replacement	\$250,000	\$170,000	\$80,000
Donnelly Gardens Seawall Repair	\$212,435	\$53,435	\$159,000
Port Bouvard Surf Life Saving Club HVAC Design	\$50,020	\$23,020	\$27,000
25-26 Street Furniture Renewal	\$46,650	\$12,650	\$34,000
Totals	\$697,349	\$347,349	\$350,000

Old Coast Road Path Renewal

The Old Coast Road Path Renewal project scope includes the construction of a 2.5-metre-wide shared path along the western side of Old Coast Road between Boyanup Road and Leura Street. The current approved budget for the project is \$16,737. However, recent quotes to deliver the full scope of works indicate a revised total cost of \$51,737.

It is therefore recommended that the project budget be increased by \$35,000 to enable full scope delivery. The additional funding is proposed to be sourced from underspend within the New Street Furniture and Minor Works capital project.

Shared Path Renewal Program

The Shared Path Renewal Program aims to repair or replace identified shared-use paths with deteriorated asset condition. In 2025/26, capital works were planned for eight shared paths under this program. The current project budget is \$287,794; however, revised estimates to finalise works across all eight paths total \$437,794. The increase is primarily attributed to scope variations across several sites and higher-than-anticipated traffic management costs.

It is therefore recommended that the project budget be increased by \$150,000 to enable completion of the full program. The additional funding is proposed to be sourced from underspends within the:

Projects	Savings	Reason for Underspends
Lively Place Path Realignment project	\$18,000	Actual expenditure is lower than budgeted for scope.
Traffic Management Minor Works program	\$41,000	The traffic management activity will be costed to the Shared Path Program instead of this account.
Old Coast Road Bypass Path Renewal project (East path between Old Coast Road Port Bouvard Bridge to Estuary Road)	\$91,000	Expenditure is lower than anticipated due to a reduction in scope, with only partial path replacement required rather than the full length originally planned.
Total	\$150,000	

2025-2026 Fleet Budget

As the end of the financial year approaches, the City has reviewed its Fleet renewal budget to confirm which renewal items will be received in the current financial year, which are expected to be received in 2026/27, and which have not yet been ordered. For items that will not be received this financial year, it is requested that the associated expenditure budgets and anticipated proceeds be reduced. Any municipal funding associated with these adjustments is to be transferred to the Plant Reserve to support fleet renewals in future years. A summary of the proposed budget amendments is as follows:

Project	25/26 Current Budget	25/26 Proposed Budget	Proposed 25/26 Budget Reduction	Proposed 25/26 Revenue Proceeds Reduction	Proposed 25/26 Transfer to Plant Reserve
Light Passenger Vehicles	\$346,646	\$241,646	\$105,000	\$52,489	\$52,511
Light Commercial Vehicles	\$740,053	\$305,053	\$435,000	\$230,862	\$204,138
Trailers	\$82,785	\$71,405	\$11,380	\$0	\$11,380
Totals	\$1,169,484	\$618,104	\$551,380	\$283,351	\$268,029

Lakelands Park Dugout Project

The Lakelands Park Dugout project is a fully funded State election commitment of \$82,000 to provide permanent player dugouts at Lakelands Park for the North Mandurah Football Club, North Mandurah Junior Football Club and other users.

Last month due to an administrative error, the budget variation explanation recommended the capital expenditure and the corresponding grant revenue be deferred to 2026/27 financial year to align with the revised project delivery timeframe. However, the Council adoption wording stated to transfer \$82,000 of capital expenditure to Asset Management Reserve.

To rectify this issue, it is recommended that the \$82,000 be transferred out of reserve and the corresponding grant revenue be deferred to year 2026/2027 financial year to align with the revised project delivery timeframe.

Access and Inclusion Advisory Group - Elected Member Appointment

The Access and Inclusion Advisory Group (AIAG) has been established by Council. At the Ordinary Council Meeting held on 28 October 2025, Council endorsed the City of Mandurah Advisory Group Terms of Reference available on the City of Mandurah website via [Advisory Group Terms of Reference](#) and approved the Elected Member appointments of Councillor S Wright and Councillor J Smith to the AIAG for a term expiring of two years, expiring 15 October 2027.

The AIAG Terms of Reference membership composition includes two Elected Members. On 30 April 2026 Councillor Wright resigned from the AIAG due to professional commitments. Council is now requested to approve the appointment of another Elected Member to fill this vacancy, until 15 October 2027.

Statutory Environment

Local Government Act 1995 Section 6.4 Financial Report
Local Government (Financial Management) Regulations 1996 Part 4 Financial Reports
Local Government (Audit) Regulations 1996

Policy Implications

Nil

Financial Implications

Any material variances that have an impact on the outcome of the budgeted surplus position are explained in the Monthly Financial Report, as detailed in Attachment 1.

Economic Implications

Nil

Environmental Implications

Nil

Risk Implications

The Financial Report and its attachments are utilised as a key indicator to monitor against the strategic risks.

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 are relevant to this report:

Leadership

- Responsible, transparent, value for money delivery of well planned, sustainable, projects, programs and services
- Effective advocacy focused on the needs of the community and strong relationships with key stakeholders.

Conclusion

The City strives to manage its finances adequately and maintain expenditure within budget to ensure services that have been approved through the budget process are fully funded.

It is recommended that Council receive the Monthly Financial Report and the Schedule of Accounts.

Council is requested to consider the appointment of an Elected Member to the AIAG to fill a current vacancy for the remainder of the term of the appointment, expiring 15 October 2027.

Officer Recommendation

That Council:

1. **Receives the Financial Report for April 2026 as detailed in Attachment 1 of the report.**
2. **Receives the Schedule of Accounts for the following amounts as detailed in Attachment 2 of the report:**

Total Municipal Fund	\$ 11,384,115.89
Total Trust Fund	\$ 0.00
	<u>\$ 11,384,115.89</u>

3. **Approves the following budget variations for 2025/26 annual budget:**
 - 3.1 **Increase in operating expenditure of \$44,001* for 10 Casilda Street Asbestos Contamination Works**
 - **To be funded from a transfer out of \$44,001* from the Waste Management Reserve**
 - 3.2 **Increase capital expenditure of \$350,000* for Works and Services Building Refurbishment project**
 - **To be funded from the Asset Management Reserve \$350,000***
 - 3.3 **Decrease in capital expenditure for the following capital projects:**
 - 3.3.1 **Meadow Springs Sport Facility External Painting \$50,000***
 - 3.3.2 **Falcon Library Compressor Unit Replacement \$80,000***
 - 3.3.3 **Donnelly Gardens Seawall Repair \$159,000***
 - 3.3.4 **Port Bouvard Surf Life Saving Club HVAC design \$27,000***
 - 3.3.5 **SLF - 25-26 Street Furniture Renewal \$34,000***
 - **To be transferred to the Asset Management Reserve \$350,000***
 - 3.4 **Increase capital expenditure of \$35,000* for Old Coast Road Path Renewal Project**
 - **To be funded from an underspend of \$35,000* in project New Street Furniture and Minor Works**
 - 3.5 **Increase capital expenditure of \$150,000* for Shared Parth Renewal Program Project**
 - **To be funded from an underspend of \$18,000* on Lively Place Path Realignment Project**
 - **To be funded from an underspend of \$41,000* on Traffic Management Minor Works Program Project**
 - **To be funded from an underspend of \$91,000* on Old Coast Road Bypass Path Renewal Project**
 - 3.6 **Decrease in capital expenditure for project light passenger vehicles by \$105,000*, project light commercial vehicles by \$435,000*, and project Trailers by \$11,380***
 - **Decrease in revenue proceeds for project Light passenger's vehicles \$52,489***
 - **Decrease in revenue proceeds for project Light Commercial Vehicles \$230,862***
 - **Transfer remaining budget of \$268,029* to Plant Reserve.**
 - 3.7 **Decrease in capital revenue of \$82,000* for the Lakelands Park Dugout Project**
 - **To be funded from a transfer out of \$82,000* from the Asset Management Reserve**
4. **Approve the Elected Member appointment to the Access and Inclusion Advisory Group for a term expiring 15 October 2027:**

Elected Member: _____

*** Absolute Majority**

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 30 APRIL 2026

NOTE 1
STATEMENT OF FINANCIAL ACTIVITY INFORMATION

(a) Non-cash items excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities within the Statement of Financial Activity in accordance with Local Government (Financial Management) Regulation 1996.

	Notes	Annual Budget	YTD Budget (a)	YTD Actual (b)
Non-cash items excluded from operating activities				
		\$	\$	\$
Adjustments to operating activities				
Less: Profit on asset disposals	4	-	-	(3,984,513)
Less: Non-cash movement in assets		106,000	88,333	0
Movement in liabilities associated with restricted cash		105,167	87,639	227,041
Movement in pensioner deferred rates (non-current)		-	-	(215,943)
Movement in employee benefit provisions (non-current)		-	-	(204,403)
Movement in Liabilities		-	-	17,713
Add: Loss on asset disposals	4	-	-	43,985
Add: Depreciation on assets		35,498,636	29,582,197	27,407,401
Total non-cash items excluded from operating activities		35,709,803	29,758,169	23,291,281

(b) Non-cash items excluded from investing activities

The following non-cash revenue and expenditure has been excluded from investing activities within the Statement of Financial Activity in accordance with Financial Management Regulation 32.

Adjustments to investing activities			
Movement in non current liabilities for transfers to acquire or construct non-financial assets to be controlled by the entity			
Movement in current liabilities for transfers to acquire or construct non-financial assets to be controlled by the entity associated with restricted cash		(1,089,126)	(907,605)
Total non-cash amounts excluded from investing activities		(1,089,126)	(907,605)
			2,578,974

(c) Adjustments to net current assets in the Statement of Financial Activity

The following current assets and liabilities have been excluded from the net current assets used in the Statement of Financial Activity in accordance with regulation 32 of the Local Government (Financial Management) Regulations 1996 to agree to the surplus/(deficit) after imposition of general rates.

	Actual Closing 30 Jun 2025	Budget Closing 30 Jun 2026	Year to Date 30 Apr 2026
Adjustments to net current assets			
Less: Reserves - restricted cash	(65,678,157)	(63,912,022)	(74,337,709)
Less: - Financial assets at amortised cost - self supporting loans	(47,106)	-	0
Less: Unspent loans	(625,629)	-	(625,629)
Less: Inventory - Land Held for Resale	(445,000)	(445,000)	(445,000)
Less: Clearing accounts	-	-	5,426
Add: Borrowings	6,509,258	3,408,759	1,209,868
Add: Other liabilities	1,866,747	-	4,339,066
Add: Lease liability	173,812	1,023,531	171,499
Add: Provisions - employee	4,509,712	806,283	4,169,485
Add: Loan Facility offset	-	-	10,000,000
Total adjustments to net current assets	(53,736,363)	(59,118,449)	(55,512,994)

(d) Net current assets used in the Statement of Financial Activity

Current assets			
Cash and cash equivalents	2	61,810,975	81,166,308
Rates receivables	3	5,061,263	3,055,524
Receivables	3	3,522,190	2,607,617
Other current assets		24,648,414	2,273,976
Less: Current liabilities			
Payables		(21,969,391)	(14,511,115)
Borrowings	7	(6,509,258)	(3,408,759)
Interest earning liabilities		-	-
Unspent non-operating grant, subsidies and contributions liability		(1,866,747)	(2,461,785)
Lease liabilities		(173,812)	(1,023,531)
Provisions		(9,893,570)	(8,579,786)
Less: Total adjustments to net current assets	1(c)	(53,736,363)	(59,118,449)
Closing Funding Surplus / (Deficit)		893,701	(0)
			28,584,038

CURRENT AND NON-CURRENT CLASSIFICATION
In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments highly liquid investments with original maturities of twelve months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

KEY INFORMATION

Rates and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of rates and other receivables is reviewed on an ongoing basis. Other receivables that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

KEY INFORMATION

Acquisitions	Annual Budget	YTD Actual	% Spent
	\$41.61 M	\$19.76 M	47%
Capital Grant	Annual Budget	YTD Actual	% Received
	\$11.76 M	\$4.94 M	42%

All debenture repayments were financed by general purpose revenue.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

**NOTE 13
EXPLANATION OF MATERIAL VARIANCES**

The material variance thresholds are adopted annually by Council as an indicator of whether the actual expenditure or revenue varies from the year to date Actual materially.
The material variance adopted by Council for the 2025-26 year is 10.00%

Reporting Program	Var. \$	Var. %	Timing/ Permanent	Explanation of Variance
	\$	%		
Revenue from operating activities				
Operating grants, subsidies and contributions	(2,081,996)	(29.36%)	▼ Timing	Variance primarily due to budgeted grants/contributions not yet received. Will be monitored throughout the remainder of the year.
Other revenue	152,176	251.08%	▲ Timing	Variance primarily due to containers deposit scheme & Fuel Tax Credit rebate received.
Profit on disposal of assets	3,984,513	100.00%	▲ Permanent	Favourable non-cash variance due to asset disposals. At budget it was projected disposal proceeds would equal book value. Actual disposals have been more favourable for some fleet assets. Refer to note 4 for the asset disposals.
Expenditure from operating activities				
Materials and contracts	7,023,360	11.98%	▲ Timing	Variance in expenditure due to timing of projects.
Insurance expenses	211,576	15.72%	▲ Timing	Variance mainly due to timing of insurance claims, will be monitored during the year
Other expenditure	102,415	65.96%	▲ Permanent	Variance relates to accounting adjustment made throughout the year.
Loss on disposal of assets	(43,985)	100.00%	▼ Permanent	Non-cash variance due to assets sales. At budget it was projected disposal proceeds would equal book value. Actual disposals have been less favourable for some fleet assets. Refer to note 4 for details of assets disposals.
Investing Activities				
Non-operating Grants, Subsidies and Contributions	(4,860,600)	(49.62%)	▼ Timing	Capital grants are recognised in line with capital expenditure.
Proceeds from Disposal of Assets	(1,128,508)	(13.29%)	▼ Timing	At budget it was projected disposal proceeds would equal book value. Actual timing of disposals will vary throughout the year. Refer to note 4 for further details.
Capital Acquisitions	17,226,508	46.56%	▲ Timing	Variance due timing of capital projects. Refer to note 6 for further details.
Financing Activities				
Payment of lease liability	75,912	38.09%	▲ Timing	Varying repayment terms on lease agreements and new take up of IT leases occurring within the year
Transfer from reserves	(8,622,494)	(100.00%)	▼ Timing	Will be accounted for as part of year end financial process.

Subject: 19.2 Mandurah Central Community Hub

Summary

The Mandurah Central Community Hub (the “Hub”) is projected to transform the former Indoor Sport Centre on Dower Street into a thriving community space in the heart of central Mandurah. The Hub will create a multi-purpose facility that serves the community with a mix of anchor tenants and bookable space, providing diverse opportunities for recreation, volunteering, learning, community service and social connection.

The Hub will provide a suitable new home for the Lions Club of Mandurah, as well as the Mandurah Men’s Shed and Peel Men’s Shed who will combine efforts to maximise their collective impact. These three groups are each currently operating from different and inadequate premises with insecure tenancies. The Hub will enable the groups to have stability, build on their existing success, and offer opportunities for growth. The Hub will also provide a new multi-purpose space available for hire by the whole community, with priority hire to the Lions Club. The City will consolidate City storage at the Hub, and consequently discontinue paying commercial rates for off-site storage. This enables the funds to be redirected from commercial storage fees to instead partly pay for ongoing operating and renewal costs at the Hub.

At its meeting on 22 October 2024, Council resolved to progress the former Indoor Sports Facility as the preferred site for a shared community facility, and undertake multiple due diligence and engagement activities. The purpose of this report is to outline the status of the project, recommend a concept design, outline cost estimates and propose a way forward which includes application to Lotterywest. Whilst stakeholders have expressed different views over the course of the project, all stakeholders reached shared consensus at a combined meeting with the City on 7 May 2026 to progress the preferred Concept Design (refer Attachment 1), and all stakeholders have confirmed their acceptance of this Concept Design in writing.

This project has been referred to using several different names over the past six years, most recently the “Central Shed”. It was considered that “Central Shed” may imply the entire facility is a Men’s Shed, and did not suitably represent the Lions Club or multi-purpose nature of the facility. City officers raised the suggestion of the facility being called the “Mandurah Central Community Hub” which is flexible, representative and welcoming, and this name change garnered support.

Disclosure of Interest

Nil

Location

The Mandurah Central Community Hub (former Indoor Sports Centre) is located at 87 Dower Street, Mandurah, and forms part of Rushton Park.

Previous Relevant Documentation

CC.4,5,6/7/21	27 July 2021	Council received the Strategic Direction Report, noted the benefits of Men's Sheds, agreed to financial contributions, committed to exploring new sites
G.8/11/23	28 November 2023	Council approved to proceed with concept design and Quantity Surveyor Estimates for Reserve 46202 Boundary Road and Reserve 34267 Reserve Drive in consultation with Men's Sheds.
G. 4 /10/24	22 October 2024	Council approved to proceed with Mandurah Indoor Sports Centre as the preferred potential site for the location of a shared community facility, including provision for a Central Men's Shed; undertake further work and engagement; and report back to Council with outcomes.

Background

In early 2021, the City commenced engagement with Falcon Community Menshed, Mandurah Men's Shed and Peel Men's Shed as part of the Mandurah Men's Shed Strategic Direction Report. The report confirmed that all three Men's Shed groups were in need of more secure and more suitable premises. In 2021, Council approved Falcon Menshed to construct a Shed at the back of their leased area at Falcon Family Centre, and this project has progressed through concept planning and is ready for application to Lotterywest for funding.

In July 2021, Council resolved to receive the Strategic Direction Report, note the benefits of Men's Sheds, agreed to small financial operating contributions and committed to exploring a new site for potential construction of a new combined Central Men's Shed to serve the needs of Mandurah Men's Shed and Peel Men's Shed. An extensive investigation of multiple possible sites took place over the next 2 years, and both Sheds were engaged fully and extensively throughout this investigation for a suitable site. Of note, the Indoor Sports Centre on Dower Street was considered as part of this original site analysis, however, it was under a long-term commercial lease and not available for Men's Sheds at the time.

In November 2023, Council resolved to proceed with concept design and Order of Magnitude Costs for possible construction of a new facility at two different site options, being Reserve 46202 Boundary Road and Reserve 34267 Reserve Drive. Each site option presented different strengths and challenges. The contractor engaged both Men's Sheds in the development of a concept plan.

Concurrently, it became apparent that the Mandurah Lions Club would be needing a new home, as the condition of the facility on Park Road was declining and it was on land being set aside by the City for other purposes. The Lions Club were consulted as part of the new concept design; however, the primary focus was on the originators of the project (the Men's Sheds), and the needs of Lions Club were not fully met in the final design concepts.

In August 2024, as the concept plans for Boundary Road and Reserve Drive were being presented, the commercial lease at the Indoor Sports Centre was unexpectedly discontinued, essentially providing a third site option that could not have been considered previously. The Indoor Sports Centre was discussed with the Men's Sheds and Lions Club, and there was support to progress this

option because it was likely to offer an outcome that was more cost-effective, and also more likely to meet the needs of all stakeholders. It was also more aligned with the City's community design principles of renewal (rather than new build), multi-purpose and co-location.

In October 2024, Council resolved to approve the (former) Mandurah Indoor Sports Centre, 87 Dower Street, as the preferred site for a shared community facility, including provision for a Central Shed - requiring also that the two Men's Sheds combine to operate as one incorporated group in the new premises. Council also approved City officers to proceed with a concept design and Quantity Surveyors Estimate for the site, under the operating principles of a multi-use and shared facility. It was resolved City officers were to bring a report back to Council with outcomes of the concept design and costings, as well as propose a way forward.

Consistent with the Council resolution of 22 October 2024, City officers commenced preparations to explore suitability of converting the Indoor Sports Centre to a multi-purpose facility. The most critical work initially was for the City to make arrangements to remove an extensive number of miscellaneous items from the premises which were left by the previous tenant. It was necessary for the City to comply with relevant legislation regarding how this could take place, and the City was required to conduct a valuation process for disposal in accordance with the *Disposal of Uncollected Goods Act 1970*. This process progressed steadily and without delay, and took approximately six months.

At the same time, the City undertook a variety of due diligence activities, such as a preliminary condition assessment to confirm the building was structurally viable, which was favourable, although highlighted a need for upgraded amenity and compliance prior to it being tenanted. The City also addressed some minor works, such as installing new locks and an alarm system.

In 2025, the City contracted an architect to develop concept plans and cost estimates for the facility, which required an extensive level of analysis into the site, building structure, utilities and stakeholders engagement.

Comment

In 2026, the City received the final report from the Architect regarding the proposal to convert the Indoor Sports Centre to a multi-purpose facility, providing space for Mandurah Men's Shed, Peel Men's Shed, Lions Club of Mandurah, City storage and general community space. The report outlined extensive activities undertaken to inform the final report, including: condition assessment, review of site services, stakeholder engagement (Men's Sheds and Lions Club), site visits, case studies, development of concept plans, cost estimates and budget considerations.

Multiple iterations of design concepts were developed by the architect as they endeavoured to understand the needs of stakeholders, take feedback on board, and balance competing priorities. The preferred concept being recommended is considered to optimise and respond to the existing structure and prioritise cost efficiency by consolidating spaces whilst meeting the critical functional requirements for all stakeholders. The overall estimated project cost is \$6,705,000 (including construction and fit-out costs) which is \$555,000 less than an alternative option that was developed.

The preferred concept proposes the Men's Shed and Lions Club of Mandurah occupy the lower level at the back of the site (with a narrow storage section in upper level), with the upper level (closest to Dower Street) being occupied by a community multi-purpose area and City storage. There is opportunity for further refinement of the concept with stakeholders, for example, confirming stairs, ramps, toilet access, and entry points.

In brief, the core space allocations of the concept are:

- 951sqm for combined Men's Shed, including toilets and kitchenette (with further potential to occupy a space at the front for sales)

- 258sqm for Mandurah Lions Club operational space (fully enclosed, offering a separation from noise and dust from the Shed activities)
- 444sqm for City of Mandurah storage
- 344sqm for a multi-purpose space with four small adjoining storage spaces
- Provision for two small meeting rooms (referred to on the Concept Plan as: “Community Hire Space” and “Men’s Shed Display Sales”)
- Upgraded toilets, kitchen and entry to service the multipurpose space
- Courtyard, with potential for a community garden
- Improved elevation from the Street

Whilst each stakeholder has expressed an interest for additional space, all stakeholders reached shared consensus that this option is workable, and has agreed to progress the preferred Concept (refer Attachment1). This concept provides an increase in space for each community stakeholder compared to their existing premises (except the City storage). The Lions Club of Mandurah will receive priority access to book the multi-purpose area.

The table below outlines the material change in floor area for each stakeholder, comparing the area of their existing premises to the area allocated to them in the Mandurah Central Community Hub

Stakeholder	Indoor Floor Space at existing premises	Indoor Floor Space allocated in Preferred Concept (Hub)	Change from existing premises to new Hub
Mandurah Men’s Shed	330sqm	951sqm	621sqm additional space
Peel Men’s Shed	150sqm	951sqm	801sqm additional space
Combined Mandurah Men’s Shed and Peel Men’s Shed	480sqm	951sqm	471sqm additional space
Lions Club (operational space)	105sqm	258sqm	153 sqm additional space
Lions Club (priority hire for multi-purpose space, storage, toilets, kitchen, dry store)	220sqm	428sqm	208 sqm additional space
City of Mandurah Storage (including entry)	465sqm	444sqm	21 sqm less space

Based on the square metre floor allocations in the preferred concept, the Mandurah Men’s Shed, Peel Men’s Shed and Lions Club of Mandurah benefit from a material increase in space. The City considers its reduced space will be manageable, with installation of efficient shelving and consolidation of items. The community will benefit from establishment of an entirely new public space for hire for community, commercial and private hire.

The following information is provided in relation to project stakeholders, their current situation and allocated space in the preferred Concept.

- **Mandurah Men’s Shed**

Mandurah Men’s Shed was established in 2001, and report a membership of 44 people. They are committed to a thriving shed model, including mateship, mental health and wellness, diverse activities, strong partnerships, volunteering and opportunities for lifelong learning.

At a meeting on 7 May 2026, the Mandurah Men’s Shed provided verbal agreement for the preferred concept (Attachment 1) and provided a letter accepting the location for the new Men’s Shed. It is noted that they have also shared a preference for being in the upper area of the facility. Mandurah

Men's Shed have demonstrated a commitment to working with Peel Men's Shed to combine efforts as one group. They note that more floor area space would be welcomed, although they confirmed their support for the concept.

Mandurah Men's Shed currently operates from John Tonkin Secondary College (Tindale Campus) in a space that offers 330 sqm indoor space, and some uncovered space. The Education Department has advised the Mandurah Men's Shed that they will need to vacate the premises in the near future because the building is required by the school for another purpose.

The Mandurah Men's Shed encounters several constraints at John Tonkin College that inhibit their operations, limited toilet and kitchen facilities, and restricted access to space whereby the Shed can only operate on weekdays, and do have access during school holidays. There are also noise restrictions if the school has certain classes adjacent to their workspace. This currently equates to five hours lost work time each week, however, this space has served the needs of Mandurah Men's Shed very well over a long period of time, with good security, good parking, access for trailers, and dedicated storage.

The new facility on Dower Street is intended to assist Mandurah Men's Shed with increased space, secure tenure, better amenity and an ability to operate seven days per week, longer hours per day and during school holidays.

Mandurah Men's Shed has outlined the following examples of their contributions to the community in the last two years:

- Supporting City of Mandurah initiatives such as:
 - fortnightly inspections of every Giant, including minor repairs (with a contribution by the City)
 - support holiday programs at the museum by making items for children to assemble
 - hosting a stall at the Christmas Pageant and give-aways of ~600 wooden animals.
 - for Crab Fest, made a 9 Hole Putt Putt course for the Town Team and hosted a stall that provided free wooden dolphin cutouts (400) for children to decorate.
 - various assistance with community development such as constructed Street libraries, and plant stands for Community Gardens.
- Rotary Family Day Duck Race – donated over 450 wooden ducks for decorating, hosted a stall to sell tickets and given away over 300 toys.
- Rotary Golf Day – donated fundraising items
- St Vincent de Paul Society – Furniture donations
- Motorcycle Men's Shed – Christmas Wooden toy appeal
- Suicide Prevention – donated items for fundraising
- Falcon Lions – assisted with garden makeover for disadvantaged family
- Mandurah Wildlife Rehab Hospital – constructed numerous possum boxes
- Wellness Wednesday – Organising committee support and host a stall.
- Community garage clean outs – recycled numerous items that were bound for landfill.
- Community Bespoke Items – responded to over 170 requests for bespoke items not able to be made by local businesses.
- General Community (ongoing projects)
- Timber Recycling – In 2026, Mandurah Men's Shed successfully reclaimed over 1,000 linear metres of timber from a construction site destined for disposal. The salvaged timber was allocated to the Mandurah, Peel, and Falcon Men's Sheds, and made available to the public for specialised projects. The Shed notes that re-using of quality resources is an important

part of the share economy, supporting environmental outcomes and embracing the Men's Shed philosophy. A similar building project commencing in late 2026 is expected to bring some 4000 linear metres of timber.

- Community Garage Cleanouts – Shed volunteers assist with garage cleanouts upon request, particularly for deceased estates and seniors transitioning to retirement villages.
 - o Local Childcare Centres – Over the past eight months, more than fifty centres have been provided with donations of small toys, animal cutouts, alphabet sets, and numbers (0 to 9). Resale value is more than \$5,000. This initiative is ongoing and serves as a vital activity for new members, including individuals with disabilities.
 - o Community Bespoke Items – these remain a central component of Shed operations, providing volunteers with opportunities to enhance their skills and participate in activities that build comraderies.
 - o NDIS and Worker Rehabilitation – the Shed currently has four members who are either on a work rehab program or are supported by NDIS because of a disability.

Mandurah Men's Shed demonstrates a significant, positive impact for both members and the wider community. The new Mandurah Central Community Hub will ensure the group can continue with its genuine efforts to improve the lives of members and residents in a multitude of meaningful ways.

- **Peel Men's Shed**

Peel Men's Shed was established in 2020, and report a membership of over 90 people. They are committed to a thriving shed model, and offer an enriching opportunity for men, especially those who have retired after a busy career, to stay actively involved, keep socially connected and contribute positively in the community.

The Peel Men's Shed have provided written support for the preferred concept (Attachment 1) and a commitment to the overall Hub project. At a meeting on 7 May 2026, the Peel Men's Shed reiterated verbal agreement for the preferred concept. They have demonstrated a commitment to working with Mandurah Men's Shed to join as one group. They note that more sqm space would be welcomed, and have aspirations for adding a mezzanine level in the future to increase space for Men's Shed activities.

Peel Men's Shed occupies a premise on Park Road which is approximately 150sqm. They have been paying commercial rent for this space and are eager to move into the new Hub as soon as possible. It is understood the commercial premises is not available permanently.

The new facility will offer Peel Men's Shed significantly increased space, secure tenure, better amenity and will be more cost-effective. Peel have also noted the new facility will enable them to diversify activities, with members currently wanting to pursue interests at the Men's Shed that cannot be accommodated due to current lack of space, such as music, model trains, bee keeping, gardening and many others.

The Peel Men's Shed has outlined the following examples of their contributions to the community in the last two years:

- Sausage sizzle fundraising at Bunnings (four per year)
- Furniture making for businesses
- Fundraising and promoting re-use by repairing furniture, tools, machines and household items

- Assisting family members with collecting items or cleaning out shed or garage after the death of a loved one, ensuring the space is left clean and tidy which is well received by families at a very difficult time.
- Help for carers and NDIS clients who are aged or have a disability.
- Enabling members to pursue their interests.

Peel Men's Shed demonstrates it has energy and interest for expanding Shed services to offer more opportunities to support the City's ageing population, both in direct membership and the effect this will have through an ability to increase community contributions.

- **Lions Club of Mandurah**

The Lions Club of Mandurah was Chartered in 1976 and reports a current membership of 55 members with three local Branch Clubs. The club is dedicated to volunteering, supporting local needs and serving the community. They are committed to raising funds for charity and supporting people in need in the Peel Region.

At a meeting on 7 May 2026, the Lions Club provided verbal agreement for the concept (refer Attachment 1), and a written confirmation that this concept will support them to continue existing projects, including expansion of the Bookfest project. They have expressed concern that the concept will limit future growth and future projects, with a preference for an allocation of 500sqm at the new facility at Dower Street.

The Lions Club acknowledged the fees, priority hire of the multi-purpose space, and commitment that the City will offer their hire groups at the Lions Club on Park Road first option to move into the new Facility on Dower Street. The City will ensure the Lions Club Operational Area has access to toilets in the new facility.

The Mandurah Lions Club have a lease with the City for the premise on Park Road next to the City's Works Operations Centre. The Lion's premises comprises a main building, plus three small storage areas, plus a 20' shipping container. The main building is in very poor condition, with the necessity for additional structural supports to be in place in the centre of the social area. The main building has access issues and lacks basic operational needs like storage for tables and chairs. The Lions Club have recently upgraded the kitchen with stainless steel fit-out. The City has earmarked the land for the redevelopment of Operations Services, with a current view to hold onto the freehold land whilst awaiting feasibility assessments.

The three shed structures at Park Road that are used for operations have limitations, mainly that they are confined, with poor circulation space. They also lack suitable lighting and temperature control, getting excessively hot in the summer.

The facility on Dower Street offers the Lions Club a total of 258sqm operational space, which is an additional 153sqm of space compared to their existing premises on Park Road (105sqm). The Lions have prepared a proposed layout for the fit-out. It is anticipated that the consolidation of operational space (rather than their existing multiple small separate sheds) will allow for improved efficiency and economy of the space. The operational space on Dower Street is expected to offer the Lions club better lighting, better temperature control, improved circulation space and safer conditions.

In regard to the multi-purpose space, the Lions Club would benefit from a larger area, secure tenure, space in good condition, improved accessibility, priority bookings, and improved amenity, such as compliant access and toilets. The City would take oversight of the bookings, and it would be intended to offer the community groups using the Lions Club at Park Road first option for hire at the Central Hub.

The Mandurah Lions Club has outlined the following examples of their contributions to the community in the last two years:

- Newspaper and Cans/Bottles collection for recycling
- Halls Head Swap Meet Coordination
- Brightwater Nursing Home Monthly BBQ lunch cooking
- Second-hand book sales at their annual Bookfest
- Show and Shine Car Show (Eastern Foreshore)
- BBQ cooking for City of Mandurah events and other local entities
- RUOK Day Breakfast Alcoa Pinjarra
- ANZAC Gunfire Breakfast
- Provision of cheap hall hire (i.e. sewing, quilting, St Johns Ambulance, Wakes)
- Back-yard clean up for a widow who lost her husband in a coward-punch attack
- Fishability BBQ opening of new Bridge (also Dawesville Bridge opening in 1994)
- Father Christmas deliveries Christmas Eve and various Childcare Centres
- Provision of white goods and financial assistance for a family who suffered a family loss from a house fire. Lions helped to fully furnish their rental within 7 days.
- Regular Sunday Hall hire for a local Lutheran Church group
- Club Members assisted with a World Record 4-day continuous BBQ at Bunnings, Joondalup which raised \$50,000.
- Christmas Cake and Pudding sales at the Mandurah Forum & local outlets
- Youth projects and leadership – Junior Public Speaking & Leos (13- 30 Agegroup)
- Collection and re-use of spectacles
- Presentation of health, wellbeing and interest workshops at the Lions Hall
- Operation Teddy Bear (a collaboration with Mandurah Police) for provision of teddy bears to give children in distressing situations

Over the past 24 months, Mandurah Lions has reported a total of 13,100 volunteering hours. Donations in-kind/free product and/or labour was \$72,000, with charitable benefits to the following groups: Brightwater; Halo Team; Black Dog Institute; Beyond Blue; Soup Kitchen; Bridge Builders; Women's Refuge; Salvation Army; Compassionate Friends; ANZAC Breakfast; and more.

The Lions Club of Mandurah has a proud 50-year history in Mandurah of service, giving back, volunteering, family friendly opportunities, social connection and extensive fundraising to support charities, and the new Facility on Dower Street will enable this important contribution to continue.

- **City of Mandurah (Multi-purpose Space)**

A key aspect of the Hub is the creation of a multipurpose hire space that can offer a diverse range of programming, host events or training, and strengthen the social and economic vitality of central Mandurah. The Hub will complement other sport, recreation and health purposes currently located nearby such as sporting ovals, tennis, croquet, lawn bowling, netball, youth centre and Peel Health

Hub. The Mandurah Central Community Hub also has potential to support residents of the soon-to-open Common Ground home, where they could feel welcome and connected.

The City of Mandurah has a growing population, and community facilities need to keep up with growing demand. The City of Mandurah population is forecast to increase from over 107,000 residents in 2026, to 130,000 residents by 2036.

Between 2021 and 2031, the age structure forecasts for City of Mandurah indicate a 7.8% increase in population under working age, a 39.1% increase in population of retirement age, and a 17.4% increase in population of working age.

The Lions Club of Mandurah will have priority hire of the multi-purpose space, and the variety of other groups that currently hire the Lion's clubroom on Park Road will also be offered space in the new facility. The City will add the multipurpose space at the Hub to its Bookable software, making it easy and accessible for the community to hire the space.

- **City of Mandurah (Storage)**

The preferred concept plan sets aside a section of the Hub for City storage which is critical for holistic and ongoing success the Hub.

The City currently pays annually for 465 sqm of commercial storage space in 15 separate units at a cost of \$106,600 per year. The Hub provides an opportunity to redirect \$86,500 in commercial storage fees to assist the City to partly pay for the ongoing operating and renewal costs of the Hub.

The City's Long Term Financial Plan and budget do not include any funding for maintenance and operational expenses to provide the Hub facility to community groups. The City provides discounted fees and charges to community groups for hire of facilities which means ratepayers through their rates must fund the balance. The justification of ratepayers contributing to Men's Sheds and Lions Club is the community outcomes and benefits that are delivered. The savings that will be realised from the City storage moving to the Hub will be reallocated to maintenance and operational costs. The savings from no longer having to pay for commercial storage can partly fund the operations of the Hub.

The upper area allocated for City storage in the preferred concept is flexible, and provides greater options if in the future if there is another use for this space.

The City intends to progress this project steadily, however it is based on key assumptions such as Council endorsement and funding approvals. The actions to progress this project are:

- Ongoing engagement with stakeholders
- Preparation and submission of a Lotterywest Application
- Addressing the removal of the volleyball courts and sand.

Of note, the City will take advice from Lotterywest regarding whether to submit the Lotterywest grant as a combined application with the Falcon Community Menshed, a similar project with existing Council support.

MEAG Comment

This item has minimal impact on the natural environment and therefore has not been referred to Mandurah Environmental Advisory Group for comment.

Consultation

In 2025, the City contracted an Architect to develop concept plans and cost estimates for the facility, which required an extensive level of analysis into the site, building structure, utilities and understanding the needs of stakeholders. A key component of the contract with the Architect was engagement with the stakeholders, including the City, Lions Club of Mandurah, Mandurah Men's Shed and Peel Men's Shed.

The Architect undertook three workshops with stakeholders in July, August and November plus a site visit to each stakeholder premises, and the facility on Dower Street. At each session, the Architect sought to understand the needs of stakeholders, received feedback, and updated concepts. City officers also had multiple additional engagements and communication with stakeholders, including additional visits to the facility on Dower Street, phone calls, emails, and in-person meetings. The Architect also visited other Men's Sheds in the Perth Metropolitan area.

At a meeting on 7 May 2026, the Lions Club of Mandurah, Mandurah Men's Shed and Peel Men's Shed expressed a diverse range of views in relation to preferred concept options, and overall came to a shared understanding and agreement to progress the preferred option (refer Attachment1).

Statutory Environment

Nil

Policy Implications

POL-CNP 07 – Community and Recreation Facilities.

The Mandurah Central Community Hub is consistent with POL-CNP 07.

The objective of this Policy is to guide the City in the design, development and management of City-owned community and recreational facilities to maximise community benefit and access. It describes a principled approach, outlining that the City will:

- Provide equity of access to community and recreation facilities:
 - Facilities geographically located to provide maximum coverage across Mandurah Local Government Area (LGA).
 - Facilities welcoming and accessible for all ages, abilities and cultures.
 - Maximise usability and flexibility:
 - Facilities that are multi-use, multi-purpose and have multiple functions.
- Maximise social interaction and community benefit:
- Understanding that the space, design and management of facilities directly affects human interaction.
- Lead the design, development and management of facilities, considering:
 - consultation with the wider community; and
 - protection of the City's financial interests and asset portfolio.
- Consider whole of life costs of facilities:
 - ensuring asset management of facilities is financially sustainable;
 - ensuring flexible design so facilities can respond to changing community priorities.

Financial Implications

Completion of this project is reliant on external funding.

The City sought Order of Magnitude Costs on the Hub concept, with the final report from the Architect indicating a total estimate of \$6,105,000. Additional to this amount are costs for fit-out, loose furniture and equipment which brings the total project cost to \$6,705,000.

The City intends to seek maximum funding for the project from Lotterywest.

If Lotterywest is unable to fund the full grant request, the City will have to review the project scope to ensure it is within the approved budget and Long Term Financial Plan.

The City intends to fund the ongoing costs of the Hub by redirecting costs currently associated with paying for commercial storage off-site, as well as hire and licence revenue received.

- **Financial Implications - Tenancy Options**

The City will ensure the Men's Shed and Lions Club benefit from a secure tenure for exclusive use of designated space at the Mandurah Hub, as allocated in the preferred Concept.

Further negotiations are required and will form part of a future Council Report once an outcome of the Lotterywest Grant Application has been confirmed.

Economic Implications

The new facility will create maximum community benefit, providing a new home for Men's Sheds and Lions Club, as well as offering multi-purpose spaces available to the whole community. It offers a new venue for neighbourhood activation, partnerships and social connection. By locating the City's storage at this facility, the City can redirect over \$86,500 of commercial storage fees into the operating a community facility that generates public value.

The Men's Shed delivers economic value through volunteering, skills-sharing, delivering community projects, and the ability to support work continuation or readiness through the learning of skills. They also reduce the reliance on health and social services through improved social connection, early support, improved mental health and connecting people that may need additional help.

The Lions Club of Mandurah brings economic benefit by mobilising volunteers and fundraising to help a variety of charities and community projects that reduce State Government funding on health, community services, emergency relief and support for individuals.

Environmental Implications

The Mandurah Men's Shed and Peel Men's Shed have demonstrated a commitment to the environment, with multiple projects promoting the share economy, re-use of materials, recycling of timber and promoting the repair of items.

Mandurah Lions Club has a strong focus on recycling, such as newspapers and containers, and evidence a commitment to reusing items and the share economy, such as second-hand book sales.

Creating a secure, suitable space for these groups will strengthen their ability to make a positive environmental impact.

The final report from the Architect notes opportunities for adaptive re-use (re-purposing an existing facility), passive design, solar, potential for a community garden and sustainable landscaping plantings and elements. It also highlights the opportunity for energy efficient improvements, such as replacing existing fixtures and fittings such as better lighting selection, solar hot water, and improved rating on electrical appliances.

Risk Implications

There is a risk the Mandurah Men's Shed and Peel Men's Shed will be unable to operate due to lack of	The establishment of a Hub will ensure members of Mandurah Men's Shed and Peel Men's Shed can continue shed activities as a combined group by transferring to the new location. The increased space, better amenity and longer operating hours will enable
--	--

secure tenure in their existing facilities.	greater public benefit, through more capacity, increased and more diverse activities plus increased community impact from volunteering.
There is a risk the Mandurah Lions Club will be unable to operate due to poor condition and lack of secure tenure in their existing facilities.	The Lions Club has a long and proud history serving the Mandurah community, and the Hub will ensure continuation and growth of the Club to gain ongoing benefits for members and the wider community. The club offers extensive assistance through fundraising and support for the community, especially people, who may be vulnerable or in need.
There is a risk of not meeting the needs of general residents and growing Mandurah population.	The City's population is expected to grow to 130,000 by 2036, with far greater housing density expected in Central Mandurah. This area has higher proportions of residents experiencing disadvantage, older adults, people living alone, and those reliant on affordable, accessible local services compared to Greater Perth. Without fit-for-purpose, centrally located facilities, opportunities for low cost recreation, volunteering and social connection are reduced.
There is a risk of lost opportunity due to ongoing disused, vacant premises	The Facility at 87 Dower Street is not fit for occupancy, and this project will ensure the community asset is brought up to standard for maximum use. If the asset is not occupied, it may deteriorate and will cost the City money without receiving a community benefit.
There is a reputational risk, especially with stakeholders, but also with wider community, if the project does not proceed.	Not progressing with the establishment of the Hub would be seen to contradict the previous support for this project provided by Council.
There is a risk of not attracting sufficient Lotterywest funds to progress the project.	This project is reliant on external funds, and if the funds are not forthcoming, the project will require a new direction. City officers have met with Lotterywest, who confirm the project is eligible and they are expecting an application from the City.
There is a risk of waning interest from groups if the project does not progress in a timely manner, or in line with the wishes of stakeholders.	The City will ensure ongoing, regular engagement with stakeholders throughout the course of the project. The City has endeavoured to reduce this risk by involving stakeholders in the concept design, and confirming that further adjustments can be considered. The City has also received written support on the project from stakeholders. The City has given a commitment to make the lower area available as soon as practicable.
There is a risk that the Tender submissions are above the budgeted amount.	The City has endeavoured to reduce this risk by obtaining Order of Magnitude Costs, itemised budget, due diligence activities on the site, and included an amount for cost escalation and contingency.
There is a risk that the space allocations for each stakeholder may limit their expansion and growth	The concept provides significant additional space for all community stakeholders in comparison to existing premises. This allows for expansion. There is potential to add a mezzanine level in the Men's Shed area.
There is a risk that fit-out and equipment exceeds the financial capacity of the stakeholders to fund.	The City will work with groups on layout, fit-out and add an allocation for fit out to the Lotterywest application. The City can also help groups apply for external grants (different to Lotterywest).

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 are relevant to this report:

Economy

- A thriving city that residents are proud to call home and people want to visit

Community

- Access to support services that enhance opportunities for everyone
- Safe and connected communities
- Inclusive and welcoming places, spaces and neighbourhoods
- An enriched, creative, and empowered community that values culture, heritage and life long learning
- A healthy lifestyle and healthy community, with an emphasis on prevention
- Modern health facilities and services that are local, accessible, affordable, and fit for purpose

Environment

- Nature has a voice in all decision-making
- A shared responsibility for our environment with a focus on engagement, education and respect
- Our built environment is clean, accessible and sustainable

Leadership

- A clear and shared vision for Mandurah's future
- Sound decisions based on evidence and meaningful engagement
- Effective advocacy focused on the needs of the community and strong relationships with key stakeholders
- Well-maintained assets and facilities that meet the needs of our community
- Responsible, transparent, value for money delivery of well planned, sustainable, projects, programs and services

The Mandurah Central Community Hub project aligns with:

- Strategic Community Plan
- Corporate Plan
- Community Infrastructure Plan
- Public Health and Wellbeing Plan (Draft)
- Place Enrichment Strategy
- Access and Inclusion Plan
- Property Strategy

Conclusion

The Mandurah Central Community Hub is the culmination of six years of dedicated work from the City and stakeholders. The City has explored multiple sites and various concept options, and the preferred concept has received shared support from all stakeholders. Whilst it can be noted that stakeholders have expressed divergent views, there is support from all stakeholders that the preferred concept plan represents the most advantageous mix that enables every group to continue, grow and thrive.

The Mandurah Central Community Hub is an exciting facility that will provide new opportunities for the community, most notably generating public value with benefits in health, social connection, lifelong learning, and volunteering.

Officer Recommendation

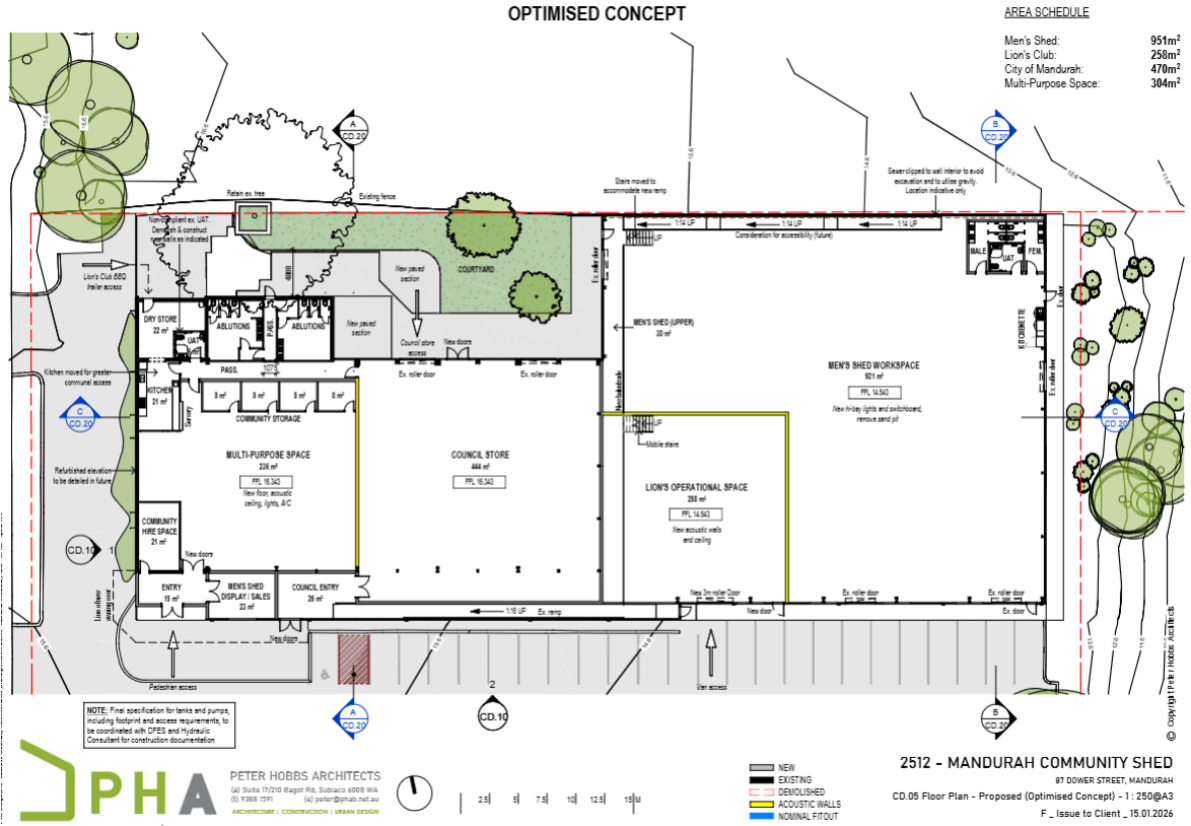

That Council:

- 1. Approves the Concept for the Mandurah Central Community Hub (as outlined in Attachment 1)**
- 2. Requests City officers submit a grant application to Lotterywest in seeking maximum funding for the Mandurah Central Community Hub**
- 3. Notes that City officers will bring a report to Council outlining tenancy arrangements at a later date.**

Subject: 19.3 Public Health and Wellbeing Plan 2026-2030

Summary

The draft City of Mandurah Public Health and Wellbeing Plan 2026–2030 (PH&WP) and Implementation Plan were advertised for public comment from 28 October to 30 November 2025, following Council endorsement to release the draft. A proactive engagement approach was adopted, incorporating online engagement, pop-up sessions at key community locations and targeted stakeholder consultation.

Feedback received demonstrated strong overall support for the Plan’s strategic direction and priority focus areas. Submissions were reviewed by the City alongside updated population health datasets provided by the South Metropolitan Health Service. As a result, improvements were made to strengthen the PHWP, while maintaining the core intent of the plan.

The final PH&WP aligns with the State Public Health Plan 2025–2030, reflects community priorities and meets the City’s legislative obligations under the *Public Health Act 2016*. Council is requested to adopt the final Public Health and Wellbeing Plan 2026–2030.

Disclosure of Interest

Previous Relevant Documentation

- G. 28/10/25 28 October 2025 - Public Health and Wellbeing Plan 2026-2030 – approved for public advertising.
- G. 29/6/20 23 June 2020 - Public Health and Wellbeing Plan 2020 to 2023 was endorsed.

Background

The previous Public Health and Wellbeing Plan 2020–2023 was developed and formally endorsed in June 2020. This Plan marked a significant step forward in addressing the evolving health needs of the Mandurah community, incorporating evidence-based strategies, and aligning with broader public health frameworks. This Plan was endorsed with a commitment to best practice and was not yet compelled by legislative requirement.

Under the Western Australian *Public Health Act 2016*, all local governments are required to develop a Public Health Plan before 4 June 2026 that reflects the unique needs of their communities. In response, the City of Mandurah has developed the PH&WP 2026–2030, a strategy shaped through extensive community consultation, detailed analysis of local health data, and alignment with state and national health priorities.

Comment

The Public Health and Wellbeing Plan 2026–2030 has been developed with a focus on prevention with an evidence-informed framework that clearly articulates the City’s role in supporting health and wellbeing outcomes through leadership, advocacy, partnerships and place-based initiatives.

Public consultation confirmed support for the Plan’s four strategic themes; Promote, Prevent, Protect and Enable and reinforced priority concerns including access to health services, mental health and wellbeing, social connection, active lifestyles, environmental health and support for vulnerable populations.

Following the close of consultation, all submissions were reviewed alongside newly released population health datasets from the South Metropolitan Health Service. The updated data sets were available earlier than expected and served to strengthen the plans evidence base and informed refinements.

A summary of the Key themes and how these have been addressed is detailed below. The full engagement report can be found on the Mandurah Matters online engagement platform – [Mandurah Matters](#).

Theme	Feedback received	How it has been addressed
Theme 1: Governance, Accountability and Evidence	Requests for clearer targets, measurable outcomes and accountability. Concerns about data accuracy, comparability, and statistical interpretation. Desire for transparency in evaluation and reporting.	Section 4 of the Implementation Plan clarifies monitoring, evaluation and annual reporting. Implementation Plan Introduction added explaining flexibility, cross-departmental funding and annual review. Data tables on pages 8, 10 and 12 revised to remove non-comparable data, compare Mandurah to State averages only, and include updated South Metropolitan Health Service datasets. PHWP Introduction updated to reflect a whole-of-organisation, evidence-informed approach.
Theme 2: Scope of Local Government Responsibility	Requests for services outside Council control (e.g. 24-hour medical centre, Child and Adolescent Mental Health Service (CAHMS) performance). Concerns about Council overreach into State and Federal responsibilities.	City role clarified as advocacy rather than service delivery. Advocacy actions included where appropriate. No changes made where matters fall under State or Federal responsibility.
Theme 3: Mental Health and Wellbeing	Mental health needs extend beyond awareness and self-care. Access barriers to counselling and mental health services. Support for Act Belong Commit and community connection approaches.	Action 1.4 updated to review and update the Peer Support Guide, Health and Wellbeing Guide and strengthen Act Belong Commit alignment. Mental health service access acknowledged as a State responsibility with City advocacy maintained. Women's and men's health actions clarified under Action 2.5.
Theme 4: Health Equity and	Concerns about socioeconomic disadvantages and inequity.	Action 1.2 strengthened to include a 10% incremental annual increase

<p>Vulnerable Populations</p>	<p>Calls for place-based, targeted approaches. Isolation among young single parents and low-income residents.</p>	<p>in outdoor fitness participation and annual review of fun run locations targeting lower SEIFA locations. PHWP Introduction updated to reinforce the plan is localised and informed by Mandurah-specific data. Place Enrichment Strategy referenced to reduce isolation and support participation.</p>
<p>Theme 5: Injury Prevention and Road Safety</p>	<p>Rising falls and transport injuries. Support for Stay On Your Feet® programs. Requests for safer active transport infrastructure.</p>	<p>Action 4.4 updated to incorporate Stay On Your Feet® programs and investigate grant funding for injury prevention. Action 1.1 added to establish an Active Transport Committee and align with State road safety initiatives. Transport injury terminology retained for epidemiological consistency.</p>
<p>Theme 6: Physical Activity and Healthy Lifestyles</p>	<p>Support for outdoor, accessible, family-friendly activities. Requests for more participation opportunities.</p>	<p>Addressed through Actions 1.2 and 1.3 including expansion of outdoor fitness, fun runs and community-based activities.</p>
<p>Theme 7: Environmental Health and Climate Change</p>	<p>Concerns about heat vulnerability and climate impacts. Requests for transparency on air quality and mosquito control.</p>	<p>Action 3.4 added for annual Heat Vulnerable Plan review and investigation of cooling alternatives. Action 4.1 updated to implement the Greening Mandurah Framework and five-year urban canopy analysis. Air quality and building standards clarified as part of existing compliance programs.</p>
<p>Theme 8: Aboriginal Health and Cultural Safety</p>	<p>Need for Aboriginal health to be embedded across the plan. Need for culturally safe and inclusive approaches.</p>	<p>Aboriginal health is integrated across themes through advocacy and partnerships. Alignment noted with the City's work currently underway with the Bindjareb community to develop a Reconciliation framework.</p>
<p>Theme 9: Children, Youth and Family Safety</p>	<p>Concerns for child-safe public spaces, particularly Hall Park. Calls for alcohol-free environments,</p>	<p>Alignment confirmed with Child Safe Strategy, Child Safe Policy and Families and Children Policy.</p>

	trauma-informed design and transparent risk assessment.	Child safe principles referenced appendices rather than new operational actions.
Theme 10: Trust, Autonomy and Public Health Ethics	COVID-19 impacts on trust, inclusion and wellbeing. Concerns about consent, autonomy and transparency.	Clarified that pandemic mandates are State responsibilities. Emphasis placed on transparent communication, community engagement.
Theme 11: Operational and Service Requests	Site-specific issues such as toilet cleanliness and facility maintenance.	Managed through existing City service request and maintenance processes and excluded from the Implementation Plan.

Key refinements incorporated into the final documents include:

- Clearer articulation of governance, accountability and evaluation, including annual reporting and measurable outcomes
- Strengthened emphasis on health equity, place-based approaches and targeted actions in areas of socioeconomic disadvantage
- Clarification of the City's role as advocate rather than service provider for matters within State and Federal responsibility
- Enhanced focus on mental health and wellbeing, underpinned by the *Act Belong Commit* health promotion framework
- Updated actions addressing injury prevention, active transport, climate and heat vulnerability, and inclusive community participation

These refinements ensure the final PH&WP is robust, transparent and responsive, while maintaining a whole-of-organisation approach to improving community health outcomes.

MEAG Comment

At the beginning of the consultation process Mandurah Environmental Advisory Group identified the following priority areas to be addressed within the plan.

- Reserving natural vegetation
- Increase in street tree planting
- Active transport infrastructure
- Reducing litter in natural areas
- Supporting community gardens
- Supporting volunteering opportunities

All of the above are addressed in the PHWP or another City endorsed strategy or position.

Youth Advisory Group Comment

At the beginning of the consultation process Mandurah Youth Advisory Group identified the following priority areas to be addressed within the plan.

- Healthy eating workshop
- Free access to physical activities
- Decreasing vaping rate
- Increasing youth volunteering rates
- Intergenerational workshops

- Encourage more food gardens
- Triathlon or fun run events.
- Mental health awareness workshops

All of the above are addressed in the PHWP.

Access and Inclusion Advisory Group Comment

At the beginning of the consultation process Mandurah Access and Inclusion Advisory Group identified the following priority areas to be addressed within the plan.

- Programs available at the Mandurah Aquatic Recreation Centre for people with disability
- Charging stations for gophers
- Advocating for specialist services including paediatricians
- Access to telehealth appointments
- Promoting sporting clubs who are inclusive
- Promoting services outside of facilities, i.e. shopping centres

All of the above are addressed in the PHWP, draft Disability Access and Inclusion Plan or another City endorsed strategy or position.

Consultation

Public advertising of the draft Public Health and Wellbeing Plan 2026–2030 and Implementation Plan was undertaken from 28 October to 30 November 2025 using a proactive and targeted engagement approach. Engagement activities included:

- Online engagement through Mandurah Matters, reaching 282 people, with 122 accessing the draft documents
- Seven pop-up sessions at key community locations, engaging 79 participants
- Targeted stakeholder engagement through forums including the Liquor Accord and Collaborate Mandurah, engaging an additional 35 participants.

In total, feedback reflected broad community support for the Plan's intent, with submissions focusing on strengthening clarity, accountability and responsiveness rather than requesting new strategic directions. Following the consultation period:

- All feedback was reviewed by City officers and the Executive Leadership Team
- Submissions were considered alongside updated population health data
- Refinements were incorporated into the final PH&WP and Implementation Plan, with remaining matters documented and responded to.

Key themes addressed through refinement included governance and evaluation, mental health, health equity, injury prevention, environmental health, Aboriginal health and the appropriate scope of local government responsibility.

Statutory Environment

Part 5, Section 45 of the *Public Health Act 2016* sets out the requirements for all local governments to prepare a Public Health Plan that applies to its local government district.

Policy Implications

Nil

Financial Implications

The Plan utilises existing funds listed in the 2025/26 Annual Operating Budget, and forms part of the baseline in the Long Term Financial Plan. As such, the draft Public Health Plan and corresponding implementation Plan do not involve an additional request for funding.

1 FTE and an operational budget of \$33,000 is currently allocated annually to implementing the PH&WP.

Economic Implications

People who are healthy and well are more likely to contribute to a strong economy, with public health and economic outcomes closely connected through reduced reliance on healthcare industry, increased productivity, and greater overall economic resilience.

Environmental Implications

Throughout the development of the plan community engagement has confirmed a strong connection between public health and the natural environment, with this being reflected in the PHWP.

Risk Implications

There are several risks identified if the City fails to deliver a Local Public Health and Wellbeing Plan:

- Poorer health - missed opportunity to improve health outcomes for the community may lead to diminished health outcomes, long term ill-health and potentially a preventable burden on health services.
- Partnerships – the lack of a suitable Public Health and Wellbeing Plan may reduce the ability to access funding and partnerships to advance health and wellbeing.
- Non-Compliance - all local governments in WA are legally required in accordance with the *Public Health Act 2016* to prepare and publish a Local Public Health Plan by June 4, 2026. Failure to do so could result in regulatory action from the Department of Health, reputational damage, and loss of credibility with stakeholders and the community.

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 are relevant to this report:

Community

- Access to support services that enhance opportunities for everyone
- Safe and connected communities
- Inclusive and welcoming places, spaces and neighbourhoods
- An enriched, creative, and empowered community that values culture, heritage and life long learning
- A healthy lifestyle and healthy community, with an emphasis on prevention
- Modern health facilities and services that are local, accessible, affordable, and fit for purpose

Environment

- A shared responsibility for our environment with a focus on engagement, education and respect
- Our natural environment is celebrated, protected and restored for generations to come

Leadership

- A clear and shared vision for Mandurah's future

- Sound decisions based on evidence and meaningful engagement
- Effective advocacy focused on the needs of the community and strong relationships with key stakeholders
- Well-maintained assets and facilities that meet the needs of our community
- Responsible, transparent, value for money delivery of well planned, sustainable, projects, programs and services

Conclusion

The Public Health and Wellbeing Plan 2026–2030, and the corresponding Implementation Plan, have been strengthened through comprehensive community consultation and the integration of updated population health data. The final Plan provides a clear, evidence-based framework to guide the City's commitments to public health and wellbeing over the next five years.

Adoption of the Plan will ensure the City meets its statutory obligations while reinforcing its commitment to health equity, transparency, advocacy and whole-of-organisation delivery of improved health and wellbeing outcomes for the Mandurah community.

Officer Recommendation

That Council:

- 1. Approve the Public Health and Wellbeing Plan 2026-2030 (as detailed in attachment 1) and corresponding Implementation Plan (as detailed in attachment 2).**
- 2. Note the feedback provided by the community in relation to the Public Health and Wellbeing Plan that can be viewed on the Mandurah Matters platform.**

Mayor's Message

On behalf of Council, I am proud to present the City of Mandurah's Public Health and Wellbeing Plan 2026–2030.

Health and wellbeing are fundamental to creating a strong, connected and liveable community. As our city continues to grow and change, we must plan proactively to support the physical, mental and social wellbeing of everyone who lives, works and visits Mandurah. This Plan reflects Council's commitment to placing health and wellbeing at the heart of decision making and supporting our community to lead healthy, active and fulfilling lives.

Developed in line with the Western Australian Public Health Act 2016, this Plan has been shaped by local health data, community voices and collaboration with partners across government, community and service sectors. It recognises that health is shaped by many aspects of daily life, including our environment, social connections, access to services and opportunities to participate, and acknowledges the important role local government plays in supporting these foundations.

The Plan focuses on priority health issues and population groups, while strengthening partnerships and advocating for improved services and outcomes for our community. It aligns with the City's broader strategic direction and complements other key plans and strategies, ensuring a coordinated and sustainable approach over the next five years.

Council is committed to working alongside our community, service providers and government partners to deliver the actions outlined in this Plan. Through this shared effort, Mandurah will continue to grow as an inclusive, resilient community that supports health and wellbeing at every stage of life.

I thank everyone who contributed their time, expertise and insights to the development of this Plan and look forward to the positive impact it will have on our community.

Amber Kearns

Mayor, City of Mandurah

The Plan

Vision

A thriving, connected, and resilient community where everyone has opportunities to lead healthy, active lives.

Purpose

Through leadership, partnerships, and advocacy, the City promotes inclusive spaces and programs that encourage physical activity, social connection, and overall wellbeing. In all decision-making processes, strong and healthier communities are considered.

Executive summary

The City of Mandurah plays an important leadership role in protecting and promoting the health and wellbeing of our diverse community.

Through planning, partnerships, advocacy and place-making, the City can influence the conditions that support people to live healthy, connected and fulfilling lives.

The Public Health and Wellbeing Plan (PHWP) supports a healthy community by encouraging active lifestyles, physical activity, social connection and participation. The actions outlined in the Plan aim to improve community wellbeing and reduce the burden of preventable illness by focusing on the environments, policies and opportunities that shape everyday health choices.

While the City has a strong role in creating supportive settings, every individual is directly responsible for their own health and wellbeing. The PHWP recognises that communities, organisations and governments can support positive health outcomes, but real change happens when people choose to take part.

The Plan is underpinned by the Act Belong Commit framework, which highlights that positive mental health can be built through staying active, connecting with others and being involved in meaningful activities. The City of Mandurah supports this by helping to create welcoming, inclusive and accessible places, programs and opportunities that make it easier for people to act, belong and commit in ways that suit their lives.

The City is well placed to lead, partner and advocate for services and initiatives that respond to local needs and priorities. The PHWP has been developed in alignment with the City's existing plans and strategies, including the Strategic Community Plan, and meets the City's legislative requirement under Part 5 of the *Western Australian Public Health Act 2016*. It is also closely aligned with the *State Public Health Plan 2025–2030*.

Embedding cultural safety across City services, facilities and programs is a key consideration of the PHWP. This includes working in genuine partnership with Aboriginal organisations, Elders and community members; strengthening cultural awareness and capability within the organisation; and ensuring that initiatives are designed and delivered in ways that are inclusive, respectful and responsive to local needs and lived experience.

What is public health?

Public health and wellbeing is focused on improving the health, safety, and quality of life of individuals and communities through prevention, education, and policy.

It involves addressing the broader factors that influence health such as education, environment, and access to services, rather than just treating illness. Public health and wellbeing initiatives aim to reduce health inequalities, prevent disease and injury, and promote healthy lifestyles across all stages of life.

Public health is all about helping people live healthier, safer lives by:

- Preventing illness before it happens
- Designing safe, enjoyable communities for living and playing
- Supporting smart, healthy choices every day

Public Health in Mandurah

The City's Public Health and Wellbeing Plan is intentionally localised to reflect the unique demographics, priorities, and lived experiences of the Mandurah community. It focuses effort and resources on the key areas of need identified through local data and community engagement, ensuring actions are relevant, responsive, and appropriate to our population.

Act Belong Commit as a Foundational Framework

The City's Public Health and Wellbeing Plan is guided by the Act Belong Commit framework, Western Australia's evidence-based approach to building positive mental health and wellbeing through everyday actions, social connection and participation.

Act Belong Commit aligns strongly with local government's role in shaping healthy places and connected communities and is applied as a whole-of-plan lens, rather than a stand-alone initiative.

How the Framework Underpins This Plan

Act Belong Commit is embedded across the Plan's priority areas, ensuring that actions consistently support prevention, connection and participation. This includes enabling people to:

Act through active transport, recreation, sport and accessible public spaces

Belong through welcoming facilities, events, inclusive design and age-friendly environments

Commit through volunteering, learning, mentoring and community participation

This approach ensures the Plan delivers not only targeted health outcomes, but also the conditions that support long-term wellbeing and community resilience.

A Shared Responsibility for Wellbeing

By embedding Act Belong Commit across the Public Health and Wellbeing Plan, the City recognises that mental health and wellbeing are shaped by everyday environments, social relationships and opportunities for participation. This approach positions wellbeing as a shared responsibility supported through policy, planning, services, infrastructure and community partnerships so that all residents have opportunities to act, belong and commit throughout their lives.

Supporting evidence and data

Mandurah

Key health and wellbeing issues

Chronic disease and injury are significant public health concerns due to their high prevalence and impact on quality of life. Various behaviours such as increasing physical activity, enhancing diet quality, and minimising risky behaviours like smoking and excessive alcohol consumption can have an impact.

Healthy behaviours are crucial for individuals to lead longer and healthier lives.

There are four categories of risk factors associated with chronic disease, these include:

Behaviour

Nicotine use, poor nutrition, insufficient physical activity, alcohol misuse, stress and mental health, communicable (infectious) disease.

Biomedical factors

Age, sex, genetics, overweight/obese, blood pressure, blood cholesterol, blood sugar.

Socioeconomic factors

Relationships, accommodation, education, employment.

Physical environment

Air pollution, toxic elements, pesticides.

Supporting evidence and data

Health and wellbeing play an important role in informing health policies, prioritising improvement and monitoring progress. The below table outlines Mandurah’s Health Profile data for both behavioural and biomedical risk factors.

Behavioural risk factors	Prevalence (%) Mandurah health profile	Prevalence (%) WA average	Comparison to WA
Drinks sugar-sweetened beverages > twice a week	20.1	16.8	▲
Eats fast food more than twice a week	6.3	6.0	▲
Eats less than the recommended serves of fruit daily	31.5	33.4	▲
Eats less than the recommended serves of vegetables daily	3.2	4.7	▲
Insufficient weekly physical activity *	38.9	39.1	▼
More than recommended screen-based sedentary time	42.5	37.4	▲
Obese	41.7	37.3	▲
Overweight	36.2	37.4	▼
Current rate of smoking *	14.5	13.5	▲
Current rate of vaping *	8.5	7.9	▲
High risk alcohol use for long-term harm	33.0	29.1	▲
High risk alcohol use for short-term harm	12.6	11.9	▲

Supporting evidence and data

Mental health: Significant mental health issues, including high rates of anxiety, depression, and stress-related problems. This is more evident in young people and those who are living alone. It is important to prioritise mental health and wellbeing through self-care practices, relaxation, social connections and positive thinking. The mental health profile has not seen a significant increase over the past 10 years, however adults who have been diagnosed have increased.

Doctor diagnosed health conditions Lifestyle risk factors	Prevalence (%) Mandurah health profile	Prevalence (%) WA average	Comparison to WA
Anxiety	15.7	16.3	▼
Any mental health condition	25.5	25.0	▲
Depression	16.4	13.7	▲

Supporting evidence and data

Socioeconomic disadvantage, can have profound effects on communities on health outcomes, education, employment, crime and safety.

SocioEconomic Indexes For Areas

SEIFA is a suite of indexes developed by the Australian Bureau of Statistics to rank areas in Australia according to relative socioeconomic advantage and disadvantage. The score is measured through disadvantage indicators including unemployment, educational levels, single parent families, low skilled occupations and poor English proficiency. Economic factors can influence health outcomes including better access to healthcare, nutrition and safer living conditions. However, people who are disadvantaged could face many challenges impacting their health. A lower score indicates a higher level of disadvantage compared to other areas. According to the 2021 Census, the SEIFA score for disadvantage in Mandurah was 959. The overall score is lower in comparison to the state score 1002 and Australia 1002.6.

It's important to highlight that at the suburb level, areas such as Mandurah and Coodanup face notable socioeconomic challenges. This is reflected in their SEIFA index of disadvantage scores 835.6 for Mandurah and 827 for Coodanup, indicating higher levels of relative disadvantage compared to other areas.

Index of relative socioeconomic disadvantage

Supporting evidence and data

Injury prevention: High rates of injuries, including falls, transport accidents, and intentional self-harm. More people are ending up in hospital for preventable injuries such as falls. By prioritising injury prevention, we can improve overall health outcomes, reduce economic burdens, and enhance the quality of life for individuals and communities alike.

Objective 2, Prevent: ‘Reduce the burden of chronic disease, communicable disease and injury’ of the State’s Public Health Plan has a focus on preventing injuries and promoting safer communities. Injury prevention is important for maintaining good health and wellbeing. Taking steps to prevent injuries, reduces the risk of accidents and minimises the need for medical interventions. Implementing injury prevention measures allows people to live more active lives without pain or disability, leading to better health and wellbeing.

Please see below statistics relating to hospitalisations due to injury.

Hospitalisation	Mandurah ASR (per 100,000)	WA ASR (per 100,000)	Comparison to WA
Accidental drowning, submersion, threats to breathing	30.9	21.8	▲
Accidental falls	935.9	1031.0	▼

Strategic alignment

Western Australia Public Health Plan Framework

Source: State Public Health Plan for Western Australia 2025-2030, Table 1
 Attachment 19.3.1 Public Health & Wellbeing Plan 2026-2030

Strategic alignment

Alignment with State Public Health Plan

The State Public Health Plan 2025-2030 sets out a vision for the best possible health, wellbeing, and quality of life for all Western Australians.

The plan has four objectives:

Promote, Prevent, Protect, and Enable.

- 1. Promote:** Foster strong communities and healthier environments.
- 2. Prevent:** Reduce the burden of chronic disease, communicable disease, and injury.
- 3. Protect:** Protect against public and environmental health risks, effectively manage emergencies, and lessen the health impacts of change in climate.
- 4. Enable:** Bolster public health systems and workforce and leverage partnerships to support health and wellbeing.

Responsibilities and capacity as a Local Government Organisation

The City of Mandurah is legislated to have a Public Health and Wellbeing Plan.

The City has a range of responsibilities and capacities to influence public health outcomes:

- 1. Lead:** Take a lead on projects and initiatives that relate directly to the outcomes of the Plan.
- 2. Partner:** Collaborate internally or externally to deliver projects and initiatives that relate directly to the outcomes of the Plan.
- 3. Advocate:** Advocate to State and Federal governments regarding gaps relating to health and wellbeing in Mandurah.

City's financial expenditure on public health

The City provides a broad range of programs that support and promote the health of our community and invests significantly into ensuring Mandurah is a healthy, enjoyable and safe place to be.

The City of Mandurah invested in community infrastructure and community programming during the 2024-2025 financial year. It is a holistic approach across the whole City.

Community programs and events
\$7,972,361

Environmental Health services
\$2,187,647

Cultural facilities and services
\$5,543,181

Recreation facilities and services
\$9,500,117

Parks, bushlands and reserve maintenance

Implementation

Public health themes and key actions

PROMOTE Empowering and enabling people to live healthy lives	PREVENT Supporting initiatives that reduce the prevalence of preventable ill-health, and promoting positive health outcomes	PROTECT Monitoring and responding to public and environmental health risks to support public health and wellbeing	ENABLE Facilitate opportunities that advance public health outcomes
Objective Promote benefits of healthy active lifestyles	Objective Reduce disease, illness and injury in the community	Objective Manage public and environmental health to improve health outcomes and respond to change in climate	Objective Advocate and partner with external health providers to deliver services that meet the needs of the community
Action 1.1 Integrate health as a priority for planning and promoting transport	Action 2.1 Promote and support initiatives to encourage healthy eating	Action 3.1 Implement initiatives to monitor health risks in the community	Action 4.1 Advocate and partner with the Federal and State governments to ensure health services are adequately sourced
Action 1.2 Provide opportunities for accessible activities, including walking, cycling and active transport	Action 2.2 Encourage healthy eating habits by increasing access to nutritious foods and supporting education	Action 3.2 Strengthen response to public health threats and emergencies including pandemic response	Action 4.2 Advocate for initiatives that aim to improve the health of Aboriginal people
Action 1.3 Provide information on available services and support to reduce or prevent disease or injury	Action 2.3 Undertake initiatives designed to reduce harms relating to alcohol and drugs	Action 3.3 Promote and build awareness of health campaigns aimed at disease prevention and protection	Action 4.3 Improve outcomes of priority populations by advocating for funding
Action 1.4 Increase awareness of how mental health can be strengthened	Action 2.4 Create smoke-free communities	Action 3.4 Enhance community resilience to climate related health risks by reducing vulnerability and improving preparedness	Action 4.4 Support programs that improve health of older adults
	Action 2.5 Improve access to appropriate health literacy		

Measures

Monitoring of the PHWP will be guided by the measures outlined below.

PROMOTE Empowering and enabling people to live healthy lives	PREVENT Supporting initiatives that reduce the prevalence of preventable ill-health, and promoting positive health outcomes	PROTECT Monitoring and responding to public and environmental health risks to support public health and wellbeing	ENABLE Facilitate opportunities that advance public health outcomes
1 Community satisfaction with City footpaths, cycle paths, roads and community-based services that keep people active and healthy	1 Comparison of South Metropolitan Health Service (SMHS) community profile data over 3-year periods	1 City policies to include health and wellbeing/public health objectives and strategies	1 Satisfaction with partnering opportunities both internally and externally to the City
2 Influence reduction in lifestyle risk factors for Mandurah population as outlined in City of Mandurah Health and Wellbeing Profile 2019 (prepared by South Metropolitan Health Services (SMHS))	2 Increased distribution, understanding and integration of key healthy messages both internally and externally to the City	2 Achieve evaluation measures outlined in the Environment and Integrated Transport Strategy	2 Development of Age Friendly Strategy
3 Influence increased from external agencies to promote health and wellbeing within the Mandurah	3 Increase in preventive screening and vaccination uptake	3 Improve communities understanding of health impacts associated with WA's climate	3 Health and Wellbeing landing page on City's website is reviewed and updated annually
4 Comparison of Injury Matters injury data over 3-year periods	4 Updated City alcohol and smoking policies	4 Compliance with the City's statutory responsibilities under the Public Health Act	4 Annual evaluation of the City's Public Health Plan processes, outputs and outcomes
5 Review internal volunteer procedure with increased participation rates	5 Annual evaluation of the City's Public Health Plan processes, outputs and outcomes	5 Number of treatments undertaken under the Mosquito Management program	
6 Number of people participating in programs and initiatives	6 A reduction of falls among older adults	6 Annual evaluation of the City's Public Health Plan processes, outputs and outcomes	
7 Annual evaluation of the City's Public Health and Wellbeing Plan processes, outputs and outcomes			

Monitoring and evaluation

- **Quarterly reviews**
Conduct quarterly reviews to assess the progress of each action item. Adjust strategies as needed based on feedback and data collected.
- **Annual reports**
Publish annual reports detailing the achievements, challenges, and areas for improvement.
- **Community feedback**
Engage with the community through surveys and public forums to gather feedback and ensure the plan continues to meet their needs.

By focusing on these key areas and regularly monitoring progress, the City of Mandurah aims to create a healthier, more resilient community that is better equipped to face emerging challenges and improve the quality of life for all residents.

The Public Health and Wellbeing Plan will be replaced every 5 years and reviewed and reported on annually.

Community insights informing the plan

Consulting our community in the creation of the City's Health and Wellbeing Plan

The following information pertains to the community engagement, internal and external data sources, and analysis of strategic plans and objectives related to or intersecting with the goals of the PHWP.

Listening to the community

During community consultations, important themes emerged, indicating where the City should focus its attention. The themes included:

Consultation snapshot

Optimise **mental health and wellbeing**

More active Mandurah

Healthy eating

Making smoking history

Reducing **harmful alcohol use**

Reduce use of **illicit and other drugs**

Connecting people to **community gardens**

Promoting **state and federal campaigns**

Supporting **volunteering opportunities**

Advocating for **key health services and workforce**

Community insights informing the plan

Community profile

Age profile

In Mandurah, a larger percentage of the population is aged over 60 years old, at 32.2%, compared to Greater Perth's 21.2%. Additionally, the proportion of individuals aged 0 to 17 years old is lower in Mandurah, at 20.8%, compared to Greater Perth's 22.5%. In 2021, the age group with the most significant changes in the age structure compared to 2016 were individuals aged 70 to 84 years old and 60 to 69 years old.

City of Mandurah – Total persons (usual residence)	2021		
Service age group (years)	Number	%	Greater Perth %
Babies and pre-schoolers (0 to 4)	4,773	5.3	6.1
Primary schoolers (5 to 11)	7,523	8.3	9.0
Secondary schoolers (12 to 17)	6,502	7.2	7.4
Tertiary education and independence (18 to 24)	6,348	7.0	8.6
Young workforce (25 to 34)	9,182	10.2	14.4
Parents and homebuilders (35 to 49)	15,298	16.9	21.0
Older workers and pre-retirees (50 to 59)	11,592	12.8	12.4
Empty nesters and retirees (60 to 69)	12,262	13.6	10.2
Seniors (70 to 84)	14,122	15.6	9.1
Elderly aged (85 and over)	2,707	3.0	1.9
Total	90,309	100.0	100.0

Population and cultural background

104,360

estimated population as of 2026*

2.9%

Higher percentage of Aboriginal people compared to Greater Perth (2%)

27.4%

Born overseas

6.9%

of people used a language other than English at home

Appendix 2: Community feedback summary identifying our City's public health needs

Key health and wellbeing issues	Key barriers	Opportunities
<ul style="list-style-type: none"> • Funding allocated in Mandurah is not adequate for the growing population • Access to medical services such as GPs, mental health, community intervention services and specialists • The health determinants impacting the community accessing medical service, e.g. affordable housing and cost of living • Attracting medical professionals to the region • Lack of information sharing among services and competing for funding opportunities • Lack of infrastructure to encourage active transport, enhancing physical activity • Availability of fast food outlets • Increasing vaping rates among young people 	<ul style="list-style-type: none"> • Short term funding affecting sustainability of programs and services • The cost of private services which impacts long wait times for government services • Accessing appropriate transport to access services • Lack of collaboration between services • Services do not have enough time, resources and expertise to recruit or manage volunteers • Lack of cultural awareness training for staff in supporting Aboriginal and Culturally and Linguistically Diverse (CALD) populations • Easy access to vapes or e-cigarettes online • Liquor license planning and constraints – unable to decline applications 	<ul style="list-style-type: none"> • Raising awareness of men's health through health promotion mechanisms • More programs to ensure older people maintain their mobility and independence • Programs and initiatives to promote healthy socialising to reduce isolation • More community art opportunities to improve mental health • Promote Grow it Local • Promoting and encouraging volunteering opportunities • Advocating for Peel Health Hub stage 2 and Family Support Network • Advocating for GPs / mental health professionals and personality disorder support in Mandurah • Advocating for stronger legislation to stop vaping providers

What are your key health and wellbeing issues?

- Lack of alcohol and drug services and support
- People with disability are not included in mainstream health and wellbeing activities and promotions
- Improve community awareness of existing programs and activities
- Long waits for mental health counselling and requiring a Mental Health Care Plan
- Increase in vaping among young people
- Increase in obesity rates
- Long waits to see a GP and other medical services
- Women's and Men's health
- Loneliness and isolation
- Access to specialists locally
- Support for people experiencing suicidal thoughts
- Aboriginal health concerns
- Transport accidents and provision of infrastructure to encourage safe walking or cycling
- People under the influence of drugs and alcohol
- Shade in streets to encourage people to walk
- Increased costs associated with health care
- Too many fast food outlets
- Screening for sun related cancers

What improvements could better promote and maintain health and wellbeing in Mandurah?

- Social groups for people with mental health issues
- To provide a variety of outdoor activities and active spaces for all ages across the region
- Inclusive programs to support mental health and fitness
- Inclusive play equipment in parks and reserves
- Addressing social determinants of health issues
- Campaign to reduce obesity
- Mental health capacity building training
- Increase to medical workforce locally
- Free activities and exercise programs including fun runs
- Sexually transmitted diseases clinic
- Increase in homeless services and accommodation
- Increase in health awareness programs
- Promotion on men's health initiatives and programs
- Building better community relationships
- Road infrastructure support active transport
- Better access for people with disability to attend beaches
- Redesign streets to enhance community spaces with trees, seating and reduced speed limits
- Subsidise cost of accessing healthcare
- Opportunities for social interaction relating to arts and sports
- Promoting the importance of sun protection

Appendices

Appendix 2: Identifying our City's public health needs

The community was surveyed and the following areas of importance were rated:

Source: Public Health and Wellbeing Survey

Internal Staff workshop - Engagement summary

What are the priorities for the new plan?	How will the plan align with other strategies or plans?
<ul style="list-style-type: none">• Planning for vulnerable populations to cope with rising global temperatures• Grow fruit trees in public places - community owned and supported by the City• Community workshops to promote injury prevention• Hiking programs - education walks, and interpretive signage• Affordable community facility hire• Projects to improve safety for active transport• 'Best for' pamphlets and promotion - including places to cycle• Offsite reserves for exercise classes, activities and games• Promotion and supporting the volunteering sector• Sporting groups to address needs, e.g. men's health issues• Inclusion database to be used for social prescription	<ul style="list-style-type: none">• Developing a street tree masterplan• Measuring walking trails to assist people with their limits and health targets• Promote environmental literacy alongside health literacy programs, e.g. reducing food waste• Masterplan for active reserves to be shaded, paths links and recreation elements• Signage for shared paths (interpretive and directional)• Increasing activities in natural areas• Developing arterial road landscape masterplan• Public art trails• Neighbourhood event funding• Evaluation tool developed for organisational outcomes• Incorporate mental health initiatives with nature connections

Advisory Groups Engagement

Youth Advisory Group	Mandurah Environment Advisory Group	Access and Inclusion Advisory Group
<ul style="list-style-type: none"> • Healthy food workshops (what to buy and how to prepare it) aligning with Live Lighter • Free gym/PT sessions for young people aged 12 – 24 • Health professionals/clinicians dropping into youth groups to decrease stigma in accessing those services • Impose 5-metre ban outside council premises for vaping (same as for cigarettes) • Let young people teach adults to give things a go • Encourage youth volunteering with meaningful roles • More opportunities to upskill in supporting friends and families (e.g. Zero2Hero camps) • Intergenerational workshops – everyone, every age, teaching and learning 	<ul style="list-style-type: none"> • Reserving natural vegetation • More street trees planting to reduce barriers for physical activity • Connected cycle and walkways – improved active transport • Reducing the amount of rubbish and litter in natural areas • The importance of community gardens and ensuring sustainability • Supporting volunteering opportunities 	<ul style="list-style-type: none"> • Train staff at the MARC on how to be inclusive for people with disability • Accessibility from outside the MARC, pathways need to be connected for easier access • Having a quiet time between 12pm to 2.30pm for people with disability to exercise • Programs at the MARC specific to people with disability • Charging stations in the community for gophers • Advocating for specialist services including paediatricians for autism diagnosis • Advocating for access to telehealth appointments • Promoting services outside of facilities, e.g. shopping centres • Building awareness of sporting clubs that are inclusive

Appendices

Appendix 3: Alignment to other City plans and strategies

Strategy or Plan	Summary
Corporate Business Plan 2023 - 2027	The City's Corporate Business Plan identifies the actions from the Community Strategic Plan that the City is committed to deliver and implement. This includes initiatives such as improving access to recreational facilities, promoting active transportation options, and advocating for key health services and infrastructure for Mandurah.
City Centre Master Plan (10 to 20 years)	The City's Master Plan has 3 key themes: 'Activity, Character and Movement'. The Plan provides direction for future development and upgrade of Mandurah's City Centre bringing improved economic outcomes. There is also provision for accessible infrastructure that supports physical activity including walking, cycling and public transport.
Integrated Transport Strategy (10 to 20 years)	This strategy has positive health outcomes through increasing physical activity, improving safety, reducing pollution to create a connected and liveable community. The Vision of the Strategy is 'To provide for a safe, accessible and connected transport network that enables sustainable choices.'
Place and Enrichment Strategy 2023 - 2027	This strategy has strong synergies with the PHWP by integrating community-based interventions that enhance the overall wellbeing of the community. The aim of the strategy is to be catalyst for positive change, with a greater emphasis on empowerment, and mobilising community assets to work together in addressing persistent and complex social problems. By creating a supportive and enriching environment will contribute to improved health outcomes.
Environment Strategy 2023 - 2033	The connection of health and nature is clear. This 10-year strategy aligns closely with the PHWP to protect and improve health effects while contributing overall to the sustainability and resilience of the community. The linkages include active transport, green spaces, access to healthy food, climate change mitigation, clear air quality and waste reduction.
Arts and Culture Strategy 2023 - 2028	Arts and Culture can have positive impacts on health and wellbeing, especially mental health. Goal 2 of this strategy desired outcome is 'Break down complex barriers to wellbeing and encourage the community to maintain and recover good health through cultural participation and engagement'. This provides a holistic approach at addressing both the physical and socio-cultural aspects of wellbeing.
Youth Strategy 2021 - 2026	By aligning this strategy with the PHWP, can address the unique health needs of young people and create a supportive environment that promotes their overall wellbeing. The vision of this strategy 'Young people in Mandurah feel connected with and proud of their community and see it as a place where they can participate, influence and inspire'. There are key areas to ensure positive health outcomes for young people through prevention education, access to suitable healthcare and target interventions specific to their age.

Strategy or Plan	Summary
Access and Inclusion Plan 2021 – 2026	The PHWP focuses on vulnerable populations, it is important to ensure equitable and equitable access to health services for entire population including people with disability. Alignment to the City’s Access and Inclusion is crucial to ensure people with disability have accessible information and access to inclusive health or prevention programs.
Waste Education Plan 2022 – 2025	The Waste Education Plan and PHWP both aim to enhance community wellbeing and environmental sustainability. By integrating environmental sustainability with public health initiatives, the City of Mandurah can address multiple aspects of community wellbeing simultaneously, leading to a more comprehensive approach to improving residents' quality of life.
Economic Development Strategy	Aligning the PHWP and the Economic Development Strategy offers several benefits. By integrating health and economic goals, the City can create a sustainable, competitive economy while promoting inclusive spaces and programs that encourage physical activity, social connection, and overall wellbeing. This alignment ensures that health outcomes are positively influenced through leadership, partnerships, and advocacy, while also addressing structural disadvantages in the economy.
Mandurah’s Shared Approach to Ending Homelessness Action Plan 2025 to 2027	This Action Plan aims to identify and support vulnerable people who are identified as priority population in the Public Health and Wellbeing Plan. The approach aims to improve the health and stability of people experiencing homelessness, ultimately contributing to better health outcomes and reducing homelessness
Local Recovery Plan	A Local Recovery Plan outlines the arrangements and processes for effectively managing recovery at the local level following an emergency. Given that disasters significantly impact people’s health and wellbeing, the plan ensures that recovery initiatives also support long term public health objectives.
Vulnerable Communities Plan	The Vulnerable Communities Plan identifies vulnerable communities and their support network providing crucial information for those involved in emergency planning, prevention, preparedness, response, and recovery activities. The Plan provides a comprehensive understanding of community health needs and vulnerabilities.
Community Safety Strategy	The Community Safety Strategy and Public Health and Wellbeing Plan work together to address social determinants of health. Their shared goal is to make Mandurah a safe and welcoming place for all. With a focus on Partnership, Place, and People, this integrated approach supports holistic improvements in community wellbeing.

The City is working through the development of a range of other plans and strategies such as the Reconciliation Action Plan, Literacy Strategy and Age Friendly Strategy which will provide further direction for the City and stakeholders.

Actions: Alignment to other City of Mandurah Strategies and Plans

Actions	Strategy or plan	Objectives alignment	Measure of success	Responsibilities
Review the Greening Mandurah Framework and associated action plan	<i>Environment Strategy</i>	Protect	Urban canopy coverage and canopy health	Landscape Management
Implement the Greening Mandurah Action Plan	<i>Environment Strategy</i>	Protect	Urban canopy coverage and canopy health	Landscape Management
Conduct a 5-yearly Urban Canopy analysis to track the City's canopy coverage	<i>Environment Strategy</i>	Protect	Urban canopy coverage and canopy health	Landscape Management
Review the Greening Mandurah Framework and associated Action Plan	<i>Environment Strategy</i>	Protect	Urban canopy coverage and canopy health	Landscape Management

DRAFT
**Public Health &
Wellbeing Plan**
2026-2030
Implementation Plan

Attachment 19.3.2 Public Health & Wellbeing Plan 2026-2030 Implementation Plan

Introduction

The Public Health and Wellbeing Implementation Plan (the Implementation Plan) provides a clear roadmap for delivering the health and wellbeing priorities outlined in the Public Health and Wellbeing Plan 2026–2030 (the Plan). It translates strategic priorities into coordinated, measurable actions that support improved health and wellbeing outcomes for the community.

Alongside the City's ongoing investment in programs, infrastructure and facilities that support community health and wellbeing (refer page 21 of the Plan), the City is adopting a targeted, whole-of-organisation approach to implementation. This approach is supported by coordinated programming and advocacy and is led by a dedicated Health Promotion Officer. The officer is responsible for overseeing the development, delivery and evaluation of the Plan; embedding health and wellbeing considerations into organisational decision-making; fostering collaboration across internal teams and external partners; and ensuring alignment with State public health priorities.

Priorities within the Implementation Plan are informed by the evidence and data presented in the Public Health and Wellbeing Plan, ensuring actions respond to the most significant and emerging health and wellbeing needs of the Mandurah community. The Plan is monitored and reviewed each year to identify and respond to any adverse trends through targeted action. It is designed to remain flexible and may be updated over time to reflect changing priorities, emerging evidence and community needs.

Public Health and Wellbeing Plan 2026 to 2030 – Implementation Plan

This implementation plan will be responsive to City’s resources for topical health priorities occurring across the lifespan of the plan.

1 Promote Empowering and enabling people to live healthy lives

Projects / Actions	Funding	Year 1	Year 2	Year 3	Year 4	Year 5	Key measures of success	Lead	Link with other areas of the organisation
1.1 Integrate health as a priority for planning and promoting transport									
Ensure planning decisions consider accessible active transport (<i>ITS</i>)	Within existing operating budget	✓	✓	✓	✓	✓	Planning and development applications embed active transport principles where applicable.	Strategic Planning	Health Promotion
Promote infrastructure to encourage people to walk or cycle, i.e. shared paths, parks, public spaces, cycle, and actively commute (<i>ITS</i>)	Within existing operating budget	✓	✓	✓	✓	✓	Increased physical activity on shared paths and parks. Monitor through surveying and main roads data.	Strategic Communications	Health Promotion Environmental Engagement
Update and promote bike trail maps and cycling events	Within existing operating budget		✓		✓		Increase usage of bike trails and at cycling events. Monitor webpage traffic and downloads.	Strategic Communications Health Promotion	Events Visit Mandurah Economic Development
Create a comprehensive guide of walking trails for all abilities in Mandurah	Within existing operating budget		✓				Monitor usage of guide consumption and website downloads.	Health Promotion	Strategic Communications
Promote the Your Move initiatives across schools to encourage active transport	Within existing operating budget	✓	✓	✓	✓	✓	Increase number of Mandurah schools registered to the program by 50% by Year 5.	Health Promotion	Community Development
Align with State Government road safety initiatives to support coordinated action and reduce road trauma	Within existing operating budget	✓	✓	✓	✓	✓	Improved population health through injury prevention and safer transport environments.	Health Promotion	Community Development

Legend / Alignments to other strategies: **CBP** – Corporate Business Plan; **CCMP** – City Centre Master Plan; **ITS** – Integrated Transport Strategy; **PES** – Place and Enrichment Strategy; **ES** – Environment Strategy; **ACS** – Arts and Culture Strategy; **YS** – Youth Strategy; **AIP** – Access and Inclusion Plan; **HAP** – Homelessness Action Plan

Projects / Actions	Funding	Year 1	Year 2	Year 3	Year 4	Year 5	Key measures of success	Lead	Link with other areas of the organisation
Establish an Active Transport internal working group	Within existing operating budget	✓	✓	✓	✓	✓	Monitor active transport initiatives through routine data collection and ongoing evaluation.	Health Promotion	Community Development
Promote and activate outdoor exercise parks and playground facilities and reserves	Within existing operating budget	✓	✓	✓	✓	✓	Increase usage of infrastructure and feedback through surveys and sensor/monitoring systems such as ActiveXchange / movement sensors.	Health Promotion	Strategic Communications Community Development
Deliver Healthy By Design, Public Advocacy and other relevant training for staff	Within existing operating budget		✓		✓		Reduce and prevent injuries. Reduced exposure to environmental health risks. Monitor number of course participants.	Health Promotion	Mandurah Aquatic and Recreation Centre Recreation Services Strategic Planning Built and Natural Environment
1.2 Provide opportunities to accessible activities, including walking, cycling and active transport									
Deliver a series of free outdoor wellness and fitness classes, targeting suburbs with most need for health improvements	Within existing operating budget	✓	✓	✓	✓	✓	Increased physical activity. 10% incremental annual increase in participation for outdoor fitness and yoga classes. Transition to regular physical activity beyond program.	Health Promotion	Mandurah Aquatic and Recreation Centre Economic Development
Deliver a fun run/park run, reviewing locations annually to target those in most need	Within existing operating budget	✓	✓	✓	✓	✓	10% incremental annual increase in participation	Health Promotion	Mandurah Aquatic and Recreation Centre
Deliver an event during Bike Month to promote bike safety and encourage physical activity (YS)	Within existing budget, potential for additional funding	\$1500	\$1500	\$1500	\$1500	\$1500	Increased physical activity. Increase participation in bike safety event. Participants report increased knowledge of bike safety.	Youth Development	Health Promotion Community Development

Projects / Actions	Funding	Year 1	Year 2	Year 3	Year 4	Year 5	Key measures of success	Lead	Link with other areas of the organisation
Support a trail activity per year – getting back into nature	Within existing operating budget	✓	✓	✓	✓	✓	Increased physical activity. Increase participation at trail event.	Health Promotion	Economic Development
Continue to promote and administer KidSport program	External funding secured	\$20,000	\$20,000	\$20,000	\$20,000	\$20,000	100% Kidsport vouchers processed.	Recreation Services	Mandurah Aquatic and Recreation Centre

1.3 Provide information on available services and support to reduce or prevent disease or injury

<p>Develop and/or share information and resources to maintain and improve physical and mental health. Ensure all media platforms are considered to target the various audiences:</p> <ul style="list-style-type: none"> • Free physical activity information • Food safety • Healthy eating recipes • Mindfulness activities • Accessing relevant services • Peer Support 	Within existing operating budget	✓	✓	✓	✓	✓	<p>Increased physical activity. Investigate potential grant funding to prevent injury in older people	Within existing operating budget	✓	✓	✓	✓	✓	Reduce falls and prevent injury/hospitalisations.	Seniors	Health Promotion

Subject: 19.4 Disability Access and Inclusion Plan (DAIP) - 2026-2030

Summary

This report presents the draft Disability Access and Inclusion Plan 2026–2031 (referred to as the DAIP or the Plan) for Council’s consideration and endorsement to proceed to community consultation.

The development of the draft Plan was informed by comprehensive community engagement, including consultation with people with disability, carers, service providers, advocacy organisations, and internal stakeholders.

A consolidated summary of engagement outcomes was informally presented to Elected Members in February 2026. This briefing outlined the analysis and categorisation of feedback into key priority themes, which have subsequently informed the strategic direction, objectives, and actions contained within the draft Plan.

The draft DAIP establishes a structured and forward-looking framework to guide Council’s decision-making, priorities, and service delivery in relation to disability access and inclusion.

The draft Plan incorporates:

- Integration of community and stakeholder feedback into clear strategic priorities.
- Alignment with legislated outcome areas and recognised best practice principles in access and inclusion
- A comprehensive Implementation Plan outlining actions, responsibilities, timeframes, and performance monitoring mechanisms
- Strengthened governance, reporting, and accountability measures.

Endorsement of the draft Plan will enable its release for broader community and stakeholder consultation on Mandurah Matters.

The proposed consultation process will provide accessible opportunities for community members, stakeholders, and interest groups to review and provide feedback on the draft Plan.

Following the consultation period, all submissions will be reviewed and analysed. A revised final DAIP will then be presented to Council for consideration and potential adoption.

This process supports a transparent, inclusive, and evidence-based approach, consistent with Council’s commitment to meaningful community engagement and informed decision-making.

G. 13/03/2021	23 March 2021	Endorsement of Access and Inclusion Plan 2021–2026
---------------	---------------	--

Background

The City of Mandurah's Access and Inclusion Plan 2021–2026 (AIP) is a key document that supports people with disability, older adults, their families, and carers in accessing local services, facilities, and opportunities.

A Disability Access and Inclusion Plan (DAIP) is a strategic framework developed by local governments and public authorities to identify and address barriers to participation. It ensures equitable access across areas such as:

- Public spaces, buildings, and facilities
- Community events and programs
- Information and services
- Employment within local government
- Consultation and engagement with people with disability.

DAIPs are a legislative requirement under the *Disability Services Act 1993* (the Act), promoting inclusive communities where people with disability can fully participate.

As the current plan nears completion, the City has undertaken a review and engagement process to shape the next five-year plan (2026–2031). This process has incorporated community and City Officer input through a diverse engagement strategy, ensuring the new plan reflects local needs and strengthens inclusion across all City services and programs.

Comment

This report provides the Elected Members with the draft Disability Access and Inclusion Plan (DAIP) and accompanying Implementation Plan for review and feedback.

In developing this Plan, City officers have considered the City's Long Term Financial Plan and resource implications. The draft Plan represents the culmination of a comprehensive and structured development process informed by extensive community and stakeholder engagement. Consultation activities included engagement with people with disability, carers, service providers, community members, and internal business units.

Feedback was gathered through workshops, targeted sessions, surveys, and direct submissions to ensure diverse lived experience and professional perspectives were captured. A detailed engagement findings report was presented to Elected Members in February 2026. The presentation outlined the methodology undertaken to review and analyse feedback and demonstrated how responses were consolidated and categorised into key strategic themes under the seven Outcome Areas as defined by the *Disability Services Act (1993)*. These themes have directly informed the priorities, objectives, and action areas contained within the draft DAIP.

The draft Plan reflects:

- Clear strategic priority areas derived from community-identified needs and organisational strategic direction.
- Outcome-focused objectives aligned with legislative requirements and contemporary best practice in disability access and inclusion.
- An accompanying Implementation Plan outlining specific actions, responsible business units, indicative timeframes and performance measures.
- Strengthened governance and accountability frameworks to support monitoring, evaluation, and continuous improvement over the life of the Plan.
- A coordinated whole-of-organisation approach, embedding access and inclusion considerations across service delivery, infrastructure, communication, employment, procurement, and community engagement functions.

Consultation

The City sought to engage meaningfully with the community, using planned events and activations between October and December 2025 to have conversations in the community to help inform the new Plan. A list of all engagement opportunities is below:

October

- Online Survey (Open October – December)
- My Community Morning Tea and Village Morning Tea
- City of Mandurah Youth Advisory Group
- City of Mandurah Access and Inclusion Advisory Group
- John Tonkin College, Education Support Centre Disability Expo
- All Ability Come and Try Paddle Events (2 sessions)
- Community engagement packs sent to: Midway, Chorus, John Tonkin College

November

- Falcon Library
- Lakelands Library
- Mandurah Library
- Online

December

- International Day of People with Disability events
- Bindjareb Aboriginal Interagency Network (BAIN) meeting

The draft Plan is being presented for public advertising in an effort to engage the community more widely, and learn of any further comments, feedback or contributions.

Internal Consultation

Internal consultation was undertaken through a City of Mandurah staff workshop.

Statutory Environment

The *Disability Services Act 1993* (the Act) requires all local governments and selected State Government agencies to develop, maintain and report on a plan to assist in the promotion of access and inclusion of people with a disability.

Policy Implications

Nil

Financial Implications

The implementation of the new Disability Access and Inclusion Plan will be delivered within existing financial capacity, as outlined in the adopted Long Term Financial Plan.

No additional funding is anticipated, with all initiatives and actions identified in the Plan supported through approved operational budgets. Any associated operating costs will be managed within existing allocations, ensuring financial sustainability. Furthermore, ongoing existing budget from previous outcomes of the DAIP will be redirected to support the delivery of the new Plan, enabling continuity of initiatives and efficient use of resources.

It is noted, however, that two actions identified within the Plan are contingent on the organisation successfully securing external grant funding and will only be progressed subject to such funding being obtained.

Any new capital projects will embed accessibility and inclusion, with appropriate funding dedicated accordingly to ensure the project is universally accessible.

Economic Implications

Implementing a DAIP delivers significant economic benefits by fostering a diverse workforce, driving innovation, reducing costs, and expanding opportunities. A DAIP supports local tourism through creating and promoting accessible spaces and welcoming community, all of which contributes to sustainable organisational growth and community prosperity. The disability sector is one of the larger employment sectors in Mandurah. More accessible and inclusive services, facilities, programs etc support the local disability sector supporting better employment outcomes for the local community.

Environmental Implications

Built environments that prioritise access and inclusion support universal design, improving both accessibility and sustainability outcomes. Designing inclusively from the outset reduces the need for retrofits, minimising waste, and resource use. Access and Inclusion Plans also encourage equitable access to parks, green spaces, and sustainable transport, fostering connection to nature and supporting environmental sustainability.

Risk Implications

The absence of a current DAIP would present a significant compliance risk to the City, as it would not meet the requirements of the Act, which mandates that all local governments prepare, implement and report on a DAIP. This may result in increased scrutiny from the Department of Communities and represent a governance risk. In addition, without a current DAIP to guide inclusive practices, there is an elevated risk of non-compliance with the *Disability Discrimination Act 1992*, potentially leading to complaints lodged with the Australian Human Rights Commission.

From an operational perspective, the lack of a current DAIP may result in inconsistent application of accessibility standards across services, facilities and programs, reducing service effectiveness and community participation. It also increases financial and reputational risk, as reactive responses to accessibility issues are typically less efficient and may attract public criticism. Furthermore, it limits the City's ability to demonstrate alignment with broader strategic frameworks, including the State Disability Strategy 2020–2030, and to provide clear direction for continuous improvement in access and inclusion outcomes.

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 are relevant to this report:

Economy

- 1.4 A thriving city that residents are proud to call home and people want to visit.

Community

- 2.1 Access to support services that enhance opportunities for everyone.
- 2.2 Safe and connected communities.
- 2.3 Inclusive and welcoming places, spaces, and neighbourhoods.

Environment

- 3.4 Our built environment is clean, accessible, and sustainable.

Leadership

- 4.2 Sound decisions based on evidence and meaningful engagement.

- 4.3 Effective advocacy focused on the needs of the community and strong relationships with key stakeholders.
- 4.4 Well-maintained assets and facilities that meet the needs of our community.
- 4.5 Responsible, transparent, value for money delivery of well planned, sustainable, projects, programs, and services.

Conclusion

The draft Disability Access and Inclusion Plan (DAIP) 2026-2031 has been developed to guide the City through the next five years, continuing to build on the work achieved through the delivery of the AIP 2021–2026, progressing equitable access and inclusion outcomes for people with disability.

The Plan reflects legislative requirements, ensuring the City meets its obligations under the Act, aligning with relevant State frameworks, and incorporates feedback from key stakeholders to support improved access to services, facilities, information and employment.

It is recommended that Council endorse the draft DAIP for the purpose of public advertising and community consultation. This will provide an opportunity for further input from the community, including people with disability, carers, service providers and advocacy groups, prior to the Plan being finalised and presented back to Council for adoption.

Officer Recommendation

That Council:

1. **Approves the draft City of Mandurah Disability Access and Inclusion Plan 2026-2031 for public consultation for a period of not less than 28 days.**
2. **Notes that a further report summarising submissions and any proposed amendments will be presented to Council following the consultation period.**

Acknowledgement of Country

The City of Mandurah would like to acknowledge the Bindjareb people, the Traditional Custodians of this land, and pay respect to all Elders, past and present.

We wish to acknowledge and respect their continuing culture and the contribution they make to the life of this City and the region.

Alternative Formats

This document is available in alternative formats on request to support access for different needs. Formats include electronic versions, standard or large print, Easy Read, and braille. Translated versions are available on request.

For more information or to request an alternative format, contact the Heritage and Community Capacity team at the City of Mandurah on (08) 9550 3777 or hcc@mandurah.wa.gov.au.

Why do we have a Disability Access and Inclusion Plan?

The City of Mandurah has a desire to be a vibrant city, delivering possibility for everyone.

The City of Mandurah has a Disability Access and Inclusion Plan (DAIP) to ensure that people with disability are able to access and participate fully in all aspects of community life on an equal basis with others. The DAIP provides a framework for identifying and removing barriers to access and inclusion across the City's services, facilities, information, employment practices and community spaces. It reflects the City's commitment to creating a welcoming, inclusive and liveable community where diversity is valued and where people of all abilities can contribute to and benefit from a fulfilled life.

The DAIP is also a legislative requirement under the Disability Services Act 1993 (WA), which requires local governments to plan for improved access and inclusion for people with disability. Through the DAIP, the City of Mandurah translates these obligations into practical actions that respond to local needs, support universal design, and promote dignity, independence and social connection. When we create a community that is accessible for people with disability, we help to create a more inclusive city for everyone.

What is a Disability Access and Inclusion Plan?

A Disability Access and Inclusion Plan (DAIP) is a formal, legislated plan that sets out how an organisation will ensure people with disability can access and participate in its services, facilities, information, employment and events on an equal basis with others.

In Western Australia, all public authorities (including State Government agencies and local governments) are required by law to develop, implement, maintain, and report on a current DAIP.

A DAIP is structured around seven mandatory outcomes set out in the legislation and regulations:

1. Services, programs and events are accessible to people with disability
2. Buildings and facilities are accessible
3. Information and communication are available in accessible formats
4. Quality of service is equitable for people with disability
5. Complaints processes are accessible and inclusive
6. People with disability can participate in all public consultation
7. People with disability can access employment and volunteering opportunities.

The Seven Outcome Areas

People with disability can access employment and volunteering opportunities

Services, programs and events are accessible for people with disability

People with disability can participate in all public consultation

Buildings and facilities are accessible

Complaints processes are accessible and inclusive.

Information and communication are available in accessible formats

Quality of service is equitable for people with disability

Why this Plan is called the Disability Access and Inclusion Plan

This document is titled the Disability Access and Inclusion Plan to clearly reflect its purpose and focus toward improving access and inclusion for people with disability. The title provides clarity about the intent of the Plan, while recognising that actions delivered through the Plan also benefit the broader community.

Definitions

Throughout this DAIP, we use the words disability, access and inclusion.

Disability

Disability refers to a range of physical, sensory, cognitive or psychosocial conditions that may be permanent, temporary or episodic, and which impact a person's ability to participate in everyday life.

Access

Access means people with disability can get to and use buildings, places, services, information and events. This includes reducing or removing barriers that may limit participation.

Inclusion

Inclusion means people with disability are considered from the outset in the planning and delivery of places, services and activities. It extends beyond access, focusing on meaningful participation in community life, including the opportunity to contribute, connect and experience a sense of belonging.

Alignment with other City of Mandurah Strategies

The DAIP aligns with other City strategies and plans to support a coordinated approach to identifying and reducing barriers for people with disability across the City.

Strategic Community Plan

The DAIP aligns with the City of Mandurah's Strategic Community Plan by supporting a community where everyone can participate and feel connected. The Plan contributes directly to priorities around inclusive places and spaces, access to services, safe and connected communities, and well-planned, accessible facilities. By embedding disability access and inclusion into planning, service delivery and engagement, the DAIP supports the Strategic Community Plan's intent to ensure community infrastructure, services and decision-making respond to the needs of people with disability as part of broader community planning.

The following Strategic Community Plan actions are identified as those most closely aligned with the intended objectives and actions of the Disability Access and Inclusion Plan 2026 - 2031:

- 2.1. Access to support services that enhance opportunities for everyone
- 2.2. Safe and connected communities
- 2.3. Inclusive and welcoming places, spaces and neighbourhoods
- 2.4. An enriched, creative, and empowered community that values culture, heritage, and life-long learning.
- 2.5. A healthy lifestyle and healthy community, with an emphasis on prevention
- 3.4. Our built environment is clean, accessible, and sustainable
- 4.1. A clear and shared vision for Mandurah's future
- 4.2. Sound decisions based on evidence and meaningful engagement
- 4.3. Effective advocacy focused on the needs of the community and strong relationships with key stakeholders
- 4.4. Well-maintained assets and facilities that meet the needs of our community
- 4.6. A committed, innovative, effective, and values driven Council and workforce.

All Council endorsed plans and strategies consider inclusion, although ones with a heightened focus that support improved access and inclusion are:

-  Corporate Business Plan 2025 - 2029
-  Place Enrichment Strategy 2023-2027
-  Youth Strategy 2021 - 2026
-  Arts and Culture Strategy 2023 - 2028
-  Child Safe Plan 2024 - 2027
-  Community Infrastructure Plan 2025
-  Events Strategy (draft)
-  Public Health Plan (draft)

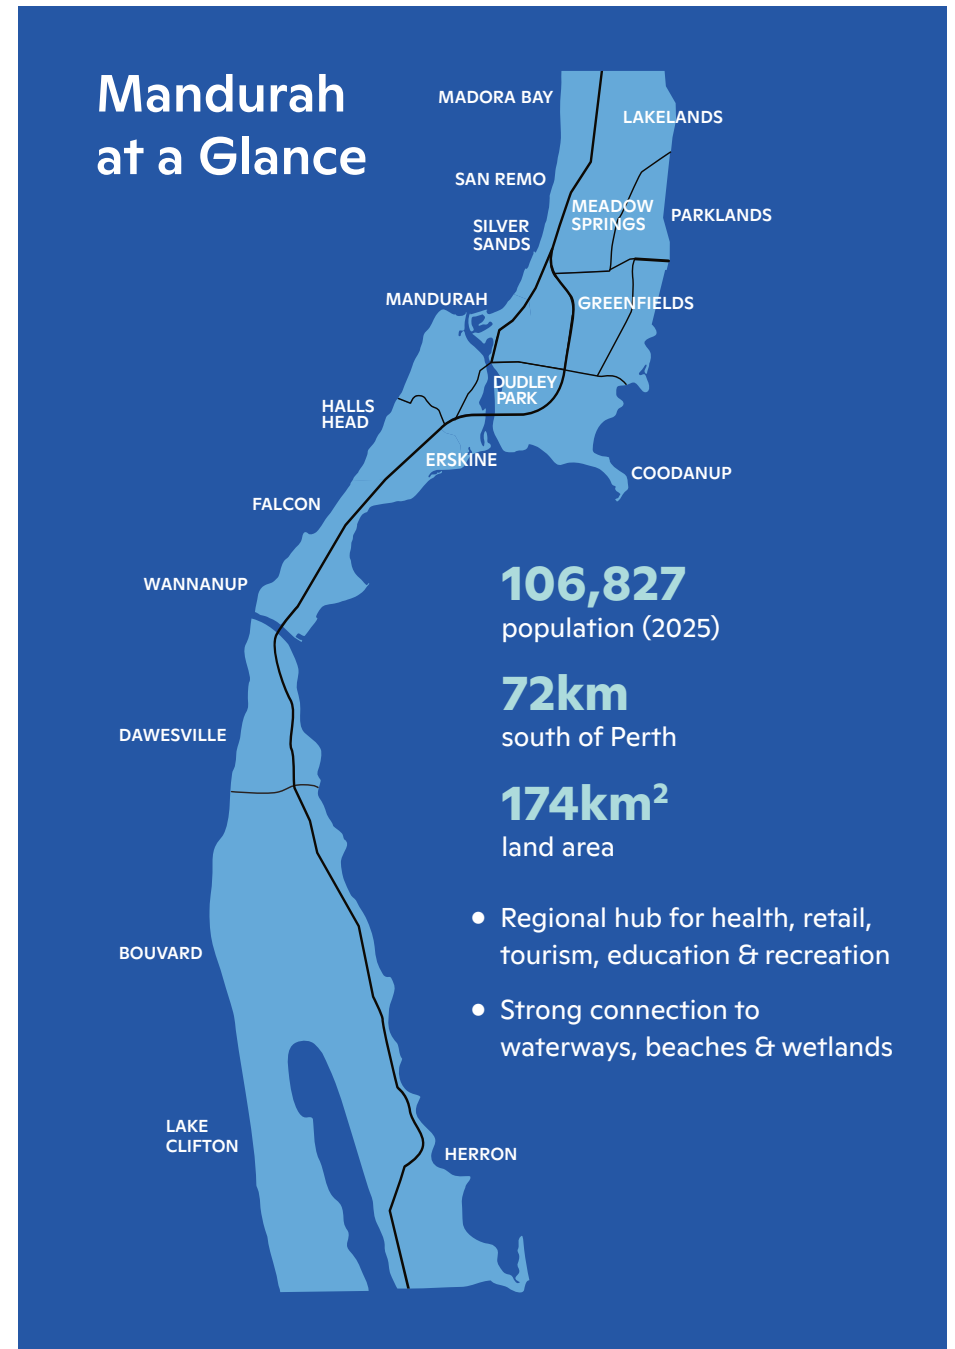

About Mandurah and our Disability Community Profile

The City of Mandurah is a major regional centre located 72km south of Perth, with an estimated population of 106,827 people and a strong role in servicing both residents and surrounding communities. Known for its natural assets and relaxed coastal lifestyle, Mandurah supports a diverse local economy including health, retail, tourism and education. The City comprises 18 suburbs and its facilities, services and public spaces play an important role in community life across the region.

Mandurah's population profile has important implications for service planning and delivery. The community is older than the Western Australian average, with a median age of 45 and more than a quarter of residents aged 65 and over. In addition, 6.6% of residents report needing assistance with support for everyday tasks, and 11.5% provide unpaid care to family or friends. The prominence of the Health Care and Social Assistance sector, employing 13.5% of residents, further reflects the level of support required within the community, including services connected to the National Disability Insurance Scheme.

These factors highlight the importance of accessible and inclusive infrastructure, services and public spaces that support independence and participation. Higher rates of ACROD parking permits also indicate significant mobility needs within the community. The Disability Access and Inclusion Plan 2026–2031 provides a strategic framework to respond to these needs, supporting improved access, inclusion, and wellbeing for people with disability, carers, older people, and the broader community.

Community Population Snapshot

Children (0-9 yrs)

11.1%

of the population

Youth (10-19 yrs)

11.8%

of the population

Aged (65 and over)

of the population

Key Indicators

Median age: 45 years old (WA: 38)

Number of families

25,111

Average number of children per family

1.8

Average number of people per household

2.4

What this means

Mandurah has a significantly older population, with more than 1 in 4 residents aged 65+. This drives increased demand for:

- Accessible infrastructure
- Inclusive services
- Age-friendly community design

National and State Overview

5.5 million

people in Australia have disability (21.4%)

411,500

people in Western Australia have disability

Disability and Support in Mandurah

People needing assistance

5,954

(6.6%)

Unpaid carers

8,611

(11.5%)

Accessibility Indicator:

High rate of ACROD permits relative to other Local Governments in WA indicates greater mobility support needs

What this means

- Many people with disability use formal and informal supports
- Growing need for accessible places, transport, and services
- Inclusion is essential for community participation and wellbeing

Workforce Participation

Participation Rate:

84.9%

of people without disability work

60.5%

of people with disability work

Unemployment Rate:

3.1%

People without disability

7.5%

People with disability

What this means

People with disability are less likely to be employed and more likely to be unemployed

Mandurah Local Economy

Health Care and Social Assistance:

13.5%
of employed
residents

- Largest employment sector in Mandurah
- Includes disability and community services
- Reflects high demand for accessible and inclusive services, places and spaces.

Accessibility and Economic Impact

Research commissioned by the City of Melbourne found that participating businesses in the study generated an estimated \$13 in additional revenue for every \$1 invested in accessibility improvements. This highlights that accessibility can support both inclusion and economic activity.

Tourism Research Australia reports that travellers with accessibility needs were involved in 23 per cent of domestic day trips nationally. If Western Australia reflects national trends, a similar share of day trips in WA may involve travellers with accessibility needs.

Planning for Disability Access and Inclusion

The City of Mandurah recognises people with disability as valued members of the community and acknowledges their contribution to the social, cultural and economic life of the City. The way in which community facilities, services, programs and information are planned, designed and delivered is fundamental to enabling participation for people with disability.

The Disability Access and Inclusion Plan (DAIP) 2026–2031 builds on the City’s established and ongoing commitment to improving access and inclusion across all areas of its operations.

Approaches to disability support in Western Australia have evolved significantly over time, transitioning from institutional models of care to community-based living that emphasises individual choice and control. The introduction of the National Disability Insurance Scheme (NDIS) provides individualised supports. While these reforms are in place, meaningful participation in community life continues to depend on the accessibility of public spaces, services, programs and information.

Local government plays an important role within this broader service system, working in partnership with State and Commonwealth governments, service providers and the community.

The DAIP is prepared in accordance with the *Disability Services Act 1993 (WA)* and provides a structured framework for identifying and addressing barriers, and for guiding ongoing improvements in access and inclusion for people with disability.

The City’s planning and implementation of disability access and inclusion initiatives is also informed by the following legislative and policy frameworks:

- *Disability Discrimination Act 1992*, including the Disability (Access to Premises – Buildings) Standards
- Building Code of Australia
- National Disability Strategy 2021–2031
- National Autism Strategy 2025–2031
- *Equal Opportunity Act 1984*
- United Nations Convention on the Rights of Persons with Disabilities
- A Western Australia for Everyone: State Disability Strategy 2020–2030

Access and Inclusion Advisory Group

The City of Mandurah’s Access and Inclusion Advisory Group has an advisory role in supporting the City to create an inclusive, accessible, and welcoming community for people of all abilities.

The group provides feedback to the City on policies, plans, services, and projects, with a particular focus on improving access and inclusion for people with disability, their families, carers, and the wider community. It supports the development, implementation, and review of the City’s DAIP, advocates for best-practice universal design, and helps identify barriers to participation in civic life. Through collaboration between community members, stakeholders, and the City, the group helps ensure that access and inclusion considerations are embedded across City decision-making and service delivery.

The Access and Inclusion Advisory Group makes a meaningful difference and will be integral toward delivering many actions contained within the DAIP.

Thank you to everyone who has participated as a member of this group over the years. Your commitment, advice, information and feedback is incredibly valuable.

Progress and Achievements since 2021

From 2021 to 2026, progress was delivered across all outcome areas of the Disability Access and Inclusion Plan through practical initiatives and collaboration with people with disability and community partners. This work was recognised with the City being named overall winner of the Most Accessible Community in WA Awards in 2021, 2023 and 2025, reflecting continued focus on improving disability access and inclusion across Mandurah.

Outcome Area One

People with disability have the same opportunities as other people to access the services of, and any events organised by, the City of Mandurah.

- Christmas in Mandurah events were made more accessible through an accessibility map and audio descriptions for the Christmas Lights Trail, and visual communication supports across key events.
- Crab Fest includes a Chill-Out Zone and sensory container, supported by a dedicated Accessibility Guide and Hidden Disabilities Sunflower training for event volunteers.
- Tactile bin lids support independent waste management for people with vision impairment and are paired with stickers to indicate that bins should be returned to the same location.

Outcome Area Two

People with disability have the same opportunities as other people to access the buildings and other facilities of the City of Mandurah.

- An All-Ability Paddle Launch facility was delivered as the first of its kind in Western Australia.
- The Mandurah Waterfront project delivered connected, accessible movement between the Eastern and Western Foreshores, supported by facilities such as a Changing Places facility, ramped access to the Kwillena Gabi Pool and beach, and inclusive play equipment and communication boards.
- Delivered Universal Access Toilets at public facilities, with full coverage to be completed in 2026/27.

Outcome Area Three

People with disability receive information from the City of Mandurah in a format that will enable them to access the information as readily as other people are able to access it.

- Communication boards installed across a range of public open spaces, facilities and events to support people with communication challenges to express needs and interact more easily.
- Information on accessible facilities, programs and services provided in print and online formats, improving access to information.
- My Community Chat Cards were introduced to support people with disability and support networks explore inclusive activities and facilities in Mandurah.
- Increased and formalised networking opportunities, strengthening connection, information sharing and participation for people with disability, families, support workers and the disability sector.

Outcome Area Four	Outcome Area Five	Outcome Area Six	Outcome Area Seven
<p>People with disability receive the same level and quality of service from City officers as other people receive.</p> <ul style="list-style-type: none"> • Customer service employees across the organisation trained on the Hidden Disabilities Sunflower initiative to support more inclusive and informed service interactions. • Annual disability awareness training strengthened employee understanding of disability and inclusive practice across the organisation. • Introduced clear and easy to find information on the City's website about disability facilities, services, activities and resources, improving access to information and supporting more informed customer service responses. 	<p>People with disability have the same opportunities as other people to make complaints to the City of Mandurah.</p> <ul style="list-style-type: none"> • Targeted engagement undertaken through disability networks, education support schools and service providers, ensuring the voices of people with disability informed City planning and decision making. • Engagement materials were strengthened to improve accessibility, including hard copy formats and more accessible online content. • Major City projects were presented to the Access and Inclusion Advisory Group at key stages, embedding access and inclusion considerations throughout project development. • A Beach Access Review, facilitated by Spinal Life Australia and supported by City officers, enabled people with disability to directly assess beach accessibility. The findings led to practical resources to support planning and access at Mandurah beaches. 	<p>People with disability have the same opportunities as other people to participate in any public consultation by the City of Mandurah.</p> <ul style="list-style-type: none"> • Communication boards installed across a range of public open spaces, facilities and events to support people with communication challenges to express needs and interact more easily. • Information on accessible facilities, programs and services was provided in print and online formats, improving access to information for people with disability. • My Community Chat Cards were introduced to support people with disability and support networks to explore inclusive activities and facilities in Mandurah. • Increased and formalised networking opportunities, including the Mandurah Disability Network and My Community Morning Tea, strengthening connection, information sharing and participation for people with disability, families, support workers and the disability sector. 	<p>People with disability have the same opportunities as other people to obtain and maintain employment with the City of Mandurah.</p> <ul style="list-style-type: none"> • Workshops delivered to build awareness of inclusive employment practices across the Mandurah, with a specific focus on customised employment (job carving). • Exploration days and customised employment trials implemented for people with disability, resulting in two positions being offered to people with disability. • A disability traineeship provided, delivered in partnership with a local disability employment service provider. • A local network established with the City of Rockingham to connect providers in customised employment and support shared learning. • The Workforce Diversity and Inclusion Strategy 2022 guides inclusive employment within the City, supported by an internal working group.

Community Leadership and Impact

Alongside the City's progress under this Plan, strong leadership has been demonstrated across the Mandurah community. Through the City of Mandurah Community Grants Program, targeted funding has supported initiatives that have developed into sustainable and valued community programs.

These initiatives expand opportunities for people with disability to participate, contribute and connect within community settings, strengthening inclusion and active participation across Mandurah.

Examples of this work include inclusive sport and recreation initiatives, peer support networks, inclusive social programs, capacity building workshops focused on employment and digital access, and creative arts and performance programs.

Development of the Disability Access and Inclusion Plan 2026 – 2031

This DAIP has been developed to guide the City's commitments to access and inclusion over the next five years. The steps taken by the City to develop the DAIP 2026 – 2031 are outlined below.

Review of the AIP 2021 – 2026

The previous DAIP was reviewed and analysed to determine what worked well, what could be improved, any actions that were not completed, and the level of achievement. This provided a strong lead into valuable lessons learnt and how to build on the strengths already created.

14

Community Engagement Process

Community engagement informed the development of the City of Mandurah's 2026 -2031 Disability Access and Inclusion Plan and was undertaken to ensure the Plan is grounded in the lived experience, priorities and ideas shared by people with disability and the wider community.

The City designed and coordinated the engagement process and developed accessible tools to support participation by people with different access needs and communication preferences. E-QUAL Disability Consultants facilitated two in-person community workshops and one online workshop using City-developed tools, with an additional session facilitated by City Officers. Workshops were held at various times across north, central and south Mandurah, with an online option provided. An additional workshop was conducted specifically with City employees to inform actions within the Plan.

Engagement tools supported clear communication and meaningful feedback, recognising that people share ideas in different ways. These included flash cards, communication boards, mindful colouring sheets and a visual story to support participation. Feedback was guided by three consistent questions: what the City is doing well in the access and inclusion space, what could be improved, and ideas for future action. A survey provided additional feedback through multiple accessible formats, available online and in hard copy at community locations.

Community engagement information packs supported organisations to gather feedback in their own settings, alongside engagement through advisory groups, networks and pop-up activities at community venues and events. Engagement opportunities were promoted through City communication channels and community networks. In total, 341 submissions were received, informing the priorities and actions of the Disability Access and Inclusion Plan 2026-2031.

Key engagement activities also included:

- Access and Inclusion Advisory Group
- Elected Member feedback
- Youth Advisory Group
- Release of the Draft Access and Inclusion Plan 2026 – 2031 that encouraged feedback from the whole community.

All of these contributions helped shape the new DAIP.

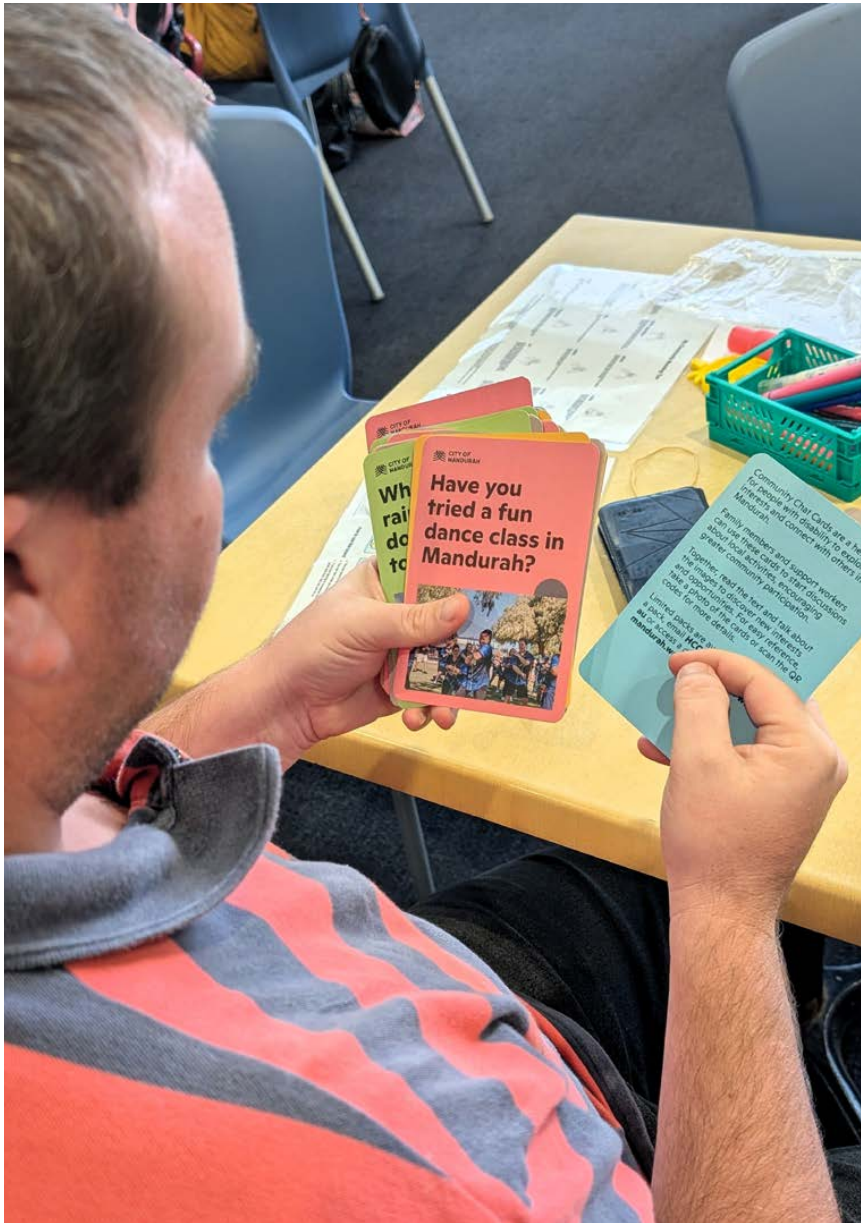

Community Engagement Outcomes

People with disability indicated ongoing progress in access and inclusion across Mandurah and emphasised the importance of sustaining these efforts. Inclusion was consistently described as enabling meaningful participation, contribution and connection within community life, rather than solely providing physical access to facilities or services.

Respondents highlighted that positive experiences are most effective when approaches are applied consistently and supported by clear, accessible information. Awareness and understanding of disability, including invisible disabilities, were identified as critical to how people engage with City services, workplaces and community environments. Employment was also raised as an important aspect of broader participation and contribution.

These insights have directly informed the priorities and actions outlined in the City's Disability Access and Inclusion Plan 2026–2031.

16

Communicating, Implementing and Reporting on the Disability Access and Inclusion Plan

The Disability Access and Inclusion Plan (DAIP) will be communicated through established City and community channels, including City newsletters, social media platforms, and disability, access and inclusion pop-up events and networks. Presentations on the DAIP will also be made available, upon request, to disability service providers, schools and community groups.

The DAIP will be published on the City's website and provided in accessible formats, including a text-only version compatible with screen readers, an Easy Read version in hard copy and PDF, and other alternative formats on request, such as large print, electronic formats and Braille.

Implementation of the DAIP will be supported through internal communication processes to ensure that all City officers, agents and contractors are informed of the Plan and their respective responsibilities.

Progress in implementing the DAIP will be reported annually to the Department of Communities, with key achievements also included in the City's Annual Report.

For further information, contact the City of Mandurah on (08) 9550 3777 or council@mandurah.wa.gov.au.

Disability Access and Inclusion Plan 2026 - 2031 Implementation Plan

Outcome One:

People with disability can access and participate in City of Mandurah services, programs and events in ways that meet their needs.

- 1.1 Embed inclusive and sustainable practises within City programs that support social connection, participation and wellbeing for people with disability of all ages.
- 1.2 Ensure access and inclusion for people with disability is incorporated in the planning and delivery of City-led and City-supported services and events.
- 1.3 Strengthen organisational capacity to consistently deliver inclusive services, programs and events.
- 1.4 Explore funding and partnership opportunities to support inclusive services, programs and events.

Outcome Two:

People with disability can access City of Mandurah buildings and facilities in ways that meet their access needs.

- 2.1 Prioritise practical improvements to existing City buildings and public spaces to strengthen accessibility and inclusion in everyday use.
- 2.2 Increase accessible toilet and adult change facilities in key locations and improve awareness of their availability.
- 2.3 Improve the provision, location and usability of ACROD parking to better reflect community access needs across City facilities and public spaces.
- 2.4 Integrate universal access and inclusive design into public open spaces, playgrounds, beaches and recreation areas to support shared participation.
- 2.5 Strengthen the maintenance and reliability of accessible infrastructure to ensure access features are consistently available, functional, and safe for use.

Projects/Actions	Year 1 26/27	Year 2 27/28	Year 3 28/29	Year 4 29/30	Year 5 30/31	Measures of Success	Lead	Organisational Partners

Disability, Access and Inclusion Guiding Principles

This Plan is guided by a set of principles that shape how the City of Mandurah approaches disability access and inclusion across all its services and activities. These principles are based on recognised approaches used in Australia and internationally, including the Social Model of Disability, Universal Design, and Asset-Based Community Development. Together, these approaches inform policy, planning, and community practice, and support decision-making that improves accessibility, participation, and inclusion for people with disability.

Understanding disability through the social model

The social model of disability recognises that disability is influenced by the way environments, systems and structures are designed. Participation can be limited when places, information or processes do not consider a range of access needs. When environments and systems are inclusive and accessible, people can participate and contribute with their disability. Disability itself is not the reason a person experiences barriers to participating in community life.

In a local government context, this means making informed design decisions that support participation within available resources. Planning buildings, playgrounds, events and information so they can be used by more people supports broader community involvement. Designing with access and inclusion in mind strengthens public spaces and services for everyone, including people with disability, older people, families, visitors and those with temporary access needs.

Valuing strengths through Asset-Based Community Development

This Plan is informed by Asset-Based Community Development. This approach recognises the strengths, skills, relationships and lived experience within the community. People with disability are contributors to Mandurah's social, cultural and civic life. Working alongside community members, organisations and networks supports

practical solutions that are locally relevant and informed by lived experience.

Accessibility and inclusion

Accessibility and inclusion are closely linked but not the same. Accessibility is about how people can use spaces, services and information in ways that support independence and choice. Inclusion is about what happens once people are there. It reflects whether people feel welcomed, respected and able to take part, share ideas, build connections and contribute to community life. When considered together, accessibility and inclusion support meaningful involvement and contribution across community life.

Universal design

Universal design supports both accessibility and inclusion. It involves designing spaces, information and experiences to work for a wide range of people as part of normal planning and delivery. Considering universal design early supports efficient use of resources and reduces the need for later changes. This approach improves usability and flexibility for the whole community while supporting people with disability.

Shared responsibility and partnership

Disability access and inclusion is a shared responsibility across the City of Mandurah and requires coordinated action across teams. This work is strengthened and made more sustainable through meaningful partnerships with community organisations, disability networks, sporting clubs, advocates, service providers, businesses and community members, ensuring lived experience informs planning and delivery. Working in this way supports access considerations to be identified early, addressed consistently and implemented in practical ways, contributing to inclusive participation for people with disability across Mandurah.

Language used in this Plan

The City of Mandurah uses person-first language when referring to disability in this Plan. This approach aligns with the terminology used in the *Disability Services Act 1993 (WA)* and reflects the City's broader communication practices regarding disability.

Person-first language places the individual before the disability, for example people with disability or people who have intellectual disability, and emphasises the person's strengths, interests and contributions rather than defining the person by disability.

The City also acknowledges that some people prefer identity-first language, which places identity before the person (for example, autistic person or blind person). Identity-first language is applied in relation to autism, recognising that many autistic people view autism as an integral part of their identity and lived experience.

Accordingly, this Plan and the City's broader communications use identity-first language when referring to autism.

Subject: 19.5 Bush Fire Risk Management Plan 2026-2028

Summary

In accordance with State Hazard Plan – Fire, local governments are required to prepare and maintain a Bushfire Risk Management Plan to identify, assess and prioritise bushfire risk, and to guide coordinated risk treatment planning.

This report seeks Council approval of the City of Mandurah Bushfire Risk Management Plan 2026-2028, which has been developed in accordance with the Office of Bushfire Risk Management Guidelines (2024) and provides a strategic framework for the identification, assessment and treatment of bushfire risk within the City.

Council is also requested to approve minor modifications to the City's Bush Fire Prevention and Control Policy POL – EMS 01 that informs the City's Annual Fire Compliance Notice prepared under the provisions of the *Bush Fires Act 1954*.

Disclosure of Interest

Nil.

Previous Relevant Documentation

G.28/6/20	23 June 2020	Bushfire Prevention and Control Policy
G.15/8/19	27 August 2019	Bushfire Risk Management Plan 2019-2023

Background

The City of Mandurah is required under State Hazard Plan – Fire and the Office of Bushfire Risk Management (OBRM) Guidelines to prepare and maintain a Bushfire Risk Management Plan (BRM Plan) to identify, assess and prioritise bushfire risk, and to guide coordinated risk treatment across land tenures.

The City's first Bushfire Risk Management Plan (BRM Plan) was adopted by Council in 2019, following the introduction of State-wide bushfire risk management planning requirements for local governments. That initial BRM Plan established a strategic risk-based framework for identifying assets exposed to bushfire risk and prioritising mitigation activities across the district.

Since that time, bushfire risk management planning in Western Australia continues to evolve, with updated State policy settings and revised guidance issued by OBRM in 2024. These updated Guidelines strengthen the focus on consistent risk assessment, prioritisation and assurance processes, and set out the requirements local governments must meet to maintain the BRM Plans endorsement.

The BRM Plan 2026-2028 has been developed as the next iteration of the City's strategic bushfire risk management framework. The Plan has been prepared in accordance with the OBRM Guidelines (2024) and applies a risk management approach consistent with State Emergency Management Policy 2.9 and AS/NZS ISO 31000:2018.

The BRM Plan identifies assets of value within the City that may be exposed to bushfire risk, assigns risk ratings to those assets, and outlines broad treatment strategies to reduce risk to an acceptable level through a coordinated, multi-agency and tenure-blind approach. The tenure blind approach notes that while not responsible for fire mitigation treatments on land it doesn't own and manage,

there should be broad visibility of these risks and engagement with landowners to progress risk reduction initiatives.

Comment

The BRM Plan noted in **Attachment 1** provides a strategic framework for the effective management of bushfire risk within the City of Mandurah, with the primary objective of protecting life, property, infrastructure and assets of local value.

The BRM Plan establishes a coordinated, multi-agency approach to bushfire risk management that guides the identification, analysis and evaluation of risk, supports the prioritisation of treatment activities, and promotes the efficient use of available financial and physical resources.

Adoption of the BRM Plan enables the City to align its bushfire mitigation activities with State policy and agency expectations, supports access to external bushfire mitigation funding programs, and provides a clear basis for the ongoing monitoring, review and reporting of bushfire risk treatment outcomes.

In addition, minor changes are proposed to the City's Bush Fire Prevention and Control Policy POL - EMS 01. A change in wording in Section 2 of the Policy provides greater clarity as to the circumstances where the City will consider fuel hazard reduction burns often referred to as running burns. This process sets out the expectation that the City will review the suitability of a running burn by having proposals assessed by the City's internal Bushfire Mitigation Working Group which includes consideration of all risks including ecological outcomes.

Definitions of key terms already exist within the City's Fire Compliance Notice and are now included within the Policy.

There is improved clarity on fires associated with camping and cooking and an explanation on the role of the Chief Bushfire Control Officer in determining circumstances where fires may be lit, which are posted on the City's website.

All running burns are to be undertaken in collaboration with local brigades who can assist in planning and burn delivery.

Attachment 2 provides a marked-up version of the City's Bush Fire Prevention and Control Policy POL - EMS 01, with **Attachment 3** providing a clean and proposed final version.

Consultation

The BRM Plan has been developed through consultation with relevant internal and external stakeholders. City officers have engaged with Department of Fire and Emergency Services – Bushfire Mitigation Branch through the development of the Plan to ensure alignment with State requirements and quality assurance expectations.

Relevant advisory and emergency management stakeholders such as the City's Bush Fire Advisory Committee have been informed during the review process to support coordinated implementation of bushfire risk treatment activities.

The BRM Plan was submitted to the Office of Bushfire Risk Management and received endorsement on 18 December 2025.

Bushfire Mitigation Working Group

The City's internal Bushfire Mitigation Working Group (BMWG) provides a collaborative forum for discussing, developing and coordinating bushfire risk mitigation strategies. The role of the working group includes reviewing and prioritising bushfire risks identified through the Bushfire Risk Management System (BRMS) a statewide software system for assessing risks and recording treatments. The BMWG supports the coordination of mitigation efforts across the City business units and partner agencies to ensure risks are identified, prioritised, and ongoing management and maintenance is addressed effectively.

The BMWG includes representatives from Development and Compliance, Emergency Management, City Parks Maintenance and Environmental Services. The working group also facilitates the integration of environmental, heritage and cultural considerations into mitigation planning.

Statutory Environment

The City of Mandurah, as a land manager, has obligations to manage bushfire risk on land under its care and control. Adoption of the Bushfire Risk Management Plan supports the City's compliance with *State Hazard Plan – Fire* and relevant emergency management policy frameworks.

Implementation of specific treatment activities may be subject to additional legislative and regulatory requirements, including environmental approvals where applicable.

The State Government *Biodiversity Act 2016* and *Environmental Protection Act 1986* detail management requirements of flora and fauna. Threatened Ecological Communities (TEC's) are protected under the *Environmental Protection and Biodiversity Conservation Act 1999 (Cth)* and require specific consideration, and approvals. The City must ensure diligence and compliance in regard to Matters of National Environmental Significance (MNES) including wetlands of international importance (Ramsar wetlands), listed threatened species and ecological communities and listed migratory species.

A range of exemptions exist for the delivery of bushfire mitigation activities however the careful assessment of proposed treatments is essential.

The CEO provides statutory authority for Authorised Persons to issue permits to for landowners to set fire to the bush under the provisions of the *Bush Fires Act 1954* prohibited and restricted burning period.

Permits to burn Garden Refuse under the provisions of Section 24G of the *Bush Fires Act 1954* can be issued to land within the district zoned rural residential under the City's Local Planning Scheme 12 and on all land 4000m² and greater. Burning garden refuse in this way is subject to conditions imposed through the application process.

Due to safety and environmental concerns, the City has generally not permitted private property owners to undertake running burns without detailed assessment from the City and also involvement of local brigades who can provide advice in preparation of burn prescriptions and also supporting the delivery of the burn with support with volunteers and firefighting appliances.

There has been some confusion and delay in the assessment of the suitability of running burns. The City's internal Bushfire Mitigation Working Group provides a structure that allows a more rapid risk

assessment of proposed burns. Updated wording within the City's Bushfire Prevention and Control Policy POL-EMS 01 provides clear direction on the City's willingness to consider running burns when they effectively mitigate risk, environmentally appropriate and have effective post fire management.

Policy Implications

Nil.

Financial Implications

The BRM Plan is a strategic document and does not, of itself commit Council to specific expenditure. The implementation of individual bushfire risk treatment activities will be subject to future budget consideration, resource availability and prioritisation through the City's annual planning and budget processes.

Responsibility for implementing and funding bushfire risk treatments rests with the relevant landowner or land manager. Where treatments are undertaken on land managed by the City, initial works may be supported through State Government funding programs, including the Mitigation Activity Fund.

Council should note that bushfire mitigation works on City-managed land may give rise to ongoing maintenance and asset management obligations, including the continuation of fuel management, access maintenance and monitoring activities in perpetuity once initial grant-funded works are completed. These ongoing obligations will need to be considered as part of long-term financial and workforce planning.

Forward budget forecasting will be required to ensure the City is able to sustainably resource ongoing bushfire risk mitigation and maintenance activities on land under its care and control, to meet its statutory obligations under the *Bush Fires Act 1954* and to support the objectives of the Bushfire Risk Management Plan 2026-2028.

Economic Implications

There are costs associated with the initial delivery of mitigation treatments and in the commitment to ongoing maintenance. There are funding opportunities through the DFES Mitigation Activity Fund (MAF) where treatments meet the required funding criteria.

As the bushfire risk assessment process is finalised and mitigation treatments are developed additional City funding will be required to deliver treatments not funded through MAF and for ongoing maintenance.

Environmental Implications

Bushfire risk treatment activities identified through the BRM Plan may have environmental considerations, particularly where works are proposed within or adjacent to environmentally sensitive areas.

The BRM Plan provides a strategic framework to ensure that bushfire risk treatments are planned and implemented in a manner that balances risk reduction with the protection of environmental, financial and cultural values. Site-specific environmental assessments, approvals and mitigation measures will be undertaken as required at the project level, in accordance with relevant legislation and agency guidance.

Adoption of the BRM Plan supports a coordinated and considered approach to bushfire mitigation that seeks to reduce risk to the community while minimising adverse impacts on biodiversity, waterways and sensitive ecological areas.

Risk Implications

Bushfire risk represents an ongoing and significant risk to the City of Mandurah, with potential consequences for community safety, critical infrastructure, environmental assets and the City's financial sustainability.

Failure to adopt and implement an endorsed Bushfire Risk Management Plan would increase the City's exposure to unmanaged bushfire risk and may adversely impact eligibility for State Government bushfire mitigation funding programs. Adoption of the BRM Plan provides a structured, risk-based framework to identify, prioritise and manage bushfire risk across land tenures.

A key risk associated with implementation relates to the long-term resourcing and maintenance of bushfire mitigation works on City-managed land. While initial treatment activities may be supported through State Government funding, the City retains responsibility for the ongoing maintenance, monitoring and renewal of these treatments over time. Inadequate planning for these ongoing obligations may result in residual risk increasing, reduced effectiveness of mitigation works or non-compliance with statutory obligations.

This risk can be mitigated through forward planning, including the integration of bushfire mitigation maintenance requirements into long-term financial and asset management planning and regular review of treatment effectiveness in accordance with the BRM Plan.

Adoption of the BRM Plan supports proactive risk reduction, strengthen governance and assurance processes, and assists the City to balance immediate risk treatment needs with sustainable long-term management of bushfire risk on land under its care and control.

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 are relevant to this report:

Community

- Safe and connected communities

Environment

- Our natural environment is celebrated, protected and restored for generations to come

Leadership

- Responsible, transparent, value for money delivery of well planned, sustainable, projects, programs and services

Conclusion

Bushfire risk remains a significant and evolving challenge for the City of Mandurah. Adoption of the Bushfire Risk Management Plan 2026-2028 provides a contemporary, evidence-based framework to guide coordinated bushfire risk management and mitigation activities across the City, supporting the protection of the community, the environment and assets of local value.

Officer Recommendation

That Council:

- 1. Adopts the City of Mandurah Bushfire Risk Management Plan 2026- 2028 as detailed in *Attachment 1*.**
- 2. Adopts the amended Bushfire Prevention and Control Policy POL-EMS 01 provided in *Attachment 3*.**

1. Introduction

1.1. Background

This Bushfire Risk Management (BRM) Plan provides contextual information to inform a structured approach to identifying, assessing, prioritising, monitoring and treating bushfire risk. The BRM Plan has been prepared by the City of Mandurah, encompasses all land within the City of Mandurah and has been written on behalf of all stakeholders within that area. The BRM Plan is informed by consultation and communication with land and asset managers that has occurred throughout its development to ensure an informed and collaborative approach to managing bushfire risk.

The BRM Plan has been prepared with due consideration of the requirements stated in the [Guidelines for Preparing a Bushfire Risk Management Plan](#) (the Guidelines) published by the Office of Bushfire Risk Management (OBRM) including the principles described in *ISO 31000:2018 Risk Management*.

Endorsement of the Bushfire Risk Management Plan by the City of Mandurah council satisfies their endorsement obligations under section 2.1 of the *State Hazard Plan – Fire*.

1.2. Objective of the Bushfire Risk Management Planning Program

The BRM planning program supports local governments to reduce the threat posed by bushfire. The City of Mandurah BRM Plan will contribute to achieving the objective of the BRM program by:

- Guiding and coordinating a cross-tenure blind, multi-stakeholder approach to BRM planning.
- Facilitating the effective use of the financial and physical resources available for BRM activities.
- Supporting integration between risk owners, strategic objectives and tactical outcomes.
- Documenting processes used to monitor and review the implementation of treatments to ensure risk is managed to an acceptable level.

1.3. Legislation, Policy and Standards

Legislation, policy and standards that were applied in the development of this BRM Plan can be found in the *Bushfire Risk Management Planning Handbook – Appendix 1 – [Summary of Related Legislation Policy and Guidelines](#)*.

2. The Risk Management Process

The BRM planning process is a cycle of understanding the context and assessing and treating risks. Each of these steps is informed by communication and consultation and supported by monitoring and review. The three products produced during the BRM planning process are the BRM Plan, Asset Risk Register and Treatment Schedule.

Further details on the guiding principles and process for the development of this plan can be found in Chapter 2 of the [Guidelines](#).

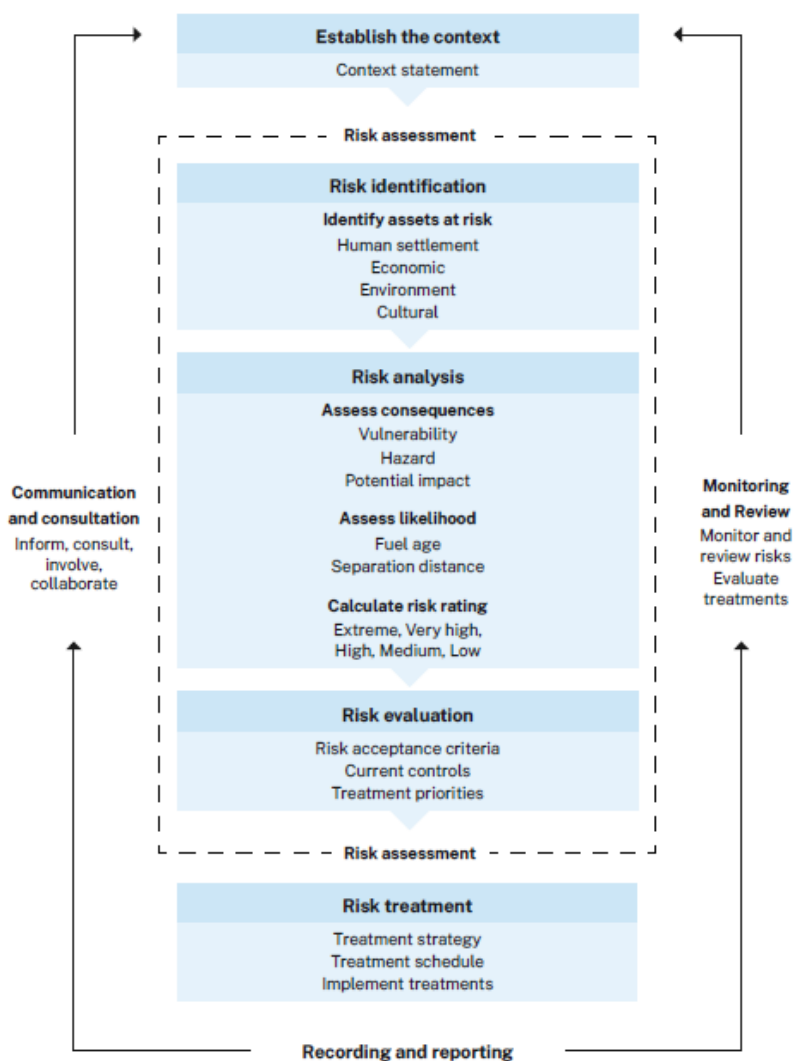

Figure 1 – The Bushfire Risk Management planning process

2.1. Roles and Responsibilities

The roles and responsibilities of the key stakeholders involved in the development of the BRM Plan are outlined in **Table 1**.

Table 1 – Roles and Responsibilities in the BRM planning process

Stakeholder	Roles and Responsibilities
Local Government	<ul style="list-style-type: none"> • Custodian of the BRM Plan. • Coordinate the development and ongoing review of the BRM Plan. • Undertake bushfire risk assessment of the local government area. • Submit the draft BRM Plan to OBRM for review and endorsement. • Develop and implement a Treatment Schedule for local government managed land. • Encourage risk owners to treat identified risks. • Communicate the plan to the community.
DFES	<ul style="list-style-type: none"> • Contribute to the development and implementation of the BRM Plan. • Facilitate involvement of state and federal government agencies in the BRM planning process. • Undertake treatments on unmanaged reserves and unallocated Crown land within gazetted town site. • By agreement, implement treatment strategies for other land managers. • Endorse BRM Plans as consistent with the Guidelines, BRM Program and dynamic risk environment. • Administer the Mitigation Activity Fund Grants Program.
Department of Biodiversity, Conservation and Attractions (DBCA)	<ul style="list-style-type: none"> • Contribute to the development of the BRM Plan. • Implement their treatment program on DBCA managed land. • Provide advice on environmental assets and appropriate treatment strategies for their protection.
Department of Planning, Lands and Heritage	<ul style="list-style-type: none"> • Identify managed assets. • Provide advice on management of Aboriginal Cultural Heritage.
Other State and Commonwealth Government agencies and public utilities	<ul style="list-style-type: none"> • Identify managed assets. • Provide advice on current risk treatment programs. • Contribute to the development of BRM Plans. • Undertake treatments on lands they manage.
Corporations and private landowners	<ul style="list-style-type: none"> • Identify managed assets. • Provide advice on current risk treatment programs. • Undertake treatments on lands they manage.

2.2. Stakeholder Engagement

Engagement with stakeholders during the development, implementation and review of the BRM Plan ensures planning is based on comprehensive information and considers the values and objectives of the entire community.

Key stakeholders identified in the BRM planning process are shown in **Table 2**. These are stakeholders that are identified as having a significant role or interest in the planning process or are likely to be significantly impacted by the outcomes.

Table 2 – Key stakeholders identified in the BRM planning process for City of Mandurah

Stakeholder	Role or interest	Level of impact of outcomes	Level of engagement

3. Establishing the Context

Understanding the context of the City of Mandurah is essential to how bushfire risk is identified, assessed and managed. Bushfire risk in Mandurah is influenced by a combination of natural and human factors, including the City's unique coastal and wetland environment, patterns of land use and development and the characteristics of its community. These factors shape how and where bushfire risk occurs, how it affects people, property and the environment, and the priorities for mitigation. Recognising Mandurah's distinct environmental features and community needs ensures that bushfire risk management strategies are practical, targeted and effective in reducing risk across all areas of the City.

3.1. Strategic and Corporate Framework

Western Australian Local Governments are required to prepare and implement an Integrated Planning and Reporting Framework (IPRF). This framework guides the City's operations, resourcing and decision-making, based on the community's vision and aspirations. The Strategic Community Plan is the City's primary document for strategy and planning, capturing our community's long-term vision, goals, and priorities. It turns the community's ideas into actions that shape our culture and strategies, helping us achieve the desired future for our city.

The community vision for the City of Mandurah as set out in the Strategic Community Plan 2024-2044 is:

“Woven by waterways; a city that is thriving and connected to its people and nature”

This plan outlines the community's aspirations and priorities across the following key focus areas:

- Economy – empowering our community to thrive
- Community – a city with a village heart, everyone has a place in our communities
- Environment – built in nature, not on nature
- Leadership – advocating and delivering possibility for everyone

The implementation of processes used in achieving the key focus area criteria is outlined in the Corporate Business Plan 2024-2029 and further detailed in annual Operational Plans and Annual Budget allocations. The City of Mandurah is committed to a proactive and collaborative approach to bushfire risk management as demonstrated by:

- An active Local Emergency Management Committee (LEMC) to exercise and test emergency management arrangements for bushfire.
- An internal Bushfire Mitigation Working Group to review and approve the treatment schedule.
- Active and engaged Bushfire Advisory Committee (BFAC) to assist with the identification of bushfire risk.

3.2. Land Use and Tenure

The City of Mandurah is Western Australia's largest regional city situated along the Indian Ocean coastline and covering a total land area of 173 square kilometres. The City extends approximately 50 kilometres from north to south but is only eight kilometres wide at its broadest point. It shares boundaries with the City of Rockingham to the north, Shire of Waroona to the south and the Shire of Murray to the east.

Mandurah's diverse range of land uses and tenures includes:

- 91ha of developed foreshore
- 28kms of canal waterways
- 620ha of bushland
- 260ha of recreation space
- 50kms of beaches

Land within the City is held under a mix of local government, State government, and private ownership. Tenure plays a critical role in determining risk ownership, with land managers responsible for implementing appropriate bushfire risk reduction strategies in line with their capacity, resources and statutory obligations.

The City's blend of coastal, urban, semi-rural and bushland environments highlights the importance of coordinated land management in reducing bushfire risk.

Key Land Managers

Private Landowners - manage residential, rural, and semi-rural properties and are required to comply with the City's firebreak notice, hazard reduction requirements, and bushfire planning provisions under State Planning Policy 3.7 Bushfire.

Department of Biodiversity, Conservation and Attractions (DBCA) - Manages regional and conservation parks, nature reserves and foreshore reserves. DBCA employs fire management strategies such as prescribed burning, vegetation management, and coordinated fire response, often in collaboration with local brigades and DFES.

City of Mandurah - responsible for managing reserves, parks road verges, and community facilities. The City carries out mechanical fuel reduction, firebreak installation, prescribed burning and community education to mitigate bushfire risks on land under its control.

Department of Planning, Lands and Heritage (DPLH) - oversees unallocated Crown land and unmanaged reserves, which can pose higher levels of risk due to limited direct management. DFES often undertake bushfire risk management works on these lands within gazetted town sites on behalf of DPLH.

A breakdown of the tenure with the City of Mandurah is shown in **Table 3**.

Table 3 – Summary of land management responsibilities within the City of Mandurah

Land Manager	Local Government Area %
Local Government	7.9%
Private Land	30.8%
Department of Biodiversity, Conservation and Attractions	29.5%
Department of Planning, Lands and Heritage	6.3%

Although the City’s local government boundary extends across a substantial land and marine area, only approximately 74% is land, with the remainder made up of coastal and estuarine waters. This unique land-to-water ratio shapes bushfire risk management priorities, as populated coastal corridors and inland nature reserves concentrate exposure within a limited land area.

Community Infrastructure

Certain communities and assets in Mandurah are particularly exposed or vulnerable to bushfire due to their location, land use, or surrounding vegetation. These include:

- Residential communities located in bushfire prone areas, particularly those interfacing with conservation reserves, wetlands, or coastal scrub.
- Critical infrastructure and facilities such as Peel Health Campus, aged care facilities, John Tonkin Community College and South Metropolitan TAFE, Mandurah Southern Districts Volunteer Bushfire Brigade and regional utilities. These sites often require tailored bushfire protection measures due to the essential services they provide and the vulnerabilities of occupants.
- Tourism and recreation areas including caravan parks, holiday accommodations, and foreshore precinct, which may host a high number of transient visitors unfamiliar with local risks and evacuation routes.
- Transport corridors including major highways and rail lines, which are vital for evacuation and emergency access but can also be exposed to bushfire impacts.

Capacity and Strategies

The capacity of each land manager to address bushfire risk varies depending on resourcing, statutory responsibilities, and competing land use priorities. Effective risk reduction in Mandurah relies on strong collaboration between all stakeholders, including the City, state agencies, private landholders, and the community. Key strategies include fuel management programs, bushfire risk mapping, community engagement and education and ensuring compliance with bushfire planning and building requirements. Coordinated planning and shared responsibility are essential to ensure risks are appropriately managed across tenure boundaries.

In addition to statutory land management responsibilities, the City recognises the enduring cultural connection of the Bindjareb people to Mandjoogoordap. Aboriginal heritage and knowledge are integral to understanding and managing bushfire risk across the landscape.

3.3. Community Demographics and Values

Since the 1990s, the City of Mandurah has undergone significant and continuous population growth, rising from 27,000 residents to 90,306 in 2021. By 2024, the population reached 102,922 and is projected to increase further to 116,567 by 2036 (forecast.id). Mandurah's demographic profile is notably characterised by its appeal as both a retirement and sea-change destination. With a median age of 45 years in 2024, this ageing trend presents important considerations for community resilience and bushfire risk management.

As shown in the Community Snapshot (below), Mandurah's demographic profile reflects a range of characteristics that can influence vulnerability and resilience to bushfire. These demographic characteristics reinforce the unique challenges of Mandurah's community. The ageing population, the presence of residents with disability or long-term health conditions and a culturally diverse population requires inclusive planning.

During emergency response and evacuation, older residents and those with health conditions or disabilities may require more time, tailored assistance, and reliable access to transport. Recovery can also be more challenging with health needs, social isolation, and financial pressures having a greater impact on these groups.

Collaboration among local government, emergency services, health and disability providers, aged care facilities, and community organisations is an important aspect of planning. Practical steps may involve customised evacuation procedures, accessible communication methods, and community education initiatives designed for older residents, people with disabilities, and individuals with chronic health conditions, as well as their families and carers.

New residents, particularly those in recently developed residential areas, may underestimate bushfire risk due to the absence of dense bushland, potentially resulting in complacency regarding preparedness. This perception can influence their engagement in mitigation measures such as property maintenance, adherence to firebreak requirements, and personal emergency planning. In contrast, long-term residents and older individuals often possess a heightened awareness of local bushfire hazards and are more likely to support proactive risk management initiatives. Recognising these differing attitudes is essential for designing community education programs, engagement initiatives, and risk communication strategies that effectively promote preparedness and resilience among all population groups.

Integrating demographic characteristics, vulnerabilities, and community values into bushfire preparedness, response, and recovery planning enhances overall resilience and ensures that strategies are inclusive and aligned with local priorities. The presence of seasonal tourism and numerous holiday homes adds further complexity, as visitors and absentee landowners may lack familiarity with the area and appropriate bushfire response protocols. Addressing the needs of permanent residents while considering the risks associated with a transient tourist population enables emergency management in Mandurah to be equitable, inclusive, and effective in safeguarding the wellbeing of all community members.

3.4. Cultural Heritage

As the traditional custodians of Mandjoogoordap (Mandurah) the Bindjareb people of the Noongar Nation maintain an enduring connection to this boodja (land) that has spanned tens of thousands of years. Mandjoogoordap, meaning *'meeting place of the heart'*, represents the deep connection between people and the land that sustains them. The City of Mandurah acknowledges this connection and the significant role the Bindjareb people continue to play in shaping, managing and caring for the environment.

Caring for boodja is deeply embedded in Bindjareb culture and knowledge systems. Practices such as cultural burning have long been used to protect and enhance biodiversity, while harvesting and land stewardship based on the six Noongar seasons ensured sustainability and resilience. These practices highlight the importance of Aboriginal knowledge in bushfire risk management and environmental care.

The City recognises the collective responsibility to support and empower Aboriginal people in the continuation of these practices. Collaborative relationships with traditional owners provide opportunities for greater participation in bushfire risk management including the incorporation of cultural burning practices into the management of bushland reserves. The City will continue to engage with native title holders, traditional owners and aboriginal knowledge holders through agreed processes and partnerships, ensuring that land and fire management respects culture values and is undertaken in line with existing arrangements and agreements.

Tourism is also a major industry and contributor to Mandurah's economic value generating approximately \$838.5M in 2023/24.

Named Australia's Top Tourism Town in 2023, the City draws over two million day-trip visitors each year and experiences significant population surges during peak holiday periods particularly throughout the summer. This seasonal influx, particularly throughout the bushfire season creates additional risk for emergency services as tourists may lack awareness of local bushfire hazards, evacuation routes or emergency warning systems.

3.6. Topography and Landscape Features

The City of Mandurah lies within the Swan Coastal Plain ecoregion and possesses an array of vegetation communities, from coastal dunes and sand plains to Banksia and Eucalypt woodlands. Dune systems dominate the coastline with limestone outcrops found to the north of the City.

Topography throughout the Swan Coastal Plain is predominantly flat to gently undulating with slopes averaging around 0-5 degrees. However, steeper topography does exist throughout coast dune areas and limestone outcrops with slopes which may reach up to 15 degrees. These areas are problematic as steep; sandy hills are difficult to negotiate with heavy machinery and fire appliances.

The steepest terrain within the City occurs along the coastal strip in association with dune systems, as well as throughout the limestone ridges along the southern section of Old Coast Road. Elevation across the municipality ranges from 0-60 metres AHD (Australian Height Datum).

The vast estuarine landscape presents a number of issues in relation to fire suppression. Peaty, organic soil fires are difficult to suppress and detect, often burning longer, underground with frequent re-ignition. Peat is potentially high in acid sulphate soils, which may be detrimental to fishery stocks if harmful chemicals leach into waterways. Riverine environments may be difficult for fire appliances to transverse, they may be unstable when burnt, with the potential to collapse under pressure.

These landforms influence bushfire dynamics in several ways. Dune and ridge systems can intensify fire behaviour, accelerate fire spread and restrict vehicle access for suppression activities. Conversely, flat terrain and wetland areas can limit fire intensity but present challenges for access, containment and ongoing mitigation activities such as planned burning.

Mandurah is also defined by its extensive waterways, with the Peel-Harvey Estuary forming the largest inland waterbody in south-western Australia and being part of the Ramsar-listed Peel Yalgorup wetlands. While waterways can act as natural firebreaks, they also create fragmented landscapes where access is limited, evacuation routes may be constrained, and bushfire response strategies must account for these barriers.

3.7. Climate and Weather

The City of Mandurah experiences a Mediterranean climate characterised by mild, wet winters and warm to hot, dry summers. The Bureau of Meteorology (BoM) weather station at Halls Head records the full suite of mean monthly climate statistics for the coastal areas. Figures 3 and 4 below illustrate the annual temperatures and rainfall patterns for Mandurah.

Figure 3 – Monthly mean temperatures from 2001-2025

Figure 4 – Monthly mean rainfall from 2001-2025

Southwest Western Australia typically experiences a cool to mild growing season from August through to November, followed by four months of summer drought conditions. This dry period coincides with the peak bushfire season when vegetation becomes highly flammable, and fire potential is at its greatest.

Predominant and worst-case fire weather conditions are based on long term BoM climate statistics which help predict likely bushfire behaviour and identify safe conditions for planning burning during the cooler months of late Autumn, winter and early spring. Key influencing factors include wind speed and direction, relative humidity, temperature and fuel moisture content.

The most severe fire weather typically occurs when a low-pressure trough forms off the west coast bringing northerly or north-easterly winds, very high temperatures and low humidity. These conditions often correspond with Extreme or Catastrophic fire danger ratings. In the Mandurah region, such conditions occur on average less than five percent of the time during the bushfire season, approximately six days between December and March.

During summer, large landscape fires driven by strong easterly winds can originate in the agricultural areas east of Mandurah and travel westward toward the City. These events can significantly strain firefighting resources during extended campaign fires.

Dangerous fire weather often follows a sequence of hot days and persistent easterly winds intensifying when the coastal trough deepens and moves inland. Wind direction can shift from easterly to northerly and then to westerly, with the change to strong south-westerly winds frequently occurring in the afternoon when temperatures and fuel dryness peak.

Fires under these conditions can intensify rapidly as the wind change turns the long flank of a fire to head fire, greatly increasing the rate of spread.

The combination of high fuel loads within Yalgorup National Park and prevailing south-westerly winds strongly influences mitigation priorities in adjoining reserves such as Tims Thicket Reserve (to the north) and Warragup Springs Reserve (to the east).

Bushfire Season

In the southern regionals of Western Australia, including the City of Mandurah, the bushfire season typically extends from October through to April, although local conditions can cause this period to start earlier or finish later. The greatest bushfire danger occurs between late spring and early autumn when vegetation has dried following winter rainfall and temperatures are consistently high.

During summer, the dominant weather pattern is influenced by anti-cyclones moving east across southern Australia producing hot, dry easterly winds and the development of a west coast trough. These conditions create ideal circumstances for bushfire ignition and rapid spread, particularly when winds are strong and gusty near the escarpment and coastal plain.

Weather has a direct influence on bushfire behaviour affecting the fire’s intensity, speed and predictability. Periods of wet weather promote vegetation growth, increasing available fuel loads such as grass, leaf litter and bark. When followed by extended dry and hot conditions, this fuel becomes highly flammable.

Strong winds can accelerate fire spread and carry embers over long distances, creating spot fires well ahead of the main front. Sudden changes in wind direction are also a major driver of erratic and dangerous fire behaviour.

Looking ahead, climate projections for the southwest region indicate a trend toward hotter temperatures, more days of severe fire weather and reduced winter and spring rainfall. These changes are expected to extend the bushfire season and increase fire intensity.

Mitigation planning will need to consider these changing conditions. Opportunities for planning burning may become more limited as suitable weather windows narrow, and adaptive management will be required to balance fire risk reduction with the protection of remnant vegetation, wildlife habitat and sensitive ecological areas.

Total Fire Bans

A Total Fire Ban (TFB) is declared on days when fires are most likely to threaten lives and property. This occurs when extreme fire weather is forecast or when existing fires are placing high demand on firefighting resources. Whilst TFBs are most common during the bushfire season, they can also be declared outside this period e.g. During unseasonably hot, dry and windy conditions ahead of a storm front. TFB’s are declared by DFES in consultation with local governments. When in place, a TFB applies to the entire local government area and may cover multiple local governments where similar conditions exist.

Table 4 shows the number of TFB’s declared in the City of Mandurah from 2019-2024.

Table 4 – Total number of Total Fire Ban declarations 2019-2024

	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24
City of Mandurah	1	6	6	5	3	8

3.8. Vegetation and Fuel

Mandurah’s environment is diverse and unique with a rich mix of ecosystems that include riverine, estuarine and coastal foreshores, extensive wetlands, bushlands, coastal heathland, and Tuart-Jarraah-Marri-Banksia woodlands. Coastal dune systems are typically dominated by scrub-heath and low woodlands communities, particularly Banksia species, while inland areas are characterised by eucalypt woodlands.

These natural areas can be grouped into broadscale ecological units known as vegetation complexes. Each complex reflects the influence of landforms, soils, and climate, and has its own vegetation structure and fuel characteristics.

These features directly affect potential fire behaviour, including how readily fire may spread, its intensity, and how slope interact with fuel to influence fire dynamics. Seven vegetation complexes are present within the City of Mandurah as shown in **Figure 5**.

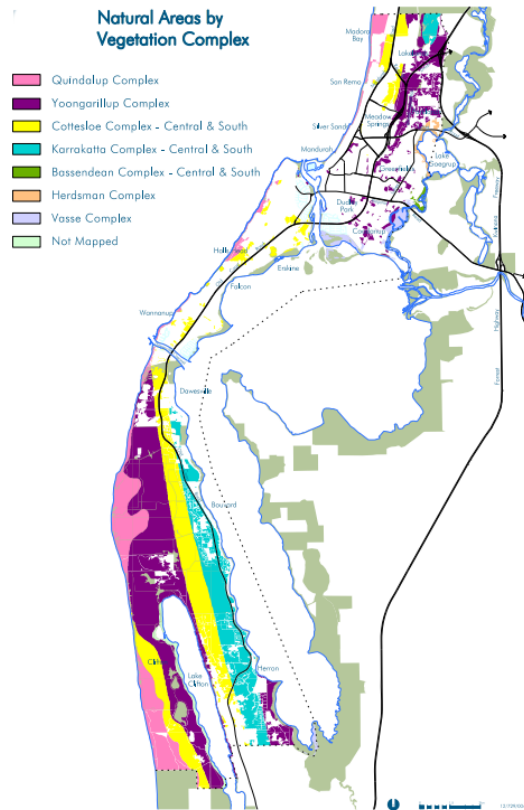

Figure 5 – Vegetation Complexes within the City of Mandurah

Management options can be constrained by sensitive environmental values such as peat soils, Environmentally Sensitive Areas (ESA) and Threatened Ecological Communities. The presence of important environmental values places some limits on treatment activities, requiring careful planning to balance fire mitigation with environmental protection.

3.9. Bushfire Prone Areas

The Map of Bushfire Prone Areas, designated by the Fire and Emergency Services Commissioner, identifies land with the potential to be affected by bushfire. This map is reviewed regularly to reflect changes in vegetation, development and risk. Whilst the policy does not apply retrospectively, the BRM Plan provides a framework for addressing existing development risk and prioritising treatments for areas where community risk remains high.

Figure 6 – Map of Bushfire Prone Areas within the City of Mandurah

3.10. Important Species and Communities

An ecological community is a naturally occurring biological assemblage of plants, animals and other organisms that occupy a particular habitat. These communities can be assessed and assigned a conservation status depending on the level of threat they face, ranging from Presumed Totally Destroyed to Vulnerable, Endangered or Critically Endangered.

The state *Biodiversity Act 2016* and *Environmental Protection Act 1986* detail management requirements of flora and fauna. Threatened Ecological Communities (TEC's) are protected under the *Environmental Protection and Biodiversity Conservation Act 1999 (Cth)* and require specific consideration, and approvals. The City must ensure diligence and compliance in regard to Matters of National Environmental Significance (MNES) including wetlands of international importance (Ramsar wetlands), listed threatened species and ecological communities and listed migratory species.

A range of exemptions exist for the delivery of bushfire mitigation activities however the careful assessment of proposed treatments is essential.

Within the City of Mandurah, key ecological assets include areas of:

- Banksia Woodlands of the Swan Coastal Plain TEC (Commonwealth listed)
- Tuart (*Eucalyptus gomphocephala*) Woodlands and Forests of the Swan Coastal Plain TEC (Commonwealth listed)

These habitats provide critical food, nesting and movement corridors for several threatened fauna species including:

- Baudin’s Black cockatoo (*Calyptorhynchus baudinii*)
- Carnaby’s Black Cockatoo (*Calptorhynchus latirostris*)
- Forest Red-tailed Black Cockatoo (*Calyptorhynchus banksii naso*)
- Western Ringtail Possum (*Pseudocheirus occidentalis*)

Mandurah is also home to significant flora species of conservation concern such as the Grand Spider Orchid (*Caladenia huegelii*) and the Glossy-leafed Hammer Orchid (*Drakaea elastica*).

The presence of these threatened species and ecological communities require careful consideration when developing bushfire risk mitigation strategies. Inappropriate fire regimes, either too frequent, too intense or conversely, long term fire exclusion may place these assets at further risk by reducing habitat quality, altering species composition and limited regeneration capacity.

To ensure protection, the Department of Biodiversity, Conservation and Attractions (DBCA) databases and mapping resources will be consulted during the planning and implementation of bushfire mitigation activities. Mitigation works may be subject to seasonal restrictions or require modified techniques to reduce impacts on sensitive species and ecological communities.

A further consideration is the potential for bushfire prevention and suppression activities to facilitate the spread of weeds and plant diseases such as *Phytophthora dieback*. These threats can spread through soil movement from vehicles, machinery, animals or water. Minimising this risk will be an integral part of bushfire management strategies within the City.

The City of Mandurah’s unique topography, landscapes and deep cultural connections shape both the opportunities and challenges for bushfire risk management. Protecting biodiversity and cultural heritage is inseparable from managing fire in this landscape. By recognising and safeguarding threatened ecological communities, significant species and environmentally sensitive areas, bushfire mitigation activities can reduce risk to people and property while ensuring that Mandurah’s natural and cultural heritage endures for future generations.

3.11. Bushfire Risk Controls

Table 5 – Current bushfire risk controls in the City of Mandurah

Control	Action or activity description	Lead agency	Notes and comments
	BRM Plan	CoM, DFES	Treatments planned as per Treatment Schedule Maintain and review BRM Plan
Risk Analysis	Bushfire Mitigation Working Group	CoM	Evaluates efficacy, implementation and treatment priorities
	Bushfire Risk Assessment	CoM	BRMC

	Fire Permits	CoM	Restrictions and prohibitions for burning apply
	Annual Firebreak Notice	CoM	Published annually
	Firebreak Inspection Program	CoM	Compliance with Annual Firebreak Notice
	Total Fire Bans	DFES	Restriction of activity
<i>Bush Fires Act 1954</i>	HVMB	CoM	Bans are declared by the City, based on advice from the City's Chief Bush Fire Control Officer
	Planned Burning	CoM	Upon application and approval by CoM
	City Parks & Reserve Management	CoM	Scheduled maintenance of parks and reserves vested in CoM
	BFAC Committee	CoM	
<i>Emergency Management Act 2005</i>	Local Emergency Management Arrangements	CoM, LEMC, SEMC	LEMA for emergency prepared and reviewed
Planning	Planning in Bushfire Prone Areas	CoM, DPLH/WAPC, Landowners	Applications required to comply with SPP3.7 and relevant building codes. Applications within BPA requiring BAL and/or BMP
Bushfire Response	Bush Fire Brigade Volunteer Fire & Rescue	CoM, DFES	Bushfires within LGA
	Parks & Wildlife Service – Fire Operations	DFES	Fire Management in Forest, Parks and Nature reserves and other lands it manages
Community Engagement & Resilience	DFES Community Engagement Initiatives / Programs Monthly themes	DFES, CoM	Community safety Information including bushfire preparedness and emergency management activities
	Street Meets, Bushfire & Emergency Preparedness Chats	CoM Bushfire Brigade	Localised safety Information including bushfire preparedness and emergency management activities Listening Posts and feedback sessions
	Community Safety Forums & Expo's	CoM, LEMC stakeholders	Community safety Information including bushfire preparedness and emergency management activities

Aged Care and Vulnerable Communities	CoM, DFES, Advocacy Groups	Contextual bushfire preparedness information and advice
Community Posts using social media platforms	CoM	Promote the EmergencyWA website and app. Bushfire Ready Plans Property preparedness

Burning Restrictions

The City’s gazetted Restricted Burning Period is from 1 April to 30 November, and the Prohibited Burning period is from 1 December to 31 March each year. These periods may be adjusted according to local seasonal conditions. Fire permits are required for all pile burns. Mosaic or planned burns are not permitted on private land without approval and support from a bushfire brigade.

The City coordinates planned burns on City managed land, working in partnership with the local volunteer bushfire brigade and volunteer fire and rescue services. This partnership is vital for reducing fuel loads, managing bushfire risk and building local operational capacity under controlled conditions.

Community Engagement and Resilience

The City of Mandurah actively promotes bushfire awareness, preparedness and resilience through a range of community engagement activities. Communication during both the preparedness and response phases is achieved through multiple platforms, including the City’s website, Facebook and X (formerly Twitter) accounts, which are used to share bushfire alerts, seasonal preparedness information and updates on local mitigation works.

During emergencies, the City directs residents to [emergency.wa.gov.au](https://www.emergency.wa.gov.au) and the Emergency WA app as the official source of truth for emergency warnings and incident information issued by the relevant Hazard Management Agency. These digital channels have become essential tools for ensuring the community receives timely and accurate information.

The City’s Emergency Management and Rangers and Parking teams regularly engage with residents and community groups to raise awareness of bushfire risk, promote household preparedness, and encourage participation in local initiatives such as bushfire ready programs. Targeted engagement is also undertaken in high-risk areas with a focus on vulnerable populations, semi-rural residents and absentee landowners.

The City collaborates with DFES, volunteer fire brigades and local community organisations to deliver education campaigns, preparedness workshops and information sessions prior to and during the bushfire season. These activities help residents understand their personal responsibilities; develop bushfire survival plans and maintain their properties to reduce fuel hazards. The City also uses planned burns and on-ground mitigation works as opportunities

for public education, communicating the importance of proactive fuel management and the ecological benefits of controlled burning.

Feedback from residents is encouraged through community consultation, post-incident reviews, and social media engagement helping the City to continually improve communication and preparedness strategies.

These combined efforts contribute to a more informed and resilient community that is better equipped to prevent, respond to and recover from bushfire impacts.

4. Asset Identification and Risk Assessment

Assets at risk from bushfire in the City of Mandurah are recorded in the Asset Risk Register in the BRMS. Assets are divided into four categories: human settlement, economic, environmental and cultural. Each asset has been assigned a bushfire risk rating between low and extreme based on the risk assessment methodology described in the [Guidelines](#) and Handbook.

4.1. Local Government Asset Risk Profile

A summary of the risks assessed in the City of Mandurah is shown in **Table 6**. This table shows the proportion of assets at risk from bushfire in each risk category at the time the BRM Plan was endorsed. This table was correct at the time of publication but may become outdated as risks are treated, or additional risk are identified and assessed. A report may be generated from the BRMS to provide the most current risk profile.

Table 6 – Local Government Asset Risk Summary

		Risk rating				
		Low	Medium	High	Very High	Extreme
Asset category	Human Settlement	40%	1%	1%	3%	40%
	Economic	13%	1%	0%	9%	13%
	Environmental	9%	2%	0%	10%	9%
	Cultural	4%	1%	0%	1%	4%

5. Risk Evaluation

5.1. Risk Acceptance Criteria

The acceptable level of risk for each asset category is shown in **Table 7**. A risk that is assessed as exceeding these limits will be considered for treatment.

Table 7 – Risk Acceptance Criteria for bushfire risk in the City of Mandurah

Acceptable risk level	Asset category			
	Human Settlement	Economic	Environmental	Cultural
Medium	Medium	Medium	Medium	Medium

Risks below the acceptable level do not require treatment during the life of this BRM Plan. They will be managed by routine bushfire risk controls and monitored to detect any increase in their risk rating.

Assets risk rated above 'Medium' have been considered suitable for treatment as determined by the City's Bushfire Risk Mitigation Working Group. Risks of 'Medium' and below will be managed by local government-wide controls and monitored for any significant change in risk.

The inclusion of treating High, Very High and Extreme risk rated assets is in line with the City's Strategic Risk Register and tolerance to risk at a strategic level. The City will prioritise treatments to reduce Extreme and Very High risk rated Human settlements with a priority to maximise the effectiveness of resources. In addition, assets owned and managed by the City will be prioritised aligning with existing legal obligations. It is anticipated that in most instances the extent of risk reduction will be determined by the landowner/manager in consultation with local government officers, state or national government agencies and existing guidelines.

The City is participating in the DFES Bushfire Risk Mitigation program with the City of Cockburn sharing a Bushfire Risk Mitigation Coordinator (BRMC) position. The BRMC will coordinate treatments for suitable risk rated assets. The allocation of City resources will be reviewed in due course to manage bushfire risks within the City of Mandurah.

6. Risk Treatment

The purpose of risk treatment is to reduce the potential impact of bushfire on the community, economy and environment. This is achieved by implementing treatments that modify the characteristics of the hazard, the community or the environment to make bushfires less likely or less harmful.

6.1. Treatment Strategy

The Treatment Strategy describes the overall approach to managing bushfire risk in the medium to long term in the City of Mandurah. The strategy is shaped by factors such as

- The local government's strategic objectives and objectives for bushfire risk management.
- Local communities' values and desired outcomes.
- Land use patterns and sensitive industries.
- Patterns of topography, vegetation and weather.
- Existing risk controls and land management programs.
- Environmental or other constraints on treatment options.

These various factors may dictate what sort of treatments are suited to different parts of the local government area or in different environmental settings. The Treatment Strategy helps guide the development of integrated annual treatment schedules.

The City's approach to bushfire risk management aligns with its broader strategic objectives of protecting life, property, infrastructure, and the natural environment. Treatments are prioritised to:

- Protect life as the highest priority.
- Reduce the risk of bushfires to vulnerable communities.
- Support sustainable land use.
- Maintain biodiversity and protect cultural and environmental assets.
- Strengthen local capability and resilience to bushfire emergencies.

Bushfire treatment planning and implementation within the City is influenced by a range of contextual factors as described in **Table 8**. Treatments are adapted to local conditions, with consideration of prevailing wind directions, historical fire behaviour and conservation zones.

While the bushfire risk assessment is established through a clear methodology, there are other inputs to consider in selecting treatments including environmental values and financial considerations as part of the delivery of the original treatment and future maintenance.

Table 8 – Contextual factors and treatment implementation

Contextual factors	Treatment considerations
Land Use and Settlement Patterns	<ul style="list-style-type: none"> The City encompasses densely populated urban areas, semi-rural localities, and natural reserves.
Topography and Vegetation:	<ul style="list-style-type: none"> Coastal plains, wetland systems, and forested escarpments contribute to varying fire behaviors.
Weather and Climate Trends:	<ul style="list-style-type: none"> Increasing temperatures, reduced rainfall, and longer dry periods continue to shape treatment priorities, with a growing focus on proactive and adaptive mitigation measures.

Treatment implementation	Strategy
Treatments will be implemented through a combination of:	<ul style="list-style-type: none"> Fuel Management: Including prescribed burning, mechanical treatments, and maintenance of firebreaks and access ways. Land Use Planning and Development Controls: Ensuring new developments in bushfire prone areas meet the requirements of <i>State Planning Policy 3.7 – Planning in Bushfire Prone Areas</i> and associated guidelines. Community Engagement and Education: Supporting community awareness programs that encourage shared responsibility and property preparedness. Emergency Response Preparedness: Maintaining well-resourced volunteer brigades, interagency collaboration, and response planning to reduce the impact of fire events.
Implementation will be guided by:	<ul style="list-style-type: none"> Risk assessment outcomes from the Bushfire Risk Management System (BRMS), focusing on High to Extreme rated risks. Bushfire Mitigation Working Group Effectiveness of treatment outcomes Value for money Available resources and seasonal opportunities and constraints Communication with land management agencies and key stakeholders

6.2. Treatment Schedule

The Treatment Schedule is a list of bushfire risk treatments recorded within BRMS. It is developed regarding the outcome of the risk assessment process and Treatment Strategy and in consultation with stakeholders.

A treatment schedule for the City of Mandurah covering the 2026-2027 Mitigation Activity Fund Grant Program will be entered into BRMS by 31 March 2026. This is a live document and will be regularly updated throughout the life of the BRM Plan.

Land managers are responsible for implementing agreed treatments on their own land. This includes costs associated with the treatment and obtaining the relevant approvals, permits or licences to undertake an activity. Where agreed, another agency may manage a treatment on behalf of a land manager.

7. Monitoring and Review

Monitoring and review processes are in place to ensure that the BRM Plan remains current and considers the best available information.

7.1. Monitoring and Review

The City of Mandurah will monitor the BRM Plan and BRMS data to identify any need for change. The Plan and BRMS data will be reviewed at least every two years to ensure they continue to reflect the local context, assets at risk, level of risk and treatment priorities.

7.2. Reporting

The City of Mandurah CEO or their delegate will provide to OBRM the outcomes of the two-year review of the BRM Plan. This is required to maintain OBRM endorsement of the Plan. The City of Mandurah will contribute information about their BRM program to the annual OBRM *Fuel Management Activity Report*.

8. Glossary

Asset	Something that is valued by the community and exposed to bushfire.
Asset Category	The type of asset – Human Settlement, Economic, Environmental or Cultural.
Bushfire	Unplanned vegetation fire. A generic term which includes grass fires, forest fires and scrub fires both with and without a suppression objective.
Bushfire hazard	The hazard posed by flammable vegetation, based on the vegetation type and age and topography.
Bushfire risk	The potential for a bushfire to cause harm to assets, defined by the bushfire’s consequences and likelihood.
Bushfire Risk Management	A systematic process to coordinate, direct and control activities relating to bushfire risk; with the aim of limiting the adverse effects of bushfire on the community.
Classified vegetation	Vegetation that has been classified as a bushfire hazard, i.e. any vegetation that does not meet the criteria for Low Hazard.
Consequence	The harm caused by a bushfire.
Landowner	The owner of the land, as listed on the Certificate of Title; or leaser under a registered lease agreement; or other entity that has a vested responsibility to manage the land.
Likelihood	The potential of a bushfire igniting, spreading and impacting on an asset.
Mitigation Activity Fund Grant Program	The Mitigation Activity Fund Grant Program objective is to reduce the hazard or exposure to identified assets that are at risk from the occurrence of bushfire on Local Government managed Crown Land.
Priority	See Treatment Priority.
Risk acceptance	The informed decision to accept a risk, based on the knowledge gained during the risk assessment process.
Risk analysis	The application of consequence and likelihood to an event in order to determine the level of risk.
Risk assessment	The systematic process of identifying, analysing and evaluating risk.
Risk evaluation	The process of comparing the outcomes of risk analysis to the risk criteria in order to determine whether a risk is acceptable.
Risk identification	The process of recognising, identifying and describing risks.

Risk register	A component within BRMS used to record, review and monitor risk assessments and treatments associated with assets identified in the BRM planning process.
Risk treatment	A process to select and implement appropriate measures to modify risk.
Rural	Any area where residences and other developments are scattered and intermingled with forest, range, or farmland and native vegetation or cultivated crops.
Rural Urban Interface	The line or area where structures and other human development adjoin or overlap with undeveloped bushland.
Slope	The angle of the ground's surface measured from the horizontal.
Tenure blind	An approach where multiple land parcels are considered as a whole, regardless of individual ownership or management arrangements.
Treatment	An activity undertaken in order to modify risk, such as a planned burn.
Treatment instructions	This field allows the user to capture specific instructions for implementing a treatment that can be provided to a third party.
Treatment manager	The treatment manager is the agency or organisation responsible for coordinating and/or implementing the treatment. Often the treatment manager will be the landowner, but in some cases another agency may agree to act as the treatment manager on the landowner's behalf.
Treatment priority	The order, importance or urgency for allocation of funding, resources and opportunity to treatments associated with a particular asset. The treatment priority is based on an asset's risk rating.
Treatment schedule	A report produced within BRMS that details the treatment priority of each asset identified in the BRM Plan and the treatments scheduled.
Treatment strategy	The overall approach that will be taken to manage bushfire risk, in consideration of the local government context and objectives.
Treatment type	The treatment type describes the specific treatment activity that will be implemented to modify the risk to an asset, such as planned burning, mechanical works and bushfire ready groups.
Vulnerability	The susceptibility of an asset to the impacts of bushfire.

9. Appendices

Appendix 1 - Summary of Related Legislation, Policy and Guidelines

Legislation	
<u>Aboriginal Heritage Act 1972</u>	Provides for the recognition, protection and preservation of Aboriginal sites. Some treatment activities may require permission to disturb, or sites may need to be excluded from treatment areas. Assets protected under this Act may need to be included in the BRM Plan.
<u>Biodiversity Conservation Act 2016</u>	Provides for the protection of biodiversity, particularly threatened species and threatened ecological communities. Some treatment activities may require environmental approval, or sites may need to be excluded from treatment areas, or specific mitigation treatment types may need to be utilised. Assets protected under this Act may need to be included in the BRM Plan.
<u>Building Act 2011</u>	Adopts the Building Code of Australia as the applicable building standard for new buildings. This includes bushfire construction requirements in areas designated as bushfire prone under a relevant power of legislation.
<u>Bush Fires Act 1954</u>	Provisions for declaration of Total Fire Bans, Harvest Movement Bans, and Prohibited and Restricted Burning Times, authority to burn, issue of firebreak notices and permits to burn. Covers burning and installation of firebreaks on other lands. Allows for establishment of Bushfire Advisory Committees.
<u>Conservation and Land Management Act 1954</u>	Covers the management of lands falling under the Act. Allows for the control of forest diseases such as <i>Phytophthora cinnamomi</i> (<i>Phytophthora Dieback</i>).
<u>Country Areas Water Supply Act 1947</u>	Covers the protection of water catchment areas. Identifies burning in catchment areas as a possible polluting activity. Assets protected under this Act may need to be included in the BRM Plan.
<u>Emergency Management Act 2005</u>	Provides for prompt and coordinated organisation of emergency management across the State, articulates the function of state agencies and local government in State and local arrangements. Provides for additional powers during declared events. Allows for establishment of state, district and local committees and the development of State emergency management policy.

Legislation	
<u>Environmental Protection Act 1986</u>	Regulates the clearing of native vegetation and other activities that may cause environmental harm. Allows for declaration of environmentally sensitive areas. Assets protected under this Act may need to be included in the BRM Plan.
<u>Environmental Protection and Biodiversity Conservation Act 1999 (Cth)</u>	Federal legislation that provides a framework to protect and manage nationally and internationally important flora, fauna, ecological communities and heritage places. Assets protected under this Act may need to be included in the BRM Plan.
<u>Fire Brigades Act 1942</u>	Covers the management of fire within the Gazetted Fire District.
<u>Fire and Emergency Services Act 1998</u>	Provides for functions relating to the provision and management of emergency services, including collection of the Emergency Services Levy.
<u>Metropolitan Water Supply, Sewerage and Drainage Act 1909</u>	Covers the protection of water catchment areas. Identifies burning in catchment areas as a possible polluting activity. Assets protected under this Act may need to be included in the BRM Plan.

Regulations	
<u>Bush Fires Regulations 1954</u>	Sets out conditions for burning and other activities during restricted and prohibited times.
<u>Emergency Management Regulations 2006</u>	Covers the prescription of hazards and nomination of Hazard Management Agencies and Combat Agencies.
<u>Planning and Development (Local Planning Scheme) Regulations 2015</u>	Prescribes the procedures for preparing and adopting local planning strategies, local planning schemes and amendments. Recent amendments introduced allow for the designation of bushfire prone areas in WA by the FES Commissioner and the application of new state planning policy to such declared areas.

State Policies, Plans and Procedures	
<u>State Emergency Management Policy</u>	Provides a strategic framework for emergency management. The policy identifies the role and responsibilities of emergency management agencies and other public authorities and organisations in preventing, preparing for, responding to, and recovering from emergencies. The policy sets out the State's core objectives for emergency risk management planning.

State Policies, Plans and Procedures	
State Emergency Management Procedures	Support the State Emergency Management Policy. Sets out the roles and responsibilities for emergency risk management, identifies those local governments that are required to have a hazard specific plan for bushfire and nominates the specialised guidelines and risk criteria to be used (BRM Planning Guidelines).
State Hazard Plan - Fire	Details the emergency management arrangements for fire emergencies throughout the State. Identifies organisational responsibilities for development and implementation of BRM Plans.
State Planning Policy 3.7: Planning in Bushfire Prone Areas	Guiding policy to ensure bushfire risk management is adequately considered and addressed in land use planning and development. The policy applies to development proposed in any area designated as bushfire prone.

Standards, Guidelines and Documents	
AS ISO 31000:2018 Risk management - Guidelines	The Australian standard for managing risk. The BRM planning process is aligned to the principles, framework and process outlined in AS ISO 31000:2018.
AS 3959-2018 Construction of Buildings in Bushfire Prone Areas	The Australian standard for construction of buildings in bushfire prone areas. The Hazard Assessment used in the BRMP risk assessment process is based on the Bushfire Attack Level (BAL) calculation presented in AS 3959:2018.
Guidelines for Preparing a Bushfire Risk Management Plan	Provides a strategic overview of the BRM planning process to support local governments to undertake best practice risk management.
Bushfire Risk Management Plan Template	Provides a fillable electronic document that includes guiding text and templated appendices.
Planning for Bushfire Guidelines	These guidelines and associated appendices support application of State Planning Policy 3.7: Planning in Bushfire Prone Areas.
National Emergency Risk Assessment Guidelines (NRAG) Handbook	Provides a consistent method for use by Australian governments to assess emergency risks for priority hazards.
Guidelines for the Safe Use of Pesticides in Non-agricultural Workplaces	A practical and informative guide on how to comply with legislation relating to the use of Bushfire Risk Management Planning Handbook 48 pesticides (including herbicides) in Western Australia.

Standards, Guidelines and Documents	
Guide for Applying the Bush Fire Risk Treatment Standards	A guide to the Bushfire Risk Treatment Standards including technical specifications on how to maintain Asset Protection Zone
A Guide to the management of Pesticides in Local government Pest Control programs in Western Australia.	A guide to assist local government in developing a pesticide use policy
A Guide to the Exemptions and Regulations for Clearing Native Vegetation	This guide explains what exemptions exist, the circumstances in which they apply and what is defined as intentionally planted vegetation.
A Guide to the Assessment of applications to Clear Native Vegetation	This guide sets out the Department of Water and Environment Regulation's (DWER) approach for assessing an application to clear native vegetation under the <i>Environmental Protection Act 1986</i> . The document also includes links to a number of useful environmental and aboriginal heritage resources.
A Guide to Burning Under the Native Vegetation Clearing Provisions	This guide briefly summarises fire ecology and management issues in Western Australia relevant to the native vegetation clearing provisions of the <i>Environmental Protection Act 1986</i> .
A Guide to Constructing and Maintaining Firebreaks	Guidance and best practice for establishing firebreaks that meet the minimum requirements prescribed in the <i>Bush Fires Act 1954</i> .
A Guide to Grazing of Native Vegetation	This guideline sets out the requirements of the <i>Environmental Protection Act 1986</i> in relation to the grazing of native vegetation, including when grazing of native vegetation is clearing for the purposes of the Act. This guideline applies to all grazing of native vegetation on lands in Western Australia.
Guidelines for Plantation Fire Protection	Provides local government and the plantation industry with a best practice standard for plantations that aims to protect human life and local community interests, while minimising fire risk to plantation assets.
A Guide on Preventing and Suppressing Bushfires on Organic and Acid Sulfate Soils	A guide explaining what organic and acid sulphate soils are, how they can be recognised, and providing advice on fire management to address the safety of firefighters and reduce impacts on the environment.
Managing Phytophthora Dieback in Bushland	The guide explains the disease and provides guidance for protecting bushland against the spread of the pathogen.
National Strategy for Disaster Resilience	Provides high level guidance on disaster management and presents the concept of 'shared responsibility'.
Public Service Circular No.88 use of Herbicides in Water Catchment Areas	A best practice policy statement that applies to all government departments and their contractors.

Standards, Guidelines and Documents	
Code of Practice for Timber Plantations in Western Australia	Provides guidance to plantation managers so that plantation operations in Western Australia are conducted in a manner that is in accordance with accepted principles for good plantation management.
Western Australian Emergency Risk Management Guide	Provides guidance to support the development of Emergency Risk Management plans and the implementation of the risk management process.

The documents outlined in this table are intended as a guide only. This may not be a complete list of all relevant publications and is subject to change over time.

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)

POL-EMS 01

Objective

To provide advice on all aspects of preparedness, prevention and the management of bush fires on properties within the City of Mandurah.

Definitions

Where words that are used in this Notice are defined in the Bush Fires Act 1954, those words have the same meaning. Where words are not defined in the Bush Fires Act 1954 and used in this Notice, unless the context requires otherwise, their meanings are:

Asset Protection Zone

Means a low fuel area immediately surrounding a building.

Authorised Officer

Means an employee of the City of Mandurah appointed as a Bush Fire Control Officer.

Driveway

Means a point of access to a Habitable Building accessible for both conventional two-wheel drive vehicles and firefighting appliances that is totally clear of obstructions.

Bushfire Management Plan

Means a plan that has been developed in accordance with State Planning Policy 3.7 and approved by the City of Mandurah to reduce and mitigate fire hazards within a particular subdivision, lot or other area of land anywhere in the district.

Flammable Material

Means accumulated fuel such as dry grass, leaf litter, twigs, branches, trash, bush, dead trees, firewood, stored fuels and scrub that can be easily ignited or is likely to catch fire and burn. It includes any other thing deemed by an Authorised Officer to be likely to catch fire but excludes living standing trees, growing bushes and plants in gardens and/or lawn areas under cultivation.

Habitable Building

Means a permanent or temporary structure on land that –

- a. is fully or partially enclosed; and
- b. has at least one wall of solid material and a roof of solid material; and
- c. is used for a purpose that involves the use of the interior of the structure by people for living, working, studying, or being entertained.

Haystack

Means any collection of hay including fodder rolls placed or stacked that exceeds 100m³ in size (e.g. five (-5) metres x five (5) -metres x four (4-) metres), whether in a shed, other structure or in the open air.

Trafficable Mineral Earth Firebreak

Means a 4 metre wide area of the owner(s)/occupier(s) land, cleared and maintained totally clear of all vegetation material (living or dead) providing an unimpeded route – (can be ploughed, cultivated, sprayed or otherwise cleared) accessible and traversable by 4WD fire vehicles.

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)

POL-EMS 01

Statement

The City of Mandurah (the 'City') is committed to formulating and imposing appropriate fire prevention measures necessary to provide a safe environment for the community on properties including rural, urban, occupied and unoccupied land. In achieving this, the City has implemented the following measures:

1. FIRE HAZARD REDUCTION AND FIRE BREAK INSTALLATION

- 1.1 Council may, in accordance with section 33 of the *Bush Fires Act 1954* (the Act) issue and publicise annually to all landowners requisitions necessary for the reduction of fire hazards within the City.
- 1.2 Delegated Authority has been granted to the Chief Executive Officer by Council to approve the first and final Fire Break and Fuel Hazard Reduction Notice (The Notice) annually, unless substantial changes are recommended by Council's Bush Fire Advisory Committee. Recommendations for substantial alterations to The Notice shall be submitted to Council for consideration of adoption.
- 1.3 The following requisitions have been adopted by Council as a minimum requirement for landowners for the reduction of fire hazards on their property. The below mentioned fire hazard reduction must be complied with by or on the 17 November annually and maintained until 31 May inclusive:

Occupied or Unoccupied Land Less than 4000m²

Where the area of the land is less than 4000m² -remove all flammable material on the land except living standing trees, growing bushes and plants in gardens and lawns under cultivation from the whole of the land by either mowing or slashing down to 40mm or other method approved in writing by an Authorised Officer for this purpose. (Note: Properties with dense vegetation will also need fuel reduction to reduce any significant fire risk to the satisfaction of the City's authorised Bush Fire Control Officer).

-
If mowing or slashing is carried out, then the height of the vegetation must not exceed, as far as is reasonably practicable, 40mm over the entire area of land.-

-
A four (4) metre firebreak alone is not adequate on land less than 4000m².

~~Where the area of land is less than 4000m² remove all flammable material on the land except living standing trees, from the whole of the land to a height of no longer than 4 centimetres by either mowing, slashing, ploughing, cultivating, scarifying, chemical spraying (followed by slashing down to 4 centimetres) or other approved method by an officer of Council authorised for this purpose. **A four (4) metre fire break is not acceptable.** (Note: Properties with dense vegetation will also need fuel reduction to be thinned out to reduce any significant fire risk to the satisfaction of the City's authorised bush fire control officer).~~

Occupied or Unoccupied Land 4000m² and Over

Where the area of land is 4000m² and over, provide a trafficable mineral earth firebreak at least 4 metres wide, with a vertical height clearance of 4.2 metres:

-
- Immediately inside all external boundaries of the land;-
- Immediately surrounding all outbuildings erected on the land;-
- Immediately surrounding haystacks or fuel storage; and -

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)

POL-EMS 01

- ~~On the land's driveway access.~~
- ~~Maintain a minimum 2m separation between trees, shrubs and any habitable building.~~
- ~~Ensure no part of any tree overhangs any habitable building.~~

~~When the area of land is 4000m² and over, provide a trafficable mineral earth firebreak at least four (4) metres wide, with a vertical height clearance of 4.2 metres;~~

~~Immediately inside all external boundaries on the land;~~

~~Immediately surrounding all outbuildings erected on land;~~

~~Immediately surrounding haystacks, fuel storage or other flammable substances or material.~~

~~A vertical height clearance of 4.2m must be maintained on driveway access.~~

1.4 **BUSHFIRE FIRE MANAGEMENT PLANS**

~~Where land is subject to an approved Bushfire Management Plan, the management plan must be fully complied with for the land.~~

~~Where land is subject to an approved Fire Management Plan the management plan must be fully complied with for the site.~~

1.5 **ASSET PROTECTION ZONES**

~~Asset Protection Zones (APZ's) should be considered noting the gazetted provisions of the Fire and Emergency Services Commissioners *Bushfire Risk Treatment Standards 2020*.~~

~~In all areas noted as being within 100m of Bush Fire Prone Vegetation as designated by the Fire and Emergency Services Commissioner, the installation and maintenance of Asset Protection Zones (APZ's) are recommended.~~

~~Properties zoned rural residential, or rural small holding under the City of Mandurah Local Planning Scheme 12, or on all land 4000m² and greater are required to APZ's Asset Protections Zones in these areas are recommended to include:~~

- ~~A 20 metre asset protection zone (reduced fuel load) from the walls of any building or infrastructure unless otherwise approved in a Fire Management Plan.~~
- ~~Reticulated gardens shall be maintained to a height no greater than .5 metre (50 cm).~~

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)

POL-EMS 01

- ~~Loose flammable material within the APZ should be removed to reduce the fuel load to less than 2 tonnes per hectare and this is to be maintained to this level.~~
- ~~Wood piles to be stored at least 10 metres from the building.~~
- ~~Maintenance of a minimum 2 metre gap between trees and shrubs any building or infrastructure.~~
- ~~Ensuring that no trees overhang any building or infrastructure.~~
- ~~Prune lower branches of trees within the APZ (up to 2 metres off the ground) to stop a surface fire spreading to the canopy of the trees.~~
- ~~Trees or shrubs in the APZ are to be cleared of any dead material.~~

~~On all land 4000m² and greater APZ's sset Protection Zones in these areas are required to:~~

- Maintain a minimum 2 metre gap between trees and shrubs and dwelling; and
- Ensure that no trees overhang any dwelling.

The City's Authorised Bush Fire Control Officers may issue a request for works to be completed for the failure to undertake ~~required APZ Asset Protection Zone~~ works and where works are not completed an infringement notice may be issued ~~or prosecution initiated~~.

~~Where land owners do not complete required APZ works, C~~contractors will not be ~~engaged requested by the City~~ to undertake works on the owner's behalf ~~in relation to APZ Asset Protection Zone non-compliance~~. Any change in enforcement approach in this regard is to be endorsed by Council.

An authorised Bush Fire Control Officer may issue a variation from ~~APZ sset Protection Zone~~ requirements where it is considered that adequate risk mitigation measures have been implemented, such as the reduction of fuel loads and appropriate management of understorey vegetation.

~~Unless exempt from the requirement for Development Approval Applications can applications must~~ be made to the City to remove trees or vegetation in order to create an ~~APZ Asset Protection Zone within a tree preservation area as designated in the City's required by Town Planning Scheme No 3 Local Planning Scheme 12.~~

These requirements are the minimum standard. Additional requests may be made in accordance with the relevant section of the *Bush Fires Act 1954* by the City's authorised Bush Fire Control Officer.

- 1.6 Annual property fire break and fuel hazard reduction inspections of all urban, rural occupied and unoccupied land by authorised Bush Fire Control Officers will officially commence on the 18th November each year.

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)

POL-EMS 01

- 1.7 Variation to the City's requirements: If a landowner considers for any legitimate reason it impractical to clear firebreaks as required by The Notice, or if natural features are considered to render firebreaks unnecessary, application may be made in writing to the City or its authorised Bush Fire Control Officers, not later than 1 November of each year for alternative locations, or other method of fire prevention on the land.

The City's authorised Bush Fire Control Officers may apply an approval to the variation for a period of up to 3 years where appropriate. Properties must be maintained each year in accordance with the approved variation.

If permission is not granted, the requirements of The Notice must be complied with. Any major fire hazard reduction request which cannot be resolved between the applicant and an authorised Bush Fire Control Officer may be referred to the Chief Bush Fire Control Officer for determination.

- 1.8 The City or its authorised Bush Fire Control Officers may, in accordance with section 33 of the Act, arrange for a contractor, workers, machinery or other equipment or workforce necessary to clear land found in contravention of subsection 1.3. ~~The City's contractors may be requested to undertake remedial compliance works to properties found to be in contravention of subsection 1.3.~~
- 1.9 Landowners may be served with notice of the contravention and an infringement notice may be issued in accordance with the Act.
- 1.10 Landowners shall be liable for the costs associated with the hazard reduction clearing on their land as stipulated in subsection 1.37 of this policy and those costs shall remain as a debt against the property until paid in full.

2 **BURNING DURING THE PROHIBITED AND RESTRICTED PERIODS** **BURNING TIMES**

~~2.1 The Prohibited and Restricted Burning periods are determined by the Minister for Emergency Services and the Fire and Emergency Services Commissioner in accordance with the Bush Fires Act 1954.~~

~~2.2 Fuel hazard reduction burns or running burns must only be undertaken based on a full assessment of the hazard by an Authorised Officer in consultation with the City's Chief Bush Fire Control Officer and internal Bushfire Mitigation Working Group. The delivery of the burn must be undertaken with the support of local Bushfire Brigades.~~

~~Full demonstration of appropriate risk mitigation planning is required and a Permit to Set Fire to Bush must be issued by an Authorised Officer prior to commencement of any fuel hazard reduction or running burn.~~

~~2.12.3 Restricted Burning Period:~~

~~The restricted burning period, pursuant to section 18 of the Act shall be~~ between 1 April and 30 November inclusive each year.

~~2.22.4 Prohibited Burning Period:~~

~~The prohibited burning period, pursuant to section 18 of the Act shall is be~~ between 1 December and 31 March inclusive each year.

~~2.3 Limited Burning Times:~~

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)
POL-EMS 01

~~Has the same meaning as 'Restricted Burning Period' where a Permit to Burn is required.~~

3 **OPEN AIR FIRESCAMPING OR COOKING**

~~The City of Mandurah prohibits the lighting of a fire in the open air for the purpose of camping or cooking at all times within the City's district unless it is done in compliance with the requirements published by the City on its website from time to time and as specifically approved in writing by the Chief Bush Fire Control Officer. Council has resolved to prohibit open air fires lit for the purpose of camping or cooking within the district unless specifically approved by the Chief Bush Fire Control Officer in writing.~~

4 **BURNING OF GARDEN REFUSE**

Section 24G of the Act also provides that a local government may, by notice published in the Gazette and a newspaper circulating in its district, prohibit or impose restrictions on the burning of garden refuse within its district that is otherwise permitted under Section 24F. Council has resolved to prohibit the burning of garden refuse or rubbish within the district of Mandurah.

~~The burning of garden refuse within the City's district is prohibited otherwise than in accordance with a Permit to Burn Garden Refuse issued by the City and compliance with the restrictions therein. Any other exemption is based on an assessment of the hazard by an Authorised Officer and must be in writing.-~~

~~A Permit to Burn Garden Refuse may only be issued between 1 May and 31 October and only for the following properties:~~

- ~~• properties zoned rural residential, or rural small holding under the City of Mandurah Local Planning Scheme 12; or~~
- ~~• on all land 4000m² -and greater.~~

~~This prohibition applies to all land zoned urban residential under the City of Mandurah Town Planning Scheme No 3Local Planning Scheme 12, between 1 May and 31 October inclusive. The effect is that the burning of garden refuse either in an incinerator or on the ground in urban-zoned areas is prohibited at all times of the year.~~

~~The following exemptions apply:~~

~~Land zoned rural residential under the City of Mandurah Local Planning Scheme 12Town Planning Scheme No. 3, and on all land 4000m² and greater. Any other exemption is based on an assessment of the hazard by a City authorised Bush Fire Control Officer.~~

~~Permits to These exemptions are restricted to 1 May and 31 October and a "Permit to Burn" will be required during these dates. No burning is permitted during the 'Prohibited Burning period' as mentioned above.~~

~~TheseBurning Garden Refuse are subject to -conditions include ~~theing the~~ following:~~

- ~~• Properties of area less than 2 hectares are permitted to burn no more than 2m³ of refuse at one time.~~
- ~~• Properties of area 2 hectares or greater are permitted to burn no more than 3m³ of refuse at one time.~~

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)
POL-EMS 01

NOTE: Only those properties zoned rural residential, rural small holding or are 4000m² or greater are able to obtain permits to burn garden waste.

Bush Fire Prevention and Control Policy

(*Bush Fires Act 1954*)

POL-EMS 01

Objective

To provide advice on all aspects of preparedness, prevention and the management of bush fires on properties within the City of Mandurah.

Definitions

Where words are defined in the *Bush Fires Act 1954*, those words have the same meaning. Where words are not defined in the *Bush Fires Act 1954* and used their meanings are:

Asset Protection Zone

Means a low fuel area immediately surrounding a building.

Authorised Officer

Means an employee of the City of Mandurah appointed as a Bush Fire Control Officer.

Driveway

Means a point of access to a Habitable Building accessible for both conventional two-wheel drive vehicles and firefighting appliances that is totally clear of obstructions.

Bushfire Management Plan

Means a plan that has been developed in accordance with State Planning Policy 3.7 and approved by the City of Mandurah to reduce and mitigate fire hazards within a particular subdivision, lot or other area of land anywhere in the district.

Flammable Material

Means accumulated fuel such as dry grass, leaf litter, twigs, branches, trash, bush, dead trees, firewood, stored fuels and scrub that can be easily ignited or is likely to catch fire and burn. It includes any other thing deemed by an Authorised Officer to be likely to catch fire but excludes living standing trees, growing bushes and plants in gardens and/or lawn areas under cultivation.

Habitable Building

Means a permanent or temporary structure on land that –

- a. is fully or partially enclosed; and
- b. has at least one wall of solid material and a roof of solid material; and
- c. is used for a purpose that involves the use of the interior of the structure by people for living, working, studying, or being entertained.

Haystack

Means any collection of hay including fodder rolls placed or stacked that exceeds 100m³ in size (e.g. five (5) metres x five (5) metres x four (4) metres), whether in a shed, other structure or in the open air.

Trafficable Mineral Earth Firebreak

Means a 4 metre wide area of the owner(s)/occupier(s) land, cleared and maintained totally clear of all vegetation material (living or dead) providing an unimpeded route – (can be ploughed, cultivated, sprayed or otherwise cleared) accessible and traversable by 4WD fire vehicles.

Bush Fire Prevention and Control Policy

(*Bush Fires Act 1954*)

POL-EMS 01

Statement

The City of Mandurah (the 'City') is committed to formulating and imposing appropriate fire prevention measures necessary to provide a safe environment for the community on properties including rural, urban, occupied and unoccupied land. In achieving this, the City has implemented the following measures:

1. FIRE HAZARD REDUCTION AND FIRE BREAK INSTALLATION

- 1.1 Council may, in accordance with section 33 of the *Bush Fires Act 1954* (the Act) issue and publicise annually to all landowners requisitions necessary for the reduction of fire hazards within the City.
- 1.2 Delegated Authority has been granted to the Chief Executive Officer by Council to approve the first and final Fire Break and Fuel Hazard Reduction Notice (The Notice) annually, unless substantial changes are recommended by Council's Bush Fire Advisory Committee. Recommendations for substantial alterations to The Notice shall be submitted to Council for consideration of adoption.
- 1.3 The following requisitions have been adopted by Council as a minimum requirement for landowners for the reduction of fire hazards on their property. The below mentioned fire hazard reduction must be complied with by or on the 17 November annually and maintained until 31 May inclusive:

Occupied or Unoccupied Land Less than 4000m²

Where the area of the land is less than 4000m² remove all flammable material on the land except living standing trees, growing bushes and plants in gardens and lawns under cultivation from the whole of the land by either mowing or slashing down to 40mm or other method approved in writing by an Authorised Officer for this purpose. (Note: Properties with dense vegetation will also need fuel reduction to reduce any significant fire risk to the satisfaction of the City's authorised Bush Fire Control Officer).

If mowing or slashing is carried out, then the height of the vegetation must not exceed, as far as is reasonably practicable, 40mm over the entire area of land.

A four (4) metre firebreak alone is not adequate on land less than 4000m².

Occupied or Unoccupied Land 4000m² and Over

Where the area of land is 4000m² and over, provide a trafficable mineral earth firebreak at least 4 metres wide, with a vertical height clearance of 4.2 metres:

- Immediately inside all external boundaries of the land;
- Immediately surrounding all outbuildings erected on the land;
- Immediately surrounding haystacks or fuel storage; and
- On the land's driveway access.

Maintain a minimum 2m separation between trees, shrubs and any habitable building.

Ensure no part of any tree overhangs any habitable building.

Bush Fire Prevention and Control Policy

(*Bush Fires Act 1954*)
POL-EMS 01

1.4 BUSHFIRE MANAGEMENT PLANS

Where land is subject to an approved Bushfire Management Plan, the management plan must be fully complied with for the land.

1.5 ASSET PROTECTION ZONES

Asset Protection Zones (APZ's) should be considered noting the gazetted provisions of the Fire and Emergency Services Commissioners *Bushfire Risk Treatment Standards 2020*.

In all areas noted as being within 100m of Bush Fire Prone Vegetation as designated by the Fire and Emergency Services Commissioner, the installation and maintenance of APZ's are recommended.

Properties zoned rural residential, or rural small holding under the City of Mandurah Local Planning Scheme 12, or on all land 4000m² and greater are required to:

- Maintain a minimum 2 metre gap between trees and shrubs and dwelling; and
- Ensure that no trees overhang any dwelling.

The City's Authorised Bush Fire Control Officers may issue a request for works to be completed for the failure to undertake required APZ works and where works are not completed an infringement notice may be issued or prosecution initiated.

Where land owners do not complete required APZ works, contractors will not be engaged by the City to undertake works on the owner's behalf. Any change in enforcement approach in this regard is to be endorsed by Council.

An authorised Bush Fire Control Officer may issue a variation from APZ requirements where it is considered that adequate risk mitigation measures have been implemented, such as the reduction of fuel loads and appropriate management of understorey vegetation.

Unless exempt from the requirement for Development Approval applications must be made to the City to remove trees or vegetation in order to create an APZ as required by Local Planning Scheme 12.

These requirements are the minimum standard. Additional requests may be made in accordance with the relevant section of the *Bush Fires Act 1954* by the City's authorised Bush Fire Control Officer.

1.6 Annual property fire break and fuel hazard reduction inspections of all urban, rural occupied and unoccupied land by authorised Bush Fire Control Officers will officially commence on the 18th November each year.

1.7 Variation to the City's requirements: If a landowner considers for any legitimate reason it impractical to clear firebreaks as required by The Notice, or if natural features are considered to render firebreaks unnecessary, application may be made in writing to the City or its authorised Bush Fire Control Officers, not later than 1 November of each year for alternative locations, or other method of fire prevention on the land.

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)

POL-EMS 01

The City's authorised Bush Fire Control Officers may apply an approval to the variation for a period of up to 3 years where appropriate. Properties must be maintained each year in accordance with the approved variation.

If permission is not granted, the requirements of The Notice must be complied with. Any major fire hazard reduction request which cannot be resolved between the applicant and an authorised Bush Fire Control Officer may be referred to the Chief Bush Fire Control Officer for determination.

- 1.8 The City or its authorised Bush Fire Control Officers may, in accordance with section 33 of the Act, arrange for a contractor, workers, machinery or other equipment or workforce necessary to clear land found in contravention of subsection 1.3.
- 1.9 Landowners may be served with notice of the contravention and an infringement notice may be issued in accordance with the Act.
- 1.10 Landowners shall be liable for the costs associated with the hazard reduction clearing on their land as stipulated in subsection 1.3 of this policy and those costs shall remain as a debt against the property until paid in full.

2 BURNING DURING THE PROHIBITED AND RESTRICTED BURNING TIMES

- 2.1 The Prohibited and Restricted Burning periods are determined by the Minister for Emergency Services and the Fire and Emergency Services Commissioner in accordance with the *Bush Fires Act 1954*.
- 2.2 Fuel hazard reduction burns or running burns must only be undertaken based on a full assessment of the hazard by an Authorised Officer in consultation with the City's Chief Bush Fire Control Officer and internal Bushfire Mitigation Working Group. The delivery of the burn must be undertaken with the support of local Bushfire Brigades.

Full demonstration of appropriate risk mitigation planning is required and a Permit to Set Fire to Bush must be issued by an Authorised Officer prior to commencement of any fuel hazard reduction or running burn.
- 2.3 Restricted Burning Period:
The restricted burning period, pursuant to section 18 of the Act is between 1 April and 30 November inclusive each year.
- 2.4 Prohibited Burning Period:
The prohibited burning period, pursuant to section 18 of the Act is between 1 December and 31 March inclusive each year.

3 CAMPING OR COOKING

The City of Mandurah prohibits the lighting of a fire in the open air for the purpose of camping or cooking at all times within the City's district unless it is done in compliance with the requirements published by the City on its website from time to time and as specifically approved in writing by the Chief Bush Fire Control Officer.

4 BURNING OF GARDEN REFUSE

Section 24G of the Act also provides that a local government may, by notice published in the Gazette and a newspaper circulating in its district, prohibit or impose restrictions on the burning of garden refuse within its district that is otherwise permitted under Section 24F.

Bush Fire Prevention and Control Policy

(Bush Fires Act 1954)
POL-EMS 01

Council has resolved to prohibit the burning of garden refuse or rubbish within the district of Mandurah.

The burning of garden refuse within the City's district is prohibited otherwise than in accordance with a Permit to Burn Garden Refuse issued by the City and compliance with the restrictions therein. Any other exemption is based on an assessment of the hazard by an Authorised Officer and must be in writing.

A Permit to Burn Garden Refuse may only be issued between 1 May and 31 October and only for the following properties:

- properties zoned rural residential, or rural small holding under the City of Mandurah Local Planning Scheme 12; or
- on all land 4000m² and greater.

Permits to Burning Garden Refuse are subject to conditions including the following:

- Properties of area less than 2 hectares are permitted to burn no more than 2m³ of refuse at one time.
- Properties of area 2 hectares or greater are permitted to burn no more than 3m³ of refuse at one time.

Subject: 19.6 Annual Review Register of Delegated Authority & Review of 'Authority to Execute Documents' Council Policy

Summary

In accordance with section 5.46 of the *Local Government Act 1995* (the Act), the City of Mandurah (the City) is required to undertake a review of its delegations at least once every financial year.

In conducting the 2025/2026 Delegated Authority review the City primarily sought to determine that each delegation remains current and effective. As a result, City officers now propose minor amendments to two delegations and adoption of the remaining 46 delegations with no amendments. Additionally, two statutory authorisations have been identified for authorisation by Council.

City officers have reviewed the Authority to Execute Documents Policy (POL-CPM 06) (Policy) to ensure its compliance with the Act, the Operational Guidelines set by the Department of Local Government, Industry Regulation and Safety (the Department) and alignment with contemporary best practices standards within the local government sector. The review identified several opportunities for improvement that will enhance clarity of interpretation and support more effective implementation.

Council is requested to adopt the review of the Register of Delegated Authority (refer Attachment 1) and the Authority to Execute Documents Policy (POL-CPM 06) (refer Attachment 2 for clean version).

Background

With local governments having responsibility for decision making under various pieces of legislation, it is recognised as unreasonable and unrealistic for every legislative power or duty to be exercised by Council.

The Act gives local governments the ability to delegate to the CEO any of its powers and duties under the Act, other than those prescribed under section 5.43 of the Act. A Council decision to delegate authority to the CEO or employees can occur once resolved by Council. Once delegations are given, the City must maintain a register of the powers or duties delegated with a review to be conducted at least once each financial year.

Delegations are made in relation to express powers and express duties given to the local government under legislation. A delegation does not restrict the delegator from exercising the power or duty once delegated and it also does not remove responsibility for the power. For a delegation to be considered valid, it must be in writing and in the form prescribed by legislation.

The Policy was created and adopted by Council in 2018, reviewed in 2019 with minor amendments, and amended more substantially in 2020. The Policy is now due for a comprehensive review. Accordingly, the City has assessed the Policy against current legislation and benchmarked it against policies of other comparative local governments to confirm alignment with legal requirements and sector standards. Feedback from City officers was also considered, with City officers reporting challenges in interpreting and applying the Appendix of the Policy, particularly when determining the correct category for document classification. This analysis has provided valuable insights into better practice and identified opportunities to improve the clarity and implementation of both the Policy and its Appendix.

Comment

Delegated Authority Annual Review

The City currently has 48 delegations in place under a number of acts and regulations which delegate various powers and duties to the CEO (or employees). Following a review of the current delegated authority register, a number of amendments are recommended for consideration.

The 2025/2026 Delegated Authority Review process undertaken by the administration included:

- Review of the West Australian Local Governments Association (WALGA) Toolkit titled '*Decision Making in Practice*';
- Review of the Department of Local Government Operational Guideline titled '*Delegations, Authorisations and Acting Through*';
- Review of the enabling legislation and subsidiary legislation forming the legal basis of each delegation;
- Internal consultation with City officers who exercise the delegated or subdelegated (as the case may be) authority; and
- Consultation with Elected Members.

For each delegation, Council may consider conditions imposed on the CEO when carrying out the functions of the delegation. In turn, the CEO may include conditions on the sub-delegate. The sub-delegate conditions are not included in this report, however, are subject to the same review process for approval by the CEO.

As a result of the review, minor amendments are proposed to two delegations (refer Attachment 1) and adoption of the remaining 46 delegations with no amendments.

Below is a summary of the recommendations made as a result of the 2025/2026 Review.

Proposed minor amendments to delegations (Attachment 1)

Minor amendments are being proposed only for the purpose of clarity and for consistent alignment with legislation, and do not include any extension or widening of the delegate's powers or functions. Details of these amendments are provided in the table below.

Delegation	Proposed amendment	Reason
DA-LWE 11 Authorised Persons to Perform Specified Functions Under the Local Government Act 1995	In Express power or duty delegated, insert: "s. 3.40A Abandoned vehicle wreck may be taken"	Section 3.40A(1) of the <i>Local Government Act 1995</i> states: "An employee authorised by a local

Delegation	Proposed amendment	Reason
	<p>In Function, insert:</p> <p>“Authorise an employee to remove and impound a vehicle that is an abandoned vehicle wreck: s.3.40A.”</p>	<p><i>government for the purpose may remove and impound a vehicle that, in the opinion of the local government, is an abandoned vehicle wreck.”</i></p> <p>This change will allow the CEO to authorise an employee for this function.</p>
<p>DA-PAD 02 Development Application (excluding Single Houses)</p>	<p>In Condition 1, delete:</p> <p>“due to the proposed development seeking to vary the development standards required under Local Planning Scheme No. 12, a structure plan, a precinct structure plan, local development plan or local planning policy,”</p>	<p>The wording proposed to be deleted from the condition explains the applications that the function relates to.</p> <p>The wording is not relevant and removes the examples.</p>

Delegations – no changes proposed

No amendments have been recommended for the remaining 46 delegations. It is recommended that Council adopt the 46 delegations with no proposed changes.

Statutory Authorisations

During this review, two additional functions have been identified as statutory authorisations for appointment by Council:

- The power to sign and withdraw infringement notices in accordance with section 30(4a) of the *Litter Act 1979*; and
- The power to sign and withdraw infringement notices in accordance with section 37(5) of the *Control of Vehicles (Off-road Areas) Act 1978*.

Section 30(4a) of the *Litter Act 1979* provides that a withdrawal notice sent under section 30(4) shall be signed by a person appointed in writing to withdraw infringement notices by the public authority on behalf of which the infringement notice was served. In this context, public authority means a local government within its district and therefore this appointment must come from Council.

It is recommended that the following positions be appointed to exercise this function:

- Chief Executive Officer
- Director Strategy and Economic Development
- Executive Manager Development and Compliance
- Coordinator Building and Compliance
- Coordinator Health Services
- Coordinator Ranger and Parking Services

Section 37(5) of the *Control of Vehicles (Off-road Areas) Act 1978* provides that an infringement notice may be withdrawn by the sending of a notice signed by a person authorised by the local government.

It is recommended that the following positions be authorised to exercise this function:

- Chief Executive Officer
- Director Strategy and Economic Development
- Executive Manager Development and Compliance
- Coordinator Ranger and Parking Services

Authority to Execute Documents Policy Review

The City has reviewed the Policy to ensure its compliance with the Act and its alignment with best practice and local government sector standards. The review identified four key areas for improvement:

1) Updated Appendix format

A new Appendix has been introduced to replace the former version, with the aim of making it easier for staff to interpret and apply the Policy. The revised Appendix includes clearer categorisation and a more structured decision-making framework for determining the appropriate signatory. The Appendix is intended to support greater consistency, improving compliance and reducing the risk of document misclassification.

2) Streamlining the Policy text into the Appendix

The Policy has been amended to streamline the main text by relocating portions of the content into the Appendix. This change reflects the common practice among staff of referring directly to the Appendix for guidance, often bypassing the main body of the Policy. By consolidating essential information into a single, accessible location, the amended Policy is now intended to reduce confusion with Appendix categorisation and ensure that pertinent conditions are more readily understood and consistently applied.

3) Clarification between Financial Authorisation Limit Listing and Signatory Financial Limits

A common area of confusion among City officers has been the distinction between an employee's financial authorisation limit and their authority to sign documents based on monetary value. The revised Policy now provides clear guidance that the Financial Authorisation Limit Listing applies to an individual's authority to approve expenditure or procurement commitments. In contrast, the financial threshold listed in the Appendix relates to the value of the financial commitments made by the City to an external party in the form of grants or donations for example (and not for the procurement of goods or services). By drawing a clearer distinction between these two functions, the Policy aims to ensure greater consistency, reduce risk, and improve compliance with internal financial controls.

4) Hierarchy and precedence of instruments

The review identified overlapping document listings in the Appendix, some of which were already covered by existing authorisations or delegations. To improve clarity, the Appendix was revised to clarify where a document falls into multiple categories, the higher-level category applies. This change promotes consistency, reduces ambiguity, and strengthens compliance with governance requirements.

A detailed summary of the proposed amendments to the Policy are outlined in the table below (also refer to Attachment 3 for the tracked version of the Policy):

Section of Policy	Proposed amendment	Reasoning
Objective	2. Protocols on the appropriate method of execution for the City’s documents.	The second objective ‘2.’ has been added to clarify that this Policy has the intention of guiding staff in determining the appropriate method of execution, and when to use the common seal versus signing.
Clause 1.2	<p>1.2 Signing Documents as an ‘Acting Through’ Officer</p> <p>Subject to compliance with clause 2 of this Policy, employees who carry out duties and functions on behalf of the City on an ‘acting through’ basis are authorised to sign documents required to exercise those duties and functions, only in the following circumstances: where the document is ‘routine or administrative’ in nature. or</p>	<p>Clause 1.2(b) has been relocated to Clause 1.3</p> <p>‘Routine or administrative nature’ is defined later in clause 4.2 of the Policy.</p>
New Clause 1.3	<p>1.3 Signing Documents pursuant to Council Resolution or Council Policy</p> <p>An employee may sign a document if expressly authorised by Council Resolution, or if there is a Council Policy or CEO Policy in force which governs the relevant document, and that Policy is complied with by the employee.</p>	Former clauses 1.2(b) and 2.1 have been relocated to create New Clause 1.3
Former Clause 2.1	2. CONDITIONS FOR SIGNING DOCUMENTS	Relocated to new clause 1.3
Former clause 2.2 to 2.5, created into new clause 2.1	<p>2.1 Conditions</p> <p>Any person authorised to sign a document on behalf of the City is responsible for ensuring the following conditions are met before proceeding to sign the document:</p> <p>f) seek guidance from, or request a document review by, Governance and Legal Services, as required;</p> <p>g) consider referring the document to their Director or the CEO, if the document is deemed high risk to the City due to political, economic, or legal reasons, or has impacts to other teams;</p>	<p>Former clauses 2.2 to 2.5 have been consolidated and reworded into a new clause 2.2, which now provides a comprehensive summary of all conditions that a signatory must comply with prior to signing a document.</p> <p>(f) is a new clause created as a result of officer feedback during the review, requesting additional support and guidance from Governance and Legal Services.</p> <p>(g) is a re-phrased version of former clause 2.3</p>

	<p>i) ensure that, if the document is a procurement contract for the supply of goods or service, they hold the relevant Financial Authorisation Limit Listing.</p>	<p>(i) is a new clause created as a result of officer confusion regarding financial authorisation limits and the financial categories in the Appendix.</p>
Former clause 3	<p>3. VARIATION AND DISCHARGE</p> <p>A variation under this clause includes a variation by Deed.</p> <p>Subject to clause 2, where a person is authorised to sign a document under this Policy or otherwise, they are also authorised to vary or discharge the document.</p> <p>A person nominated to do so under a lawfully executed contract or agreement, may vary or discharge that contract, subject to that person having the appropriate financial authorisation where the variation results in an additional financial commitment by the City. This must be carried out in accordance with the relevant City policy and procedures.</p> <p>If a person who signed a document is no longer available, the relevant Director is authorised to vary or discharge the document, unless the document was signed by the CEO.</p>	<p>Former clause 3 has been deleted because the authority for an employee to vary or discharge a document will depend on the circumstances of each case. Retaining this clause was considered likely to create confusion, and greater clarity is achieved by requiring variations or discharges to be assessed and signed in accordance with the Policy as if they were new documents.</p>
Former clause 4, new clause 2.2	<p>2.2 Signing on behalf of another person</p> <p>An employee may sign a document if they have been approved to act in the authorised position via the City's formal approval processes.</p>	<p>Former clause 4 has been re-phrased into clause 2.2.</p>
New clause 3, former clause 5	<p>3. AUTHORITY TO AFFIX THE COMMON SEAL</p> <p>3.1 Affixing of the Common Seal</p> <p>The City's Common Seal may only be affixed to a document if authorised by Council:</p> <ul style="list-style-type: none"> b) Under this Policy; or b) By way of Council resolution. <p>3.2 Witnessing and signing</p> <p>The City's Common Seal may only be validly affixed to a document, in the presence of, and signed by the Mayor and the CEO.</p>	<p>The former clause 5 has been deleted and replaced with new clause 3.</p> <p>The text of former clause 5 has been relocated into the Appendix.</p>
New clauses 4.1 - 4.3	<p>4. DEFINITIONS</p> <p>4.1 Document</p>	<p>A definition of 'document' has been added to remove ambiguity and eliminate unnecessary</p>

	<p>A 'document' is defined (but is not limited to) any deed, agreement, letter, notice, permit, infringement, memorandum of understanding, contract, service legal agreement, funding agreement, and terms and conditions.</p> <p>4.2 Routine or administrative in nature</p> <p>A function is deemed 'routine or administrative in nature' if:</p> <p>(a) it does not involve a discretionary decision being made that may affect individual rights;</p> <p>(b) it does not commit the City to a long-term financial or operational commitment; and</p> <p>(c) it is not politically significant or high-risk in nature.</p> <p>4.3 Planning & land interest documents</p> <p>'Planning & land interest' documents include:</p> <ul style="list-style-type: none"> a) Easements; creation of new and surrender of b) Restrictive Covenants; creation of new and surrender of c) Management Orders; the acceptance, variation or surrender of crown land vesting d) Caveats; creation of new and withdrawal of e) Section 70A Notifications; lodgement of new and removal of; f) Memorials, creation of new and withdrawal of g) Contributed assets <p>For the purposes of clarity, contracts of sale, leases and licences are not 'planning and land interest documents'.</p>	<p>distinctions between various document types (e.g., MOU, Deed, Funding Agreement) previously listed separately in the Policy Appendix. The revised Policy clarifies that it is not the document type, but rather the purpose and effect of the document, that determines its categorisation in the Appendix.</p> <p>A definition for routine or administrative in nature was added, removing the text from earlier in the Policy at clause 1.2.</p> <p>A definition for planning and land interest documents has been added, to remove the content from the Appendix.</p>
<p>Appendix – Category 1</p>	<p>Documents that:</p> <ul style="list-style-type: none"> a) <u>are of a high-risk, political or strategic nature,</u> b) have a significant commitment or obligation from the City, c) are between the City and State and Federal Governments, d) have a long-term <u>(5+ years)</u> operational commitment from the City, e) a long-term <u>(5+ years)</u> financial commitment from the City, or f) have a financial contribution by the City up to \$250,000 (in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan). 	<p>The financial threshold has been increased to enable the CEO to execute documents within a higher financial range. <u>The financial contribution must be in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan.</u></p>

<p>Appendix – Category 2</p>	<p>Documents that are:</p> <ul style="list-style-type: none"> (a) of moderate risk, (b) with a moderate commitment or obligation from the City, (c) of a <u>medium-term (1-5 year)</u> financial and operational commitment from the City, (d) a financial contribution by the City up to <u>\$150,000</u> (in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan), or (e) ‘planning and land interest documents’. 	<p>The financial threshold has been increased to enable Directors to execute documents within a higher financial range. <u>The financial contribution must be in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan.</u></p>
<p>Appendix – Category 3</p>	<p>Documents that are:</p> <ul style="list-style-type: none"> (a) of low risk, (b) of an operational nature, (c) minimal, short term <u>(<1 year)</u> financial and operational commitments from the City, (d) a financial contribution by the City up to <u>\$50,000</u> (in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan). 	<p>A new Category 3 has been created to clearly distinguish which documents may be signed by Managers and above. Previously, there was confusion regarding signatories for Category 2 documents, as some were limited to Directors and CEO only, so by adding a third category, this will provide more clarity.</p> <p><u>The financial contribution must be in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan.</u></p>

Consultation

A recorded video presentation was circulated to Elected Members on the proposed amendments to Council delegations and the Policy.

Statutory Environment

Local Government Act 1995:

- s.5.42 Delegation of some powers and duties to CEO
- s.5.43 Limits on delegations to CEO
- s.5.44 CEO may delegate powers and duties to other employees
- s.5.46(1) and (2) CEO to keep a register and delegations to be reviewed by the delegator.
- s9.49A Execution of documents

Planning and Development (Local Planning Schemes) Regulations 2015:

- Schedule 2 clause 82 Delegations by local government

Cat Act 2011:

- s.44 Delegation by local government
- s.47 Register of, and review of delegations

Dog Act 1976:

- s.10AA Delegation of local government powers and duties
- s.10AB Register of, and review of delegations

Graffiti Vandalism Act 2016:

- s.16 Delegation by local government

Bush Fires Act 1954:

- s.48 Delegation by local government

Building Act 2011:

- s.127 Delegation: special permit authorities and local governments

Food Act 2008:

- s.118 Functions of enforcement agencies and delegation

Public Health Act 2016:

- s.21 Enforcement agency may delegate

Health (Asbestos) Regulations 1992:

- r.15D(7) Local government may delegate a power or duty to CEO

Litter Act 1979:

- s30(4a) Withdrawal notice to be signed by a person appointed in writing by the public authority

Control of Vehicles (Off-road Areas) Act 1978:

- s37(5) Withdrawal notice to be signed by person authorised by the local government'

Policy Implications

Delegated Authority review

All delegations reference relevant Council policies where applicable.

Authority to Execute Documents Policy review

Council endorsement is sought to amend POL-CPM 06 Authority to Execute Documents Policy.

Financial Implications

Nil.

Economic Implications

Nil.

Environmental Implications

Nil.

Risk Implications

The proposed adoptions to the Delegated Authority Register and proposed amendments to the Policy will improve efficiency without creating undue or unacceptable risk to the City. The proposed changes will also lead to greater legal compliance with the *Local Government Act 1995* and administrative law principles.

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 is relevant to this report:

Leadership

- Sound decisions based on evidence and meaningful engagement

Conclusion

Council is requested to support the recommendations now that the following reviews have been completed:

- 2025/2026 review of Council's Register of Delegated Authority; and
- 2025/2026 review of POL-CPM 06 Authority to Execute Documents Policy.

Officer Recommendation

That Council:

1. **Endorses the 2025/2026 Delegated Authority Review, for the purpose of section 5.46(2) of the *Local Government Act 1995*.**
2. **Adopts*:**
 - a. **Minor amendments to the following two Council delegations, as provided in Attachment 1:**
 - **DA-LWE 11 Authorised Persons to Perform Specified Functions Under the Local Government Act 1995**
 - **DA-PAD 02 Development Application (excluding Single Houses)**
 - b. **The following remaining 46 Council delegations with no amendments:**
 - **DA-BUI 01 Building and Demolition Permits**
 - **DA-BUI 02 Occupancy Permits and Building Approval Certificates**
 - **DA-BUI 03 Building Orders**
 - **DA-BUI 04 Smoke Alarms - Alternative Solutions**
 - **DA-BUI 05 Private Swimming Pool Safety Barriers**
 - **DA-CMS 03 *Cat Act 2011***
 - **DA-CMS 04 *Dog Act 1976***
 - **DA CNP 02 Disposing of Property**
 - **DA-CPM 02 Invite Expressions of Interests and Tenders**
 - **DA-CPM 04 Rejecting and Accepting Expressions of Interests and Tenders; Variation Before Contract**
 - **DA-CPM 05 Varying Contracts and Exercising Contract Extension Options**
 - **DA-CPM 06 Tenders for Goods and Services – Exempt Procurement**
 - **DA-CPM 07 Panels of pre-qualified suppliers for goods and services**
 - **DA-EMS 01 Bush Fires Act 1954 - Variations to Burning Times**
 - **DA-EMS 02 Bush Fires Act 1954 – General**

- DA-EMS 03 Bush Fires Act 1954 - Enforcement
- DA-FCM 02 Payments from Municipal Funds or Trust Funds
- DA-FCM 03 Investment of Funds
- DA-FCM 04 Non-Rateable Status for Land
- DA-FCM 06 Defer, Grant Concessions for, or Waive Fees or Write off Debts
- DA-FCM 07 Payment Arrangements for Unpaid Rates and Service Charges and Other Debtors
- DA-GVN 06 Revoking Suspension of Decisions under Objection
- DA-LOC 01 Trading Permits
- DA-LOC 02 Alfresco Dining Permits
- DA-LOC 03 City of Mandurah Local Laws – Administration
- DA-LUP 01 Private Works on, over or under Public Places
- DA-LUP 02 Public Thoroughfare – Dangerous Excavations
- DA-LUP 03 Obstruction of Footpaths and Thoroughfares
- DA-LUP 04 Crossing – Construction, Repair and Removal
- DA-LWE 01 Prosecutions/Recovery of Unpaid Rates, Service Charges, Fees and Charges
- DA-LWE 02 Directions in Relation to Illegal Development Matters
- DA-LWE 03 Action, notices, proceedings, prosecutions and withdrawals – any other written law, prosecutions and withdrawals – any other written Law
- DA-LWE 06 Disposal of Impounded Goods/Vehicles
- DA-LWE 07 Authorised Officers / Persons
- DA-LWE 09 Graffiti Vandalism
- DA-LWE 10 Disposal of Sick or Injured Impounded Animals
- DA-PAD 03 Structure Plans
- DA-PAD 04 Local Development Plans
- DA-PBH 03 Food Act 2008
- DA-PBH 04 Food Act 2008 - Appointments
- DA-PBH 10 Public Health Act 2016 - Functions of an Enforcement Agency
- DA-PBH 11 Public Health Act 2016 - Reports by Enforcement Agency
- DA-PBH 12 *Health (Asbestos) Regulations 1992* - Enforcement
- DA-PBH 13 Public Health Act 2016 - Enforcement Orders and Clearance Certificates
- DA-TFT 01 Parking Administration
- DA-TFT 02 Closing of Certain Thoroughfares to Vehicles

3. Appoints the following position titles to withdraw infringement notices in accordance with section 30(4a) of the *Litter Act 1979*:

- a. Chief Executive Officer
- b. Director Strategy and Economic Development
- c. Executive Manager Development and Compliance
- d. Coordinator Building and Compliance
- e. Coordinator Health Services
- f. Coordinator Ranger and Parking Services

4. Authorises the following position titles to withdraw infringement notices in accordance with section 37(5) of the *Control of Vehicles (Off-road Areas) Act 1978*:

- a. Chief Executive Officer
- b. Director Strategy and Economic Development
- c. Executive Manager Development and Compliance
- d. Coordinator Ranger and Parking Services

5. **Adopts the amendments to POL-CPM 06 Authority to Execute Documents Policy, as provided in Attachment 2, and authorises the position titles in the Policy to execute documents on behalf of the City, subject to the conditions and restrictions set out in the Policy.**

***Absolute Majority**

Express power or duty delegated	All powers and duties of the local government under the <i>Local Planning Scheme No 12</i> , and under Schedule 2 of the <i>Planning and Development (Local Planning Schemes) Regulations 2015</i> as necessary to fulfil the Functions as set out below.
Function	To undertake the functions of the local government (including consultation) and to determine development applications as required for applications for development approval.
Delegates	Chief Executive Officer
Conditions	<p>This delegation is subject to the following conditions:</p> <ol style="list-style-type: none"> 1. Where an application is required to be advertised, due to the proposed development seeking to vary the development standards required under Local Planning Scheme No 12, a structure plan, a precinct structure plan, local development plan or local planning policy, and no submission(s) have been received objecting the proposal in relation to relevant matters. 2. Where consultation has been undertaken for Grouped or Multiple Dwelling, any person who has made a submission objecting to the application being notified in writing of the City's intention to approve the application and be provided with a further 7 days in which to provide further comment. 3. Any development application where the City receives submissions objecting to the proposal, other than Grouped or Multiple Dwellings, can only be determined by the CEO. Elected Members will be consulted prior to determination and will have the option of requesting the application be the subject of a Council report. 4. All applications that require discretionary provisions of a Local Planning Scheme No 12, a structure plan, precinct structure plan, local development plan or local planning policy to be applied are to be reviewed by a Planning Review Group consisting of at least 2 of the following: <ul style="list-style-type: none"> • Executive Manager Development and Compliance; • Coordinator Statutory Planning and Lands; • Senior Planner • Manager Strategic Planning and Urban Design.
Statutory framework	<i>Planning and Development Act 2005 Planning and Development (Local Planning Schemes) Regulations 2015 Local Planning Scheme No 12</i>

Authority to Execute Documents Policy

POL-CPM 06

Objective

To establish, in accordance with the requirements of section 9.49A of the *Local Government Act 1995* (the Act):

1. Authorisations for the City of Mandurah (the 'City') to:
 - a) affix the Common Seal;
 - b) sign documents on behalf of the City; and
 - c) execute Deeds on behalf of the City.
2. Protocols on the appropriate method of execution for the City's documents.

Statement

The Act provides local governments with the ability to authorise its Chief Executive Officer (CEO) and other employees to execute documents on behalf of the City.

Under the Act, a document is duly executed by the City if:

- a) the City's Common Seal is validly affixed to it; or
- b) it is signed by an employee authorised by Council to do so.

This policy sets out who is authorised for the above purposes.

1. AUTHORISATION TO SIGN DOCUMENTS

1.1 Signing Documents under Delegated or Statutory Authorisation

Subject to compliance with clause 2 of this Policy, employees who carry out duties and functions on behalf of the City under delegated authority or statutory authority are authorised to sign any document required to exercise those duties and functions.

1.2 Signing Documents as an 'Acting Through' Officer

Subject to compliance with clause 2 of this Policy, employees who carry out duties and functions on behalf of the City on an 'acting through' basis are authorised to sign documents required to exercise those duties and functions, where the document is routine or administrative in nature.

1.3 Signing Documents pursuant to Council Resolution or Council Policy

An employee may sign a document if expressly authorised by Council Resolution, or if there is a Council Policy or CEO Policy in force which governs the relevant document, and that Policy is complied with by the employee.

1.4 Signing Documents pursuant to this Policy

The persons listed in the Appendix of this Policy are authorised to sign the specific documents set out therein, subject to their compliance with clause 2 of this Policy.

Authority to Execute Documents Policy

POL-CPM 06

2. CONDITIONS FOR SIGNING DOCUMENTS

2.1 Conditions

Any person authorised to sign a document on behalf of the City is responsible for ensuring the following conditions are met before proceeding to sign the document:

- a) fully inform themselves of the matter to which the document relates;
- b) ensure any necessary legislative requirements are met (for example, approved by Council resolution, if required);
- c) ensure that all applicable Council policies, CEO policies and internal procedures have been followed;
- d) ensure that sufficient records, including document versions and decision-making processes, leading to the creation of the document are maintained in accordance with the City's record keeping obligations;
- e) ensure the document is relevant to matters within the scope of their position and job instruction guides;
- f) seek guidance from, or request a document review by, Governance and Legal Services, as required;
- g) consider referring the document to their Director or the CEO, if the document is deemed high risk to the City due to political, economic, or legal reasons, or has impacts to other teams;
- h) confirm that any document of a financial nature complies with the City's Annual Budget or Long Term Financial Plan; and
- i) ensure that, if the document is a procurement contract for the supply of goods or service, they hold the relevant Financial Authorisation Listing.

2.2 Signing on behalf of another person

An employee may sign a document if they have been approved to act in the authorised position via the City's formal approval processes.

3. AUTHORITY TO AFFIX THE COMMON SEAL

3.1 Affixing of the Common Seal

The City's Common Seal may only be affixed to a document if authorised by Council:

- a) Under this Policy; or
- b) By way of Council resolution.

3.2 Witnessing and signing

The City's Common Seal may only be validly affixed to a document, in the presence of, and signed by the Mayor and the CEO.

4. DEFINITIONS

Authority to Execute Documents Policy

POL-CPM 06

4.1 Document

A 'document' is defined (but is not limited to) any deed, agreement, letter, notice, permit, infringement, memorandum of understanding, contract, service legal agreement, funding agreement, and terms and conditions.

4.2 Routine or administrative in nature

A function is deemed 'routine or administrative in nature' if:

- (a) it does not involve a discretionary decision being made that may affect individual rights;
- (b) it does not commit the City to a long-term financial or operational commitment; and
- (c) it is not politically significant or high-risk in nature.

4.3 Planning & land interest documents

'Planning & land interest' documents include:

- a) Easements; creation of new and surrender of
- b) Restrictive Covenants; creation of new and surrender of
- c) Management Orders; the acceptance, variation or surrender of crown land vesting
- d) Caveats; creation of new and withdrawal of
- e) Section 70A Notifications; lodgement of new and removal of
- f) Memorials, creation of new and withdrawal of; and
- g) Contributed assets

For the purposes of clarity, contracts of sale, leases and licences are not 'planning and land interest documents'.

APPENDIX

Under section 9.49A of the *Local Government Act 1995*, Council authorises the persons designated to the positions listed in the Appendix table below, to sign certain documents on behalf of the City, in compliance with the conditions outlined in clause 2 of this Policy.

Note: If a document falls under more than one category, the higher category will apply.

Category	Signatories	Documents
Common seal	Mayor and CEO	Local Planning Schemes and amendments
		Local laws and amendments
		Mortgage and loan documentation
		Any other document, upon specific request by Council or the CEO. For example a document that is: <ul style="list-style-type: none"> • significant and important to the City; • a significant land transaction; • a ceremonial certificate or award (e.g. Honorary Freeman and Honorary Citizenship); or • of a nature to warrant the common seal.
Category 1 documents	CEO	Documents that: <ol style="list-style-type: none"> a) are of a high-risk, political or strategic nature; b) have a significant commitment or obligation from the City; c) are between the City and State or Federal Governments; d) have a long-term (5+ years) operational commitment from the City; e) a long-term (5+ years) financial commitment from the City; or f) have a financial contribution by the City up to \$250,000 (in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan).
Category 2 documents	CEO or Director	Documents that are: <ol style="list-style-type: none"> a) of moderate risk, b) with a moderate commitment or obligation from the City, c) of a medium-term (1-5 year) financial and operational commitment from the City, d) a financial contribution by the City up to \$150,000 (in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan), or e) 'planning and land interest documents'.
Category 3 documents	CEO or Director or Executive Manager/Manager	Documents that are: <ol style="list-style-type: none"> a) of low risk, b) of an operational nature, c) minimal, short term (<1 year) financial and operational commitments from the City, or d) a financial contribution by the City up to \$50,000 (in accordance with Council resolution or has been included in the adopted Annual Budget or the Long Term Financial Plan).

Authority to Execute Documents Policy

POL-CPM 06

Objective

To establish, in accordance with the requirements of section 9.49A of the *Local Government Act 1995* (the Act):

1. Authorisations for the City of Mandurah (the 'City') to:
 - a) affix the Common Seal;
 - b) sign documents on behalf of the City; and
 - c) execute Deeds on behalf of the City.
2. Protocols on the appropriate method of execution for the City's documents.

Statement

The Act provides local governments with the ability to authorise its Chief Executive Officer (CEO) and other employees to execute documents on behalf of the City.

Under the Act, a document is duly executed by the City if:

- a) the City's Common Seal is validly affixed to it; or
- b) it is signed by an employee authorised by Council to do so.

This policy sets out who is authorised for the above purposes.

1. AUTHORISATION TO SIGN DOCUMENTS

1.1 Signing Documents under Delegated or Statutory Authorisation

Subject to compliance with clause 2 of this Policy, employees who carry out duties and functions on behalf of the City under delegated authority or statutory authority are authorised to sign any document required to exercise those duties and functions.

1.2 Signing Documents as an 'Acting Through' Officer

Subject to compliance with clause 2 of this Policy, employees who carry out duties and functions on behalf of the City on an 'acting through' basis are authorised to sign documents required to exercise those duties and functions, where the document is routine or administrative in nature, ~~or~~

~~Where the document is not routine or administrative in nature, only if there is a Council or CEO Policy in force which governs the relevant document, and that Policy is complied with by the employee.~~

~~For the avoidance of doubt, documents which are routine or administrative in nature do not include:~~

- ~~a. documents that involve a discretionary decision being made that may affect individual rights;~~
- ~~b. documents that may commit the City to a long-term financial commitment;~~

Authority to Execute Documents Policy

POL-CPM 06

~~c. documents that may commit the City to a long-term operational commitment; or~~

~~d. documents that are politically or financially significant.~~

1.3 Signing Documents pursuant to Council Resolution or Council Policy

An employee may sign a document if expressly authorised by Council Resolution, or if there is a Council Policy or CEO Policy in force which governs the relevant document, and that Policy is complied with by the employee.

1.4 Signing Documents pursuant to this Policy

The persons listed in the Appendix of this Policy are authorised to sign the specific documents set out therein, subject to their compliance with clause 2 of this Policy.

2. CONDITIONS FOR SIGNING DOCUMENTS

~~2.1 In the case of:~~

~~a) Legislation; or~~

~~b) A Council decision;~~

~~expressly specifying a particular way in which a document is to be executed, that course of action is to take precedence over this Policy.~~

2.1 Conditions

It is the responsibility of any person authorised to sign under this Policy a document on behalf of the City is responsible for ensuring the following conditions are met before proceeding to sign the document or otherwise to:

a) fully inform themselves of the matter to which the document relates;

b) ensure any necessary legislative requirements are met (for example, approved by Council resolution, if required);

c) ensure that all applicable Council policies, CEO policies and internal procedures have been followed;

d) ensure that sufficient records, including document versions and decision-making processes are kept of the document, and decisions leading to the creation of the document are maintained, in accordance with the City's record keeping obligations;

~~d)e) ensure the document is relevant to matters within the scope of their position and job instruction guides;~~

f) seek guidance from, or request a document review by, Governance and Legal Services, as required;

e) consider referring the document to their Director or the CEO, if the document is deemed high risk to the City due to

~~f)~~

Authority to Execute Documents Policy POL-CPM 06

~~g) Where a person would otherwise be authorised to sign a document but identifies that the document may be high risk to the City due to political, economic, or legal reasons, or has impacts to other teams; the document must be referred to the relevant Director for consideration before signing. If it is appropriate to do so, the Director may refer the document to the CEO or Council for approval.~~

~~g)h) confirm that any document of a financial nature complies with the City's Annual Budget or Long Term Financial Plan; and~~

~~h)i) ensure that, if the document is a procurement contract for the supply of goods or service, they hold the relevant Financial Authorisation Listing.~~

~~2.2 Variation And Discharge~~

~~A variation under this clause includes a variation by Deed.~~

~~Subject to clause 2, where a person is authorised to sign a document under this Policy or otherwise, they are also authorised to vary or discharge the document.~~

~~A person nominated to do so under a lawfully executed contract or agreement, may vary or discharge that contract, subject to that person having the appropriate financial authorisation where the variation results in an additional financial commitment by the City. This must be carried out in accordance with the relevant City policy and procedures.~~

~~**2.2 If a person who signed a document is no longer available, the relevant Director is authorised to vary or discharge the document, unless the document was signed by the CEO.**~~

~~Signing on behalf of another person~~

~~In the absence of a person authorised under this Policy to sign a document, another An employee of the City may sign on behalf of that person only a document if they have been approved to act in the authorised person's position via the City's formal approval processes of the City.~~

~~3. AUTHORITY TO AFFIX THE COMMON SEAL~~

~~3.1 Affixing of the Common Seal~~

~~The City's Common Seal may only be affixed to a document if authorised by Council:~~

- ~~a) Under this Policy; or~~
- ~~b) By way of Council resolution.~~

~~3.2 Witnessing and signing~~

~~The City's Common Seal may only be validly affixed to a document, in the presence of, and signed by the Mayor and the CEO.~~

~~5.1 Required Use~~

~~In accordance with the City of Mandurah Standing Orders Local Law 2016, the Common Seal must be affixed whenever a local law is made by Council. If Council does not authorise a specific person to affix the Common Seal at the time it makes a local law, the CEO is authorised to appoint an employee to do so.~~

~~5.2 Optional Use~~

Authority to Execute Documents Policy

POL-CPM 06

~~Council may from time to time authorise, by way of resolution, a person to affix the Common Seal to a particular document.~~

~~In addition to this, and subject to clause 2, the CEO is authorised to appoint an employee to affix the Common Seal to any document that the CEO is authorised to sign, if the CEO is satisfied that affixing the Common Seal would be a more appropriate method for executing the document.~~

~~Documents for which it may be appropriate to affix the Common Seal include, but are not limited to:~~

~~Local Planning Schemes (and amendments);~~

~~State or Commonwealth Funding Agreements;~~

~~State or Commonwealth Memorandums of Understanding;~~

~~Ceremonial Certificates and Awards (such as Honorary Freeman);~~

~~Significant Land Transactions; and~~

~~Any other document of significance and importance to the City.~~

4. DEFINITIONS

4.1 Document

A 'document' is defined (but is not limited to) any deed, agreement, letter, notice, permit, infringement, memorandum of understanding, contract, service legal agreement, funding agreement, and terms and conditions.

4.2 Routine or administrative in nature

A function is deemed 'routine or administrative in nature' if:

- (a) it does not involve a discretionary decision being made that may affect individual rights;
- (b) it does not commit the City to a long-term financial or operational commitment; and
- (c) it is not politically significant or high-risk in nature.

4.3 Planning & land interest documents

'Planning & land interest' documents include:

- a) Easements; creation of new and surrender of
- b) Restrictive Covenants; creation of new and surrender of
- c) Management Orders; the acceptance, variation or surrender of crown land vesting
- d) Caveats; creation of new and withdrawal of
- e) Section 70A Notifications; lodgement of new and removal of
- f) Memorials, creation of new and withdrawal of; and
- g) Contributed assets

For the purposes of clarity, contracts of sale, leases and licences are not 'planning and land interest documents'.

Subject: 19.7 Extraordinary Election - Town Ward

Summary

On 11 May 2026 Councillor Peter Rogers provided the Chief Executive Officer (CEO) with written notice of his resignation as a Councillor for the Town ward. The resignation is to take effect from 13 May 2026.

In accordance with section 4.8 of the *Local Government Act 1995* (the Act) an extraordinary election must be held to fill the vacancy in the Town ward. Local government elections must be conducted in accordance with the Act and associated Regulations, and Council may decide the method of election to be either postal voting or in-person.

The Western Australian Electoral Commissioner (WAEC) has advised that they conduct the extraordinary election on Thursday 24 September 2026. As this date is later than four months after the vacancy occurring, WAEC have granted permission under Section 4.9(2) for this date to be fixed for the extraordinary election.

Council is requested, in accordance with sections 4.9(1)(b) and 4.20(4) of the Act, to declare that WAEC be responsible for the conduct of the City of Mandurah 2026 Extraordinary Election and set the election date as Thursday 24 September 2026.

Council is also requested to resolve in accordance with section 4.61(2) of the Act, that the 2026 Extraordinary Election be conducted as a postal election and note the proposed cost estimate for the conduct of the 2026 Extraordinary Election (Attachment 1).

G.18/1/19	29 January 2019	Appointment of Electoral Commissioner to Conduct Elections.

Background

The Western Australian Electoral Commissioner (WAEC) has been appointed by Council to be responsible for the conduct of City of Mandurah elections and polls via the postal voting method since 2001. These elections have been conducted efficiently, achieving a high level of voter participation.

In accordance with section 2.32(2) of the Act on receipt of a resignation, the CEO must notify the Director General of the Department of Local Government that the office of a member of council is to

become vacant (Vacancy). The Director General was notified of the Vacancy in Town ward on 14 May 2026.

Comment

Extraordinary Vacancy by Backfill

Clause 2(1) of Schedule 4.1A of the Act sets out the conditions for filling an extraordinary vacancy by backfilling under that schedule. Schedule 4.1A includes clause 2(1)(c) which requires that *“the office becomes vacant on a day (the vacancy day) that is within the period of 12 months beginning on the day on which the former member’s term began”*.

Councillor Rogers was elected as a Town ward council member for City of Mandurah (City) during the 2023 Ordinary Election for a term of 4 years commencing on the 21 October 2023. The Vacancy will arise more than 12 months after Councillor Rogers term began and as such, cannot be backfilled using the provisions in Schedule 4.1A.

Consolidating Vacancy to Next Ordinary Election – not permitted

Section 4.16 of the Act allows for Council, with the approval of the Electoral Commissioner, to postpone an extraordinary election by consolidating certain vacancies into the next Ordinary Election, however section 4.16(4) of the Act provides that a vacancy must not occur until after the third Saturday in October the year before the next Ordinary Election.

As Councillor Rogers submitted his resignation 11 May 2026 a postponement under s4.16 of the Act cannot occur.

Extraordinary Election

As the provisions of Schedule of 4.1A and section 4.16 of the Act are not applicable, an Extraordinary Election must be held to fill the Town ward Vacancy.

In line with section 2.28 of the Act, the term of office for the Vacancy would be around 13 months, expiring 16 October 2027.

In accordance with section 4.9(2) of the Act, an election day for the Extraordinary Election cannot be more than 4 months after the Vacancy occurs, unless the Electoral Commissioner approves a later date. It should be noted by Council that section 4.10(a) states that a vacancy to the office of a member of council occurs on the date the CEO receives the notice of resignation even if the resignation takes effect on a later date.

The period which Town ward will have two Councillors and one Vacancy is expected to be just over four months. It should be noted that under section 2.10 of the Act the role of Councillors is to represent the whole district, not only the ward for which they were elected.

A decision to conduct the Extraordinary Election as a postal election must be made at least 80 days before election day and can only be made after or in conjunction with a declaration that the Electoral Commissioner is to be responsible for the election.

It is recommended that Council declare WAEC be responsible for the conduct of the 2026 Extraordinary Election, together with any other elections or polls which may be required, and that the method of conducting the Extraordinary Election be as a postal election.

In accordance with section 4.20(4) of the Act, the CEO has obtained the proposed written agreement of WAEC to conduct the 2026 Extraordinary Election as a postal election. WAEC has advised that, should WAEC be appointed as responsible for the conduct of the Extraordinary Election, the preferred date for the election is Thursday 24 September 2026.

WAEC has provided an estimated cost for conduct of the 2026 Extraordinary Election, as a postal election, of \$75,000 (ex GST) (Attachment 1).

This cost has been based on the following assumptions:

- The method of election will be postal
- One Councillor vacancy
- 19,200 electors
- Response rate of approximately 30%
- Appointment of a local Returning Officer
- The City providing all other electoral officers to assist in the conduct of the election
- Count to be conducted at the City using CountWA.

Alternatively, in accordance with section 4.61(1) of the Act, Council has the option to hold an in-person election. It is not recommended that the Council determine to conduct the election itself due to resource constraints and the oversight and management of risks associated with the election process. It is unlikely that WAEC would support holding an in-person election due to the substantial resource burden. Prior advice from WAEC has indicated that they would only be willing to support in-person elections only in areas where there is a small and dispersed population which makes Postal voting difficult or ineffective.

It should be noted that the caretaker period provisions under the Act do not apply to extraordinary elections.

Division 6 – Terms of office on the Council and vacation of office

2.28 Days on which terms begin and end

Table to section 2.28 Terms of office

Item	Kind of office	How elected	Term begins	Term ends
6	<i>Elector mayor or president OR councillor</i>	<i>Elected at an extraordinary election to fill a vacancy arising by resignation including an election required under section 4.57 or 4.58 in respect of such an extraordinary election</i>	<i>On the day after — (a) the day on which the poll is held; or (b) if no poll is held, the nomination day, unless the office has not then become vacant in which case the term begins when the office becomes vacant</i>	<i>On the day on which the term of office of the person whose office has or will become vacant would have ended if the vacancy had not occurred</i>

2.31 Resignation

(2) A councillor may —

(a) resign from the office of councillor;

(3) Written notice of resignation is to be signed and dated by the person who is resigning and delivered to the CEO.

(4) *The resignation takes effect from the date of delivery of the notice or from a later day specified in the notice.*

2.32 How extraordinary vacancies occur in offices elected by electors

(1) *The office of a member of a council as an elector mayor or president or as a councillor becomes vacant if the member —*

(b) resigns from the office; or

(2) *The CEO must notify the Departmental CEO if an office becomes vacant under this section.*

Division 4 — Extraordinary elections

s4.8. Extraordinary elections

(1) *If the office of a councillor becomes vacant under section 2.32, an election to fill the office is to be held, except if the vacancy is filled under Schedule 4.1A.*

(2) *An election under this section is called an extraordinary election.*

s4.9 Election day for extraordinary election

(1) *Any poll needed for an extraordinary election is to be held on a day decided on and fixed —*

(a) by the mayor or president, in writing, if a day has not already been fixed under paragraph (b); or

(b) by the council at a meeting held within one month after the vacancy occurs, if a day has not already been fixed under paragraph (a).

(2) *The election day fixed for an extraordinary election is to be a day that allows enough time for the electoral requirements to be complied with but, unless the Electoral Commissioner approves or section 4.10(b) applies, it cannot be later than 4 months after the vacancy occurs.*

(3) *If at the end of one month after the vacancy occurs an election day has not been fixed, the CEO is to notify the Electoral Commissioner and the Electoral Commissioner is to —*

(a) fix a day for the holding of the poll that allows enough time for the electoral requirements to be complied with; and

(b) advise the CEO of the day fixed.

s4.10 Extraordinary election can be held before resignation has taken effect

If a member resigns —

(a) the vacancy is to be regarded for the purposes of sections 4.8(1) and 4.9 as occurring when the CEO receives the notice of resignation even if the resignation takes effect on a later day; but

(b) the election day fixed for the extraordinary election cannot be earlier than one month before the resignation actually takes effect.

Part 4 Division 7 Provisions about electoral officers and the conduct of elections

s4.20 CEO to be returning officer unless other arrangements made

(4) *A local government may, having first obtained the written agreement of the Electoral Commissioner, declare* the Electoral Commissioner to be responsible for the conduct of an election, or all elections conducted within a particular period of time, and, if such a declaration is made, the Electoral Commissioner is to appoint a person to be the returning officer of the local government for the election or elections.*

** Absolute majority required.*

Part 4 Division 9 Electoral process

s4.61 Choice of methods of conducting elections

(1) *The election can be conducted as a —*

postal election which is an election at which the method of casting votes is by posting or delivering them to an electoral officer on or before election day; or

voting in person election which is an election at which the principal method of casting votes is by voting in person on election day but at which votes can also be cast in person before election day, or posted or delivered, in accordance with regulations.

(2) The local government may decide* to conduct the election as a postal election.

* Absolute majority required.

(4) A decision under subsection (2) has no effect unless it is made after a declaration is made under section 4.20(4) that the Electoral Commissioner is to be responsible for the conduct of the election or in conjunction with such a declaration.

(7) Unless a resolution under subsection (2) has effect, the election is to be conducted as a voting in person election.

Policy Implications

Nil

Financial Implications

A budget of \$110,000 (\$75,000 for the WAEC to conduct the election, an additional \$25,000 for casual count staff, as well as other incidental costs including advertising) has been incorporated in the 2026/2027 Financial Year Budget which will be presented to Council for adoption in June 2026.

Economic Implications

Nil.

Environmental Implications

Nil.

Risk Implications

The conduct of an Extraordinary Election is very complex and time consuming and the City is not resourced to deliver such a project which may increase the likelihood of an error or non-compliance occurring.

A decision made to conduct an in-person election without WAEC being responsible for the conduct of the election would mean a significant workload increase for City officers and most notably for the CEO in taking on the role as Returning Officer.

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 is relevant to this report:

Leadership

- Responsible, transparent, value for money delivery of well planned, sustainable, projects, programs and services

Conclusion

The CEO has received Councillor Peter Rogers resignation as a Councillor in Town ward effective 13 May 2026.

Council is requested to decide to conduct the 2026 Extraordinary Election on Thursday 24 September 2026 as a postal election and appoint the WAEC to conduct the 2026 Extraordinary Election.

Officer Recommendation

That Council:

- 1. Declare, in accordance with section 4.20(4) of the *Local Government Act 1995*, the Western Australian Electoral Commissioner to be responsible for the conduct of the 2026 Extraordinary Election, together with any other elections or polls which may be required*.**
- 2. Decide, in accordance with section 4.61(2) of the *Local Government Act 1995* that the method of conducting elections will be as a Postal election*.**
- 3. Decide, in accordance with section 4.9(1)(b) of the *Local Government Act 1995*, the date for the 2026 Extraordinary Election will be Thursday 24 September 2026.**
- 4. Note the cost estimate provided by the Western Australian Electoral Commission, for conduct of the 2026 Extraordinary Election as per Attachment 1.**

Absolute Majority

Attachments

- 1. City of Mandurah 2026 Extraordinary Election Date and Cost Estimate [19.7.1 - 2 pages]**

Ms Casey Mihovilovich
Chief Executive Officer
City of Mandurah
PO Box 210
MANDURAH WA 6210

Dear Ms Mihovilovich,

Date for Local Government Extraordinary Election 2026

Thank you for a recent email from Tahlia Jones, on 11 May 2026 which advised of the resignation of Councillor Peter Rogers and that as a result an extraordinary election will need to be conducted in the City of Mandurah.

I note that as per section 4.9(1) of *the Local Government Act 1995*, Council has one (1) month after the vacancy occurring (the day the resignation is received) to decide on and fix the election day for the extraordinary election. The *Local Government Act 1995* allows for either the WAEC to conduct the extraordinary election or for the Local Government to conduct the election in-house, with the CEO as the Returning Officer.

To assist your Council in making this decision, I am writing to advise you that the earliest date that the Western Australian Electoral Commission (WAEC) can conduct an extraordinary election is **Thursday 24 September 2026**. This is also our preferred date for the election. As this date is later than 4 months after the vacancy occurring, I give my approval under section 4.9(2) for this date to be fixed for the extraordinary election.

This letter also serves as your cost estimate. The WAEC has estimated the cost to conduct this election at approximately **\$75,000** (ex GST). This cost has been based on the following assumptions:

- The method of election will be postal
- 1 Councillor vacancy
- 19 200 electors
- response rate of approximately 30%
- appointment of a local Returning Officer
- your local government providing all other electoral officers to assist in the conduct of the election
- count to be conducted at your office using CountWA.

The WA Electoral Commission conducts elections on the basis of full accrual cost recovery, in accordance with *the Local Government (Elections) Regulations 1997*. This

means if the actual costs to conduct the election are less or greater than what we have estimated, the final cost may differ from the estimate we have provided.

We aim to keep additional costs at a minimum, however examples of where cost increases may arise include:

- you select Australia Post Priority Service for the lodgement of your election package
- casual staff are required to be provided for the issuing of Replacement Election Packages
- casual staff are required to be provided to assist the Returning Officer on election day or with the count at night
- unanticipated cost increases from our suppliers

I note that the City has historically used casual staff and that for your last ordinary election event this resulted in an additional charge of \$98,572. You may wish to advise Council that these items can materially increase the final cost and should be taken into account when considering this estimate.

I would also highlight that the ongoing situation in the Middle East may impact on estimates and we will continue to liaise with you as we get closer to the event to confirm your estimate. We will keep you informed of any unanticipated cost increases if they emerge.

The WA Electoral Commission is committed to conducting elections impartially, effectively, efficiently and professionally. Following each election event, we review our performance and identify ways to improve our service delivery. If you have any suggestions for improvements we can make to deliver your election, your feedback is welcome at all times.

Please advise us in writing as soon as practicable that you accept to take this cost estimate to Council, so I can provide you with my written agreement to conduct the election in a separate letter. Both the cost estimate letter, and the written agreement letter then need to be taken to Council for a decision.

The WA Electoral Commission is available to you to provide any further advice or support. If you have any queries please contact Phil Richards, Manager Election Events, at lgelections@waec.wa.gov.au.

Yours sincerely,

Dennis O'Reilly
ELECTORAL COMMISSIONER

14 May 2026

Subject: 19.8 T05-2026 - Tree Pruning and Associated Services

Summary

The City of Mandurah (the City) sought suitably qualified and experienced contractors for the Request for Tender provision of Tree Pruning and Associated Services T05-2026 for a period of two years with two option(s) to extend at the Principal's discretion for an additional one year to a total possible term of four years.

This contract covers vegetation management services required to achieve and maintain prescribed clearances from low-voltage powerlines, including pruning around powerlines located over roads, verges, and service wires. The services also include tree pruning and removal, stump grinding, root pruning with or without the installation of root barriers, and the removal and lawful disposal of all green waste generated by the works. The contract also provides for urgent call-out services related to any tree pruning or tree removal requirements.

Disclosure of Interest

Nil

Background

The previous contract for T03-2022 - Provision of Tree Pruning and Associated Services - Separable Package 1 - Low Voltage Powerline Clearance Pruning and Aerial Pruning and Tree Removal Services was awarded to Beaver Tree Services Aust Pty Ltd on 28 June 2022 by Council for a period of one year with one two-year option period.

The previous contract for T03-2022 - Provision of Tree Pruning and Associated Services - Separable Package 2 – Ground Based Tree Pruning, Tree Removal and Associated Works was awarded to Hayes Tree Care Pty Ltd on 28 June 2022 by Council for a period of one year with one two-year option period.

To ensure continuity of service, a waiver to the procurement policy was approved for the above services, enabling the engagement of a two short-term contracts while the long term procurement process was being finalised.

Comment

The Request for Tender T05-2026 was advertised on 7 March 2026 in The West Australian Newspaper and in the Mandurah Times Newspaper on 11 March 2026, on the Tenderlink tender portal and the public notice section of the City of Mandurah website.

The Request for Tender closed at 2:00pm on 4 April 2026. No submissions were received after the closing deadline. Three submissions were received from the following respondents:

Entity Name	Suburb	ABN Number	ACN Number
Beaver Tree Services Aust Pty Ltd	Forrestdale	78 093 584 788	093 584 788
Hayes Tree Care Pty Ltd Trading as Hayes Tree Care	Greenfields	40 644 837 365	644 837 365

AlexWright Pty Ltd t/as Pete's Treeworx	Furnissdale	85 653 630 182	653 630 182
--	-------------	----------------	-------------

The weighted qualitative criteria, which is contained in section 9 of Confidential Attachment 1 was provided to all respondents in the request package issued and was used by the evaluation panel to evaluate and rank each submission.

To ensure that pricing did not influence the assessment of the qualitative criteria, pricing was not provided to the evaluation panel until the evaluation against the qualitative criteria was completed.

Tenderers who reached a benchmark out of 60% of the qualitative criteria were passed through for price assessment.

The prices submitted were entered into the evaluation matrix as shown in Confidential Attachment 1, where final analysis considering competitiveness and qualitative criteria was conducted in order to determine whether the submissions represented best overall value for money for the City.

Consultation

A probity adviser was engaged under contract for this procurement process. The Probity Certificate is provided in Confidential Attachment 2.

Internal Consultation

The procurement services team facilitated procurement planning which included all internal stakeholders for these services.

Statutory Environment

Part 4 of the *Local Government (Functions & General) Regulations 1996*.

18. Rejecting and accepting tenders

(1) A tender is required to be rejected unless it is submitted at a place, and within the time, specified in the invitation for tenders

...

(4) Tenders that have not been rejected under sub regulation (1), (2), or (3) are to be assessed by the Local Government by means of a written evaluation of the extent to which each tender satisfies the criteria for deciding which tender to accept and it is to decide which of them (if any) it thinks it would be most advantageous to the local government to accept.

(5) The local government may decline to accept any tender.

Policy Implications

Policy POL-CPM 02 – Procurement.

Policy POL-CPM 01 – Regional Price Preference Policy

City of Mandurah Instrument of Delegations

- Council is required to consider this tender due to the value being over \$3 million

Financial Implications

This estimated contract value is \$11,954,064.03 over the life of the contract. The estimated total contract value is based on the estimated volume of works required for trees within the road reserve

and within public open spaces. Each year has escalation of the CPI forecast applied in subsequent years to allow for CPI.

The anticipated volume of works was determined using a conservative estimate to ensure that the contract value accurately reflects the true extent of the required services. This methodology minimises the risk of underestimating the scope and associated costs.

Economic Implications

Hayes Tree Care is a locally owned and operated business based within the City of Mandurah, with a fully equipped and staffed depot. All services associated with this contract will be coordinated, managed, and dispatched from this local facility.

The majority of Hayes Tree Care's operational workforce resides within the Mandurah area, with arboriculture services including tree pruning, tree removals, and associated works undertaken by locally based crews. This ensures that the primary delivery of the contract is performed within the municipal area.

In addition, all plant, equipment, and operational resources are based and maintained locally, further contributing to the support of local businesses, industries, and service providers within the region.

Environmental Implications

Where practicable, green waste shall be chipped on site, with non-contaminated mulch delivered to a location nominated by the City.

Risk Implications

The overall risk of appointing the preferred tenderer is considered low, with the tenderer demonstrating the required resources, experience and financial capacity to deliver the services.

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 are relevant to this report:

Economy

- Well-planned, sustainable urban development

Community

- Inclusive and welcoming places, spaces and neighbourhoods

Environment

- Our natural environment is celebrated, protected and restored for generations to come

Leadership

- Well-maintained assets and facilities that meet the needs of our community

Conclusion

The City recently invited tenders for the provision of Tree Pruning and Associated Services. As a result of the evaluation of submissions, Council is now requested to accept or decline to accept the tender as the most advantageous to the City.

NOTE:

- **Refer Confidential Attachment 1 Evaluation Report Tender T05-2026**
- **Confidential Attachment 2 Probity Certificate**

Officer Recommendation

That Council accepts Hayes Tree Care Pty Ltd Trading as Hayes Tree Care as the preferred respondent for Tender T05-2026 – Tree Pruning and Associated Services for a period of two years with two option(s) to extend at the Principal’s discretion for an additional one year to a total possible term of four years for the Schedule of Rates exclusive GST offered as the most advantageous.

2. CONFIDENTIAL REDACTED - T05-2026 - Tree Pruning Services - Probity Certificate [19.8.2 - 2 pages]

Subject: 19.9 T03-2026 Provision of Security Services

Summary

The City of Mandurah (the City) sought suitably qualified and experienced contractors for the Tender T03-2026 Provision of Security Services for a period of three years with two options for a further one-year period which will be exercised at the sole discretion of the City.

The Contract comprises a consolidated service model of security related services including:

- Static guarding, mobile patrols and crowd control (scheduled and reactive as required);
- 24/7 alarm monitoring, response and escalation;
- Scheduled and reactive maintenance of electronic security systems (alarms and access control); and
- Incident reporting and performance monitoring.

The Services apply across multiple City facilities and may be required outside standard operating hours, including weekends and public holidays.

Major capital upgrades, large-scale system redesign and Major Event security services are excluded from the scope.

Disclosure of Interest

Nil

Previous Relevant Documentation

Nil

Background

The previous contract for guarding, patrols and crowd control services under T09-2023 was awarded to Nightguard Security Service SW on 10 November 2023 by the CEO under Delegated of Authority DA-CPM 02 Inviting, Rejecting and Accepting Expressions of Interests and Tenders for a period of two years with the option to extend for a further three years.

The security system maintenance and alarm monitoring components of the new contract were previously delivered by multiple suppliers.

Comment

The Request for Tender T03-2026 was advertised on 28 February 2026 in The West Australian Newspaper, in the Mandurah Times Newspaper on 4 March 2026, on the Tenderlink tender portal and the public notice section of the City of Mandurah website.

The Request for Tender closed at 2:00pm on 26 March 2026. Nine submissions were received from the following respondents:

Entity Name	Business Address	ABN Number	ACN Number
Close Protection Security Services Pty Ltd (Close Protection)	215 Scott Street Cloverdale, WA 6105	52 653 953 532	653 953 532

Iconic Security Services Pty Ltd (Iconic Security)	Ground Floor, 620 Newcastle Street, Leederville, WA 6007	59 659 814 356	659 814 356
Major Security Services Pty Ltd (Major Security)	4/168 Guildford Road, Maylands, WA, 6051	97 139 824 016	139 824 016
National Facilities Management Group WA Pty Ltd (NFMG)	202/37 Barrack St, Perth, WA 6000	29 680 956 852	680 956 852
The Nightguard Security Services SW ATF The Narasimha Swamy Family Trust (Nightguard)	11A Mckinnon Way, East Bunbury, WA 6230	55 424 243 582	661382930
Secure City Protective Services PTY LTD (Secure City Protective)	Suite 6, Building B, 71 Allnutt Street, Mandurah, WA 6210	93 664 252 466	664 252 466
Security Services WA PTY LTD (Security Services WA)	3/31 Century Road, Malaga, WA 6090	70 675 377 367	675 377 367
The Trustee For New Tech Security Services Trust & The Trustee For We Care Security Trust T/As Inland Security Services (ISS)	202/37 Barrack Street, Perth WA 600	60 561 701 258	No ACN
Pickwick Group Pty Ltd as trustee for The Pickwick Cleaning Services (Pickwick Cleaning)	Unit 1/18-22 Alexandra Place, Murarrie, QLD 4172	74 089 708 818	No ACN

One submission was received after the closing deadline and was not considered in the evaluation of the Request for Tender (T03-2026).

The weighted qualitative criteria, which is contained in section 9 of Confidential Attachment 1, was provided to all respondents in the request package issued and was used by the evaluation panel to evaluate and rank each submission.

To ensure that pricing did not influence the assessment of the qualitative criteria, pricing was not provided to the evaluation panel until the evaluation against the qualitative criteria was completed.

Tenderers who reached a benchmark out of 60% of the qualitative criteria were passed through for price assessment. This benchmark reflected the importance of strong service delivery standards and operational capability under the Contract, noting that this service area has historically presented operational challenges and performance inefficiencies for the City.

The prices submitted were entered into the evaluation matrix as shown in section 9 of Confidential Attachment 1, where final analysis considering competitiveness and qualitative was conducted in order to determine whether the submissions represented best overall value for money for the City.

Consultation

Nil

Statutory Environment

Part 4 of the *Local Government (Functions & General) Regulations 1996*.

18. Rejecting and accepting tenders

(1) *A tender is required to be rejected unless it is submitted at a place, and within the time, specified in the invitation for tenders*

...

(4) *Tenders that have not been rejected under sub regulation (1), (2), or (3) are to be assessed by the Local Government by means of a written evaluation of the extent to which each tender satisfies the criteria for deciding which tender to accept and it is to decide which of them (if any) it thinks it would be most advantageous to the local government to accept.*

(5) *The local government may decline to accept any tender.*

Policy Implications

Policy POL-CPM 02 – Procurement.

Policy POL-CPM 01 – Regional Price Preference Policy

City of Mandurah Instrument of Delegations

- Although the total estimated value is below \$3 million, Council consideration is sought due to its proximity to this threshold.

Financial Implications

The estimated total contract value for the full term of the contract, inclusive of all optional extension years, is \$2,991,799.04. This estimate includes projected CPI adjustments. This estimate is based on an anticipated annual expenditure of \$551,279.95 and may vary subject to budget availability and actual service requirements.

Economic Implications

The respondent confirmed that, if awarded the Contract, it would establish and maintain an office in Mandurah. The respondent also indicated an intention to employ local security officers and utilise Mandurah-based facilities for vehicle servicing. This commitment is expected to contribute to local economic development within the City and will be enforced through the negotiation of agreed timeframes and inclusion within the Contract Management Plan.

Risk Implications

The overall risk of appointing the preferred tenderer is considered low, with the tenderer demonstrating the required resources, experience and financial capacity to deliver the services.

A probity adviser was engaged under contract for this procurement process. The Probity Certificate is provided in Confidential Attachment 2.

Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2024-2044 are relevant to this report:

Economy

- Local jobs to retain our people and attract skilled workers
- A thriving city that residents are proud to call home and people want to visit

Community

- Safe and connected communities
- Inclusive and welcoming places, spaces and neighbourhoods
- A healthy lifestyle and healthy community, with an emphasis on prevention

Leadership

- Well-maintained assets and facilities that meet the needs of our community

Conclusion

The City recently invited tenders for the Provision of Security Services. As a result of the evaluation of submissions, Council is now requested to accept or decline to accept the tender identified as the most advantageous to the City.

20 MOTIONS OF WHICH NOTICE HAS BEEN GIVEN

CITY OF MANDURAH

NOTICE OF MOTION

COUNCIL MEETING OF 26 MAY 2026

COUNCILLOR OWEN MULDER

SOUTH EAST DAWESVILLE FORESHORE STAGE 3 WORKS

I hereby give notice that I intend to move the following Motion at the Council meeting of 26 May 2026.

That Council be provided, prior to the commencement of works, with a briefing by City officers on the two path alignment options for Stage 3 works for the South East Dawesville Foreshore, being:

- 1. a path constructed along the South East Dawesville Foreshore.**
- 2. a path constructed behind the Port Bouvard Yacht Club.**

[Cr O Mulder - Reason for the Motion:](#)

That construction of Stage 3 of the South East Dawesville Foreshore project does not commence until City officers have presented to Council the alternative option of redirecting the path behind the Port Bouvard Yacht Club. This option would preserve the existing access to the foreshore for the Port Bouvard Yacht Club. The evaluation by City officers should take into account the stakeholder concerns, including those raised by the Port Bouvard Yacht Club and reflected in the petition received by Council.

Chief Executive Officer comment

In accordance with clause 3.10 Notice of Motion of the *City of Mandurah Standing Orders Local Law 2016*, the Chief Executive Officer provides the following relevant and material facts pertaining to this Notice of Motion:

Project Delivery: This resolution will not affect the expected construction delivery date. However, any subsequent changes to scope are likely to affect delivery timeframes. If, after the briefing, Council seeks changes to the proposed scope, City officers will include a resolution point for Council to acknowledge the revised delivery timeframes and any associated financial implications.

Financial Implications: There are no direct financial implications associated with the resolution itself. However, financial implications may arise if design amendments, re-scoping, further investigation, or delays to procurement or construction are required following the briefing.

Legal Implications: There are no legal implications associated with the resolution.
